4. Exact name of issuer as specified in its charter: **FIRST METRO INVESTMENT CORPORATION**
5. Province, Country or other jurisdiction of incorporation or organization: **Metro Manila, Philippines**
6. Industry Classification Code: (SEC Use Only)
7. Address of principal office: **45th Floor GT Tower Int'l, Ayala Avenue cor H.V. dela Costa St., Makati City**
Postal Code: **1200**
8. Issuer's telephone number, including area code: **(632) 8858-7900**
9. Former name, former address, and formal fiscal year, if changed since last report: **Not Applicable**
10. Securities registered pursuant to Section 8 and 12 of the SRC, or Sec. 4 and 8 of the RSA

Title of Each Class	:	Common Stock
Number of Shares of Common Stock Outstanding	:	372,467,216 shares*

**Net of 48,402,024 treasury shares as of December 31, 2019*

11. Are any or all of these securities listed on a Stock Exchange?

Yes No

If yes, state the name of the stock exchange and the classes of securities listed therein.

12. Check whether the issuer:

(a) has filed all reports required to be filed by Section 17 of the SRC and SRC Rule 17.1 thereunder or Section 11 of the RSA and RSA Rule 11(a)-1 thereunder, and Section 26 and 141 of the Corporation Code of the Philippines during the preceding twelve (12) months (or for such shorter period that the registrant was required to file such reports);

Yes No

(b) has been subject to such filing requirements for the past ninety (90) days.

Yes No

13. State the aggregate market value of the voting stock held by non-affiliates of the registrant. **Not Applicable**

PART I – BUSINESS AND GENERAL INFORMATION

Item 1. BUSINESS

Description of Business

1. Business Development

First Metro Investment Corporation (First Metro) was incorporated on August 30, 1972 in Metro Manila and started business operations as an investment house with quasi-banking functions in May 1974.

In 1999, the management of First Metro agreed on a vision of first, becoming a leading and respected financial institution specializing in investment banking services and second, of being a prime mover in the development of capital markets.

In 2000, Metropolitan Bank & Trust Company (Metrobank) bought majority stake in Solidbank but subsequently decided to merge the bank with its investment banking subsidiary, First Metro Investment Corporation. The said merger, which was approved by the Securities and Exchange Commission (SEC) on September 22, 2000, provided that Solidbank shall be the surviving entity to be renamed First Metro Investment Corporation. The former Solidbank was incorporated on June 25, 1963.

The merged corporation retained its quasi-banking license but gave up its license to engage in commercial banking activities. It also increased its authorized capital stock from ₱3,200,000,000.0 divided into 30,000,000 common shares and 2,000,000 preferred shares, both with a par value of ₱100.0 to ₱8,000,000,000.0 divided into 78,000,000 common shares and 2,000,000 preferred shares, both with a par value of ₱100.0.

The Bangko Sentral ng Pilipinas (BSP) officially gave its nod on the merger on November 8, 2000 but instructed that the 2,000,000 preferred shares be converted to common shares thereby bringing the authorized capital stock of the corporation to 80,000,000 common shares.

As a result of the merger, Metrobank's stake in First Metro was slightly diluted from 100.0% to 98.7% but the merger further reinforced First Metro's hold to being the country's largest investment bank.

In June 2005, the stockholders ratified the approval by the board of directors (BOD) of First Metro for the amendment to its Articles of Incorporation. The amendment pertains to the reduction of the par value from ₱100.0 to ₱10.0 each of the shares of First Metro and increasing the number of the common shares from 80,000,000 to 800,000,000.

In 2011, First Metro was granted by BSP its Authority to engage in trust and other fiduciary business. With the trust franchise, First Metro aims to strengthen its position as the premiere investment house in the country with a full range of financial products and services. Also during this year, the BOD approved the amendment of Article Four of the Articles of Incorporation to extend the corporate life of First Metro for another fifty (50) years from June 25, 2013. The extension of the corporate term of First Metro was approved and ratified by its stockholders on April 26, 2012.

Subsequently, on October 12, 2012, the SEC approved the extension of the corporate term of First Metro Investment Corporation for another fifty (50) years from June 25, 2013 to June 25, 2063.

Also, on that same date, First Metro filed a disclosure with the Philippine Stock Exchange (PSE) on its intention to voluntarily delist its shares and buy back all of its publicly-owned shares via a tender offer following the decision of its Board of Directors to operate as a non-listed entity. The delisting of the Company's shares from the Official Registry of the Exchange was subsequently approved by PSE effective December 21, 2012.

In 2013, First Metro also made history when it listed the first-ever exchange traded fund in the country, the First Metro Philippine Equity Exchange-Traded Fund, on the Philippine Stock Exchange. First Metro is the ETF's proponent and fund sponsor while its subsidiaries, First Metro Asset Management, Inc. and First Metro Securities Brokerage Corporation are the fund manager and principal distributor, and lead authorized participant and market maker, respectively.

In June 2016, the trust and other fiduciary business of the Parent Company ceased its operations.

2. Business of Registrant

Description of Registrant

Principal Products and Services

First Metro is primarily engaged in investment banking and has a quasi-banking license. The company and its subsidiaries offer a wide range of services, from debt and equity underwriting to loan syndication, project finance, financial advisory, government securities and corporate debt trading, equity brokering, online trading, asset management and research. It operates through its two main strategic business units:

- 1. Investment Banking Group** - The Group manages the investment banking business of the company. First Metro stands at the forefront of the Philippine capital markets as the investment bank of choice for prominent corporations and government agencies. Its track record in debt and equity underwriting rests on its key strength in origination, structuring and execution. The investment bank perennially engages in the lion's share of transactions in the debt and equities markets.

Debt Capital Markets - First Metro is widely recognized as a leader in debt capital market issuances. The company provides debt financing solutions to help achieve client objectives that normally include expansion plans, refinancing, strategic acquisitions or buy-outs, or complex project financing.

- SEC-registered Bonds
- Corporate Notes
- Project Finance Facilities
- Syndicated Term Loans

Equity Capital Markets - For years, First Metro has been actively involved in originating and underwriting Philippines equity issuances, whether private placement or public offering. The investment bank integrates its expertise and experience in structuring, execution, and distribution to provide optimal solutions for its clients' capital requirements.

- Initial Public Offerings
- Follow-on Offerings
- Private Placements

Corporate Finance & Advisory - First Metro is a Philippine Stock Exchange-accredited financial advisor providing strategic advice on enhancing corporate value, selecting optimal fundraising structure, and addressing valuation issues.

- Capital & Corporate Restructuring
- M&A Advisory
- Asset Valuation
- Fairness Opinion

- 2. Financial Markets Group** –The Group is responsible for the distribution and trading of financial instruments such as peso- and dollar-denominated government securities and corporate papers, as well as managing the funding and liquidity requirements of First Metro.

Government Securities and Corporate Debt Trading - As a Government Securities Eligible Dealer (GSED), First Metro is authorized by the Bureau of the Treasury and the Securities and Exchange Commission to trade government securities. Over the years, First Metro has remained a dominant selling agent in the distribution of government securities, GOCCs and other corporate issuances.

Fixed Income Distribution - As part of its participation in the underwriting of various private debt issues, First Metro also distributes and sells both government and corporate papers floated by the Bureau of the Treasury and large and prime corporations.

Money Market Placements - First Metro offers peso and dollar promissory notes (PNs). These are short-term investments with maturities ranging from 15 days to one year.

Contribution to Sales/Revenues

Net interest income from financial markets, investing, lending and borrowing operations represent 5.7%, 16.5% and 17.8% of the total revenue of the Group in 2019, 2018 and 2017, respectively. Other operating income which includes Net trading and securities gain, service charges, fees and commission, dividend income, gain on sale of assets and miscellaneous income represents 63.6%, 37.2% and 54.0% of the total revenue of the Group in 2019, 2018 and 2017, respectively. Share in net income of associates represents 30.7%, 46.2% and 28.2% of the total revenue of the Group in 2019, 2018 and 2017, respectively.

Contribution of Foreign Offices

First Metro has no revenue or income derived from foreign market during the year.

Significant Subsidiaries and Affiliates

- *First Metro Securities Brokerage Corporation (FMSBC)*, a wholly-owned subsidiary and the stockbrokerage arm of First Metro. It was incorporated in the Philippines on October 16, 1987 to engage in the trading of or otherwise dealing in stocks, bonds, debentures and other securities or commercial papers and rendering financial advisory services. Serving both institutional and retail clients, it started commercial operations in June 1994. FMSBC is a license trading participant in the PSE. Since October 2006, FMSBC established an online stock trading platform, FirstMetroSec, where clients can trade listed securities online, access timely and accurate market research, and be provided with reliable client support and investor education programs. FirstMetroSec can also be accessed through Android and Apple devices by downloading the FirstMetroSec app from the Play Store and App Store.
- *PBC Capital Investment Corporation (PBC Capital)*, a wholly-owned subsidiary, was incorporated on March 1, 1996 and started commercial operations on March 8, 1996. Metrobank acquired PBC Capital as part of the acquisition of the Philippine Banking Corporation. It was incorporated primarily to perform basic investment banking activities, such as equity and debt underwriting, loan arrangement and syndication, financial advisory services and other corporate finance work.
- *First Metro Asia Focus Equity Fund, Inc. (FMAFEF)*, formerly First Metro Global Opportunity Fund, Inc., a wholly-owned subsidiary, was incorporated on December 23, 2009 to generally engage and to carry on the business of an open-ended investment company in all the elements and details thereof.

- *First Metro Save and Learn Dollar Bond Fund, Inc. (SALDBF)*, formerly First Metro Save and Learn Money Market Fund, Inc., 94.10% owned by First Metro, was incorporated on November 4, 2008. SALDBF is an open-end mutual fund engaged in selling its capital to the public and investing the proceeds in selected high grade stocks and fixed-income securities. It can also redeem its outstanding capital stock at net asset value per share at any time upon redemption of its investors.
- *First Metro Asset Management, Inc. (FAMI)*, was incorporated on April 21, 2005 to manage, provide and render management and technical advice/services for partnerships, corporations and other entities. FAMI is registered and authorized by the SEC to act as an investment company adviser and manager, administrator, and principal distributor of SALFIF, SALEF, SALBF, SALDBF, FMAFEF, FMETF and SALMMF. FAMI is 70.0% owned by FMIC, while 30.0% is shared equally by the Catholic Educational Association of the Philippine (CEAP) and by the Marist (Marist Brothers) Development Foundation.
- *First Metro Philippine Equity Exchange Traded Fund, Inc. (FMETF)*, 44.37% owned by First Metro, was incorporated on January 15, 2013 and subsequently registered under the Philippine Investment Company Act and the Securities Regulation Code as an open-end investment company engaged in the business of investing, reinvesting and trading in and issuing and redeeming its shares of stock in creation unit in exchange for basket of securities representing an index.
- *First Metro Save and Learn Equity Fund, Inc. (SALEF)*, 27.56% owned by FMIC, was registered in SEC on May 27, 2005 and registered in the Philippine Investment Company Act on September 6, 2005 as an open-end mutual fund primarily engaged in selling its capital and investing the proceeds in selected stocks with strong balance sheets and attractive valuations.
- *First Metro Save and Learn Fixed Income Fund, Inc. (SALFIF)*, 26.84% owned by First Metro, was incorporated in the Philippines on June 3, 2005 and subsequently registered under the Philippine Investment Company Act on September 6, 2005. SALFIF is an open-end mutual fund company engaged in selling its capital to the public and investing the proceeds in selected high grade fixed income generating instruments, such as bonds, commercial papers and other money market instruments. It stands at any time to redeem its outstanding capital stock at net asset value per share.
- *First Metro Save and Learn Balanced Fund, Inc. (SALBF)*, 24.27% owned by First Metro, was incorporated in the Philippines on January 29, 2007 and subsequently registered under the Philippine Investment Company Act last May 10, 2007 to engage in the trading of stocks and fixed income securities.
- *Cathay International Resources Corporation*, 34.74% owned by FMIC, was incorporated on April 26, 2005 primarily to acquire by purchase or exchange and use for investment or otherwise sell or transfer properties. It owns Marco Polo Cebu Plaza Hotel.
- *Philippine Axa Life Insurance Corporation (“AXA Philippines”) (PALIC)*, 28.18% owned by FMIC, is a life insurance company incorporated in November 1962. Year 2019 is the 19th year of the joint venture between Metrobank and the AXA Group (the world’s largest insurance company). PALIC affirmed its position as a major player and formidable entrant in the life insurance industry. PALIC ranked no. 2 and no. 4 based on premium income and on total assets owned as of December 31, 2018, respectively, based on Insurance Commission statistical reports.
- *Orix Metro Leasing and Finance Corporation (ORIX Metro)*, 20.00% owned by First Metro was incorporated and registered with SEC on June 28, 1977. Its primary purpose is to engage in financing by leasing of all kinds of real and personal property, extending credit facilities to consumers and enterprises by discounting commercial papers or accounts receivable, or by buying or selling evidences of indebtedness, and underwriting of securities.
- *Lepanto Consolidated Mining Company (LCMC)*, 13.45% owned by First Metro, was incorporated in 1936 and started only operating an enargite copper mine located in Mankayan, Benguet in 1997. LCMC shifted to gold bullion production in 1997 through its Victoria Project and continues to produce gold from its Victoria and Teresa operations, both located in Mankayan, Benguet.

Distribution Methods of Products and Services

For our distribution business, we look at expanding our channels by developing the Corporate and High Net Worth sectors, in addition to our existing institutional and MBT branch channels. We likewise plan to increase our distribution bandwidth to allow us to sell not only First Metro treasury products but also all available products through the distribution platform of subsidiary First Metro Securities Brokerage Corporation. We continue to strengthen our relationship with MBT Sales and Investment Distribution Division (IDD) by collaborating on cross-selling initiatives for both First Metro and MBT products.

Competition

We are the only full-fledged investment bank in the Philippines with sales & trading and equity investments complementing our investment banking business.

Major competitors of First Metro in the investment banking space include: BDO Capital & Investment Corp., BPI Capital Corp., ChinaBank Capital, SB Capital, RCBC Capital Corp., State Investment Trust Corp., AB Capital and Investment Corp. and Multinational Investment Bancorporation.

We believe that we can effectively contend with other companies in the investment banking industry because we are the largest capitalized investment house in the country with consolidated capital funds of ₱14.9 billion and consolidated total assets of ₱35.6 billion as of December 31, 2019. We are the investment banking arm of the Metrobank Group and are considered to be the largest investment bank in the country, recognized by our peers, clients, international financial organizations and regulators.

Principal Suppliers and Major Clients

First Metro has no raw materials for its business. Hence, it is not dependent upon one or a limited number of suppliers for essential raw materials, energy or other items. First Metro has no major existing supply contracts.

The business of First Metro is not dependent upon a single client or a few clients. The loss of one or more would not have any material or adverse effect on First Metro and its subsidiaries taken as a whole. Clients are diversified and distributed out that no single client or a few clients will account for twenty percent (20.0%) or more of its business.

Transactions with and/or Dependence on Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions or if they are subjected to common control or common significant influence. Related parties may be individuals or corporate entities.

The Group and the Parent Company have transactions with its subsidiaries, associated companies, affiliates, and with certain related interests collectively referred to as directors, officers, stockholders and other related interests (DOSRI). These transactions consist primarily of loan transactions, management contracts, outright purchases and sales of trading and investment securities, business and development support and other regular banking transactions.

Existing BSP regulations limit the amount of individual loans to DOSRI, of which 70.0% must be secured, to the total amount of their respective deposits and book value of their respective investments in the Parent Company. In the aggregate, loans to DOSRI generally should not exceed 100.0% of the Parent Company's combined capital accounts, net of deferred income tax, unbooked valuation reserves and other capital adjustments as may be required by the BSP.

The following table shows information on loans receivables to DOSRI as of December 31, 2019 and 2018:

	2019	2018
Total outstanding DOSRI loans	₱8,282,245	₱9,907,937
Percent of DOSRI loans to total loans receivable	1.6%	2.0%
Percent of unsecured DOSRI loans to total DOSRI	0.0%	0.0%
Percent of past due DOSRI loans to total DOSRI	0.0%	0.0%
Percent of non-performing DOSRI loans to total DOSRI	0.0%	0.0%

Under BSP Circular No. 423, loans and other credit accommodations and guarantees secured by assets are considered as non-risk by the Parent Company and therefore excluded from DOSRI individual and aggregate ceilings.

The following table provides the total amount of transactions that have been entered into by First Metro with its related parties for the year ended 2019 and 2018:

	2019						
	Deposits	Withdrawals	Sale of Securities	Purchase of securities	Availments of term loans	Issuance of promissory notes	Borrowings

Government Approval of Principal Products of Services

The Group regularly obtains approvals and permits from regulatory bodies and agencies, as applicable, before offering its products and services to the public.

The quasi-banking license given by BSP, which do not require subsequent renewal or approval, allows First Metro to borrow funds for its own account with twenty or more lenders at any one time thru issuance, endorsement, or acceptance of debt instruments of any kind, other than deposits for the purpose of relending or purchasing of receivables or other obligations.

The license granted by SEC to First Metro as an investment house and as government securities dealer and the license to act as Investment Company Adviser of First Metro Save and Learn Equity Fund, Inc. was renewed yearly.

Both shall remain valid unless suspended or revoked for cause or cancelled by the Commission or voluntarily surrendered by the registrant. This authorizes First Metro to operate as an investment house and to distribute and sell government securities on a public or private placement basis. It also empowers First Metro to enter into a contract with another entity to further distribute the securities that it has underwritten.

The exemption fee it paid to the SEC for the issuance of short and long-term commercial papers covers the calendar year 2019 and is renewable on an annual basis. Other than its license as an investment house engaged in dealing in government securities and its registration exemption for the issuance of short and long term commercial papers, other First Metro's products and services do not require government approval.

Effective or Existing or Probable Government Regulations

First Metro is subject to various laws, rules and regulations issued by the SEC, BSP, Bureau of Internal Revenue (BIR) and Anti-Money Laundering Council (AMLC).

Being an investment house company, First Metro's business and operations are governed by the Investment Houses Law or Presidential Decree 129.

Applicable Tax Regulations

Under Philippine tax laws, First Metro and its domestic subsidiaries are subject to percentage and other taxes as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax and documentary stamp taxes. Income taxes include 30% regular corporate income tax and 20% final taxes paid, which is a final withholding tax on gross interest income from government securities and other deposit substitutes. Interest allowed as a deductible expense is reduced by an amount equivalent to 33% of interest income subjected to final tax.

Current tax regulations also provide for the ceiling on the amount of entertainment, amusement and recreation (EAR) expense that can be claimed as a deduction against taxable income. Under the regulation, EAR expense allowed as a deductible expense for a service company like First Metro and its subsidiaries is limited to the actual EAR paid or incurred but not to exceed 1% of net revenue. The regulations also provide for Minimum Corporate Income Tax (MCIT) of 2% on modified gross income and allow a NOLCO. The MCIT and NOLCO may be applied against First Metro's income tax liability and taxable income, respectively, over a three-year period from the year of inception.

Capital Adequacy

Under existing BSP regulations, the determination of the Parent Company's compliance with regulatory requirements and ratios is based on the amount of the Parent Company's "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of regulatory accounting policies which, in some respect, differ from that of the PFRS.

Effective January 1, 2014, the Group complied with BSP issued Circular No. 781, Basel III Implementing Guidelines on Minimum Capital Requirements, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50% and also introduced a capital conservation buffer of 2.50% comprised of CET1 capital. The existing requirement for Total Capital Adequacy Ratio (CAR) remains unchanged at 10.00% and these ratios shall be maintained at all times.

As of December 31, 2019 and 2018, the Group has no exposures to securitization structures, contracts that provide credit protection through credit derivatives and investments in other types of structured products.

The issuance of BSP Circular No. 639 covering the Internal Capital Adequacy Assessment Process (ICAAP) in 2009 supplements the BSP's risk-based capital adequacy framework under Circular No. 538. In compliance with this new circular, the Metrobank Group has adopted and developed its ICAAP framework to ensure that the appropriate level and quality of capital is maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Group. The level and structure of capital are assessed and determined in light of the Group's business environment, plans, performance, risks and budget, as well as regulatory edicts. The Group follows the Metrobank Group's ICAAP framework and submits the result of its assessment to the Ultimate Parent Company. The BSP requires submission of ICAAP documents on a group-wide basis every January 31. The Group, through the Ultimate Parent Company, has complied with the requirement.

The Group has taken into consideration the impact of the foregoing requirements to ensure that the appropriate level and quality of capital are maintained on an ongoing basis.

Liquidity Coverage Ratio (LCR)

The issuance of BSP Circular No. 905 and 995 in 2016 and 2018, respectively, provides the implementing guidelines on LCR and disclosure standards that are consistent with the Basel III framework. The LCR is the ratio of high-quality liquid assets to total net cash outflows which should not be lower than 100.00%. During the observation period which started from January 1, 2018 to December 31, 2018, the Group is required to comply with the minimum LCR requirement of 90.0%. Issuance of BSP Circular No. 1035 in 2019 moved the observation period until December 31, 2019 with the prescribed minimum ratio of 70.0%. Effective, January 1, 2020, the Group is required to comply with the prescribed minimum ratio of 100%. As of December 31, 2019 and 2018, the LCR in single currency as reported to the BSP, was at 153.8% and 132.8%, respectively for the Group, and 192.0% and 148.3%, respectively for the Parent Company.

Net Stable Funding Ratio (NSFR)

On June 6, 2018, the BSP issued BSP Circular No.1007 covering the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards – NSFR. The NSFR is aimed to promote long-term resilience against liquidity risk by requiring the Group to maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. It complements the LCR, which promotes short term resilience of the Group's liquidity profile. The Group shall maintain an NSFR of at least 100 percent (100%) at all times. The implementation of the minimum NSFR shall be phased in to help ensure that the Group can meet the standard through reasonable measures without disrupting credit extension and financial market activities. An observation period was set initially from July 1 to December 31, 2018 which was later on moved to December 31, 2019 based on BSP Circular No. 1034 series of 2019 with minimum NSFR requirement of

70.0%. Effective, January 1, 2020, the Group is required to comply with the prescribed minimum ratio of 100%. As of December 31, 2019 and 2018, the NSFR as reported to the BSP, was at 122.5% and 118.6%, respectively for the Group, and 128.2% and 121.8%, respectively for the Parent Company.

First Metro is committed to strictly observe and comply with existing laws, rules and regulations issued by the regulators. First Metro endeavored to create policies that will enhance and strengthen internal controls based on the abovementioned BSP Manual of Regulations for Non-Bank Financial Institutions (MORNBF) and the 2015 SRC Rules.

Pursuant to RA 10173, otherwise known as the Data Privacy Act of 2012, the National Privacy Commission issued its Implementing Rules and Regulations (IRR) which took effect on September 8, 2016. First Metro and its subsidiaries are covered by this IRR because we are processing sensitive personal information of more than one thousand (1,000) individuals that pose risk to the rights and freedoms of data subjects.

As a covered institution, both being regulated and supervised by AMLC, SEC and BSP, First Metro has to conduct due diligence of its clients in obtaining funds from the public as a requirement by Anti-Money Laundering Law and its Implementing Rules and Regulations. More stringent due diligence and verification procedures are required for high-risk clients, if necessary. Among the notable laws on Anti-Money Laundering and Terrorist Financing issued previously are the following: R.A. 10167 or Law to Further Strengthen the AMLA, R.A. 10168 or Terrorist Financing Act of 2012, R.A. 10365 and its Implementing Rules and Regulations and the latest 2018 RIRR of RA 9160, as amended. BSP also issued Circular No.1022 dated November 26, 2018 which amends Part Eight or the Anti-Money Laundering Regulations of the Manual of Regulations for Banks and MORNBF.

Other than these, First Metro is not aware of any existing or probable government regulation that affects or is affecting its business.

Compliance with Environmental Laws

Pursuant to the Company’s social responsibility, First Metro continues to support the government’s advocacy to protect our natural resources. First Metro has not incurred any penalty resulting from non-compliance with environmental laws.

Research and Development Costs

First Metro has not undergone, and therefore has not incurred costs, into any research and development activities during the last three years.

Employees

As of December 31, 2019, First Metro has a total of 141 employees. Rank and file employees represent 21.3% of the total work force. None of them are subjected to any collective bargaining agreement (CBA) and had not been in any dispute with management for the past three years. The table below shows the number of employees for the past two years (2019 and 2018) and First Metro’s projection for the year 2020.

	2020	2019	2018
Officers	127	111	121
Rank and File	30	30	36
	157	141	157

Major Risks Involved

The Group has exposures to the following risks from the use of financial instruments: (a) Operational risk; (b) Regulatory Compliance risk; (c) Credit risk; (d) Liquidity risk; (e) Market risk. Detailed discussions and analysis on Risk Management of the Group are disclosed in Note 4 of the Audited Financial Statements as presented in Exhibit 3.

Risk Management Framework

The Group's implementation of the risk management process involves a top-down approach that starts with the BOD. The Parent Company's BOD, through the board-level Risk Oversight Committee (ROC), is actively involved in planning, reviewing, assessing and approval of all risks involved within the Parent Company. ROC also establishes the risk culture and sets the tone for all institutional risk-related activities and ensures that the risk policies are clearly formulated and disseminated within the Parent Company.

The ROC's functions are supported by the Executive Committee (EXCOM), which provides essential inputs and advice, particularly on credit and investment policy matters. The EXCOM is provided with the necessary assistance by the following management working committees, namely: the Senior Management Committee (SMC), the Credit Committee (CreCom), the Investment Committee (InCom), Deal Committee (DealCom) and the Policy Committee (PolCom).

RMD is tasked with identifying, analyzing, measuring, controlling and evaluating risk exposures arising from fluctuations in the prices or market values of instruments, products and transactions of the Parent Company and certain subsidiaries. It is responsible for recommending trading risk and liquidity management policies, setting uniform standards of risk assessment and measurement, providing senior management with periodic evaluation and simulation and analyzing limit compliance exceptions. The RMD furnishes daily reports to Senior Management and RTUs and provide monthly reports to ROC. The RMD also coordinates with the Risk Taking Units (RTUs) and the Risk Control and Compliance Units (RCCUs) of the Parent Company with regard to the submission of requisite reports on their risk compliance and control activities.

The Parent Company requires either internal or external legal opinions to ensure that all documentations related to transactions entered into by the Parent Company are enforceable. Specific, internal legal functions/responsibilities including coordination with external counsel groups are handled by the Legal Department.

Operational Risk

The Parent Company's operational risk management framework outlines its effective management of operational risks via a staged approach which involves risk identification, analysis and assessment, treatment, monitoring and reporting. The document also provides pertinent operational risk management tools that need to be in place.

In line with the framework, various methodologies and tools were established to facilitate management of operational risk. These include operational risk incident data management, risk event database maintenance, risk assessment, key risk indicator monitoring and contingent legal liability reporting. The Parent Company, likewise, has in place a responsive risk management policy for effective oversight, due diligence and management of risks arising from outsourcing, prior to entering into, as well as, during the lifespan of an outsourcing agreement/arrangement. This is recognizing that while outsourcing can be cost effective and brings other competitive advantages, it also poses an Outsourcing Risk. Outsourcing Risk is the risk that third party service providers may not act within the intended limits of their authority and/or not perform in a manner consistent with outsourcing party's strategies, objectives and desired results, as well as, legal and regulatory requirements.

Moreover, the Parent Company has in place a structured Information Systems Strategic Plan (ISSP). The plan is reviewed and updated on regular basis to keep it in sync with Parent Company's strategic business direction.

The Ultimate Parent Company, on the other hand, thru its Internal Audit Group (IAG), reviews operational risk management processes and provide an independent assurance as to its adequacy and effectiveness.

Credit Risk

Credit risk is the risk of financial loss to the Group if a counterparty to a financial instrument fails to meet its contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relation to such limits. Counterparty credit lines are established by the Parent Company annually to guide its transactions. Business transactions are restricted to these accredited counterparties, and any violations are reported to the designated control units.

Liquidity Risk and Funding Management

Liquidity risk is generally defined as the current and prospective risk to earnings or capital arising from the Group's inability to meet its obligations when they come due without incurring unacceptable losses or costs.

Liquidity management is among the most important activities conducted within the Group. The Group manages its liquidity risk through analyzing net funding requirements under alternative scenarios, diversification of funding sources and contingency planning.

For liquidity risk, the Group uses the Maximum Cumulative Outflow (MCO or Liquidity Gap) analysis in analyzing its funding requirements. The report is prepared once a month and forwarded to the SMC and the RTU. The assumptions employed in the preparation of this report are approved by the BOD. These assumptions are reviewed and updated, as necessary, by the Senior Management through the RMD and Treasury Group. In addition, the Group develops a Liquidity Risk Management and Contingency Funding Plan to serve as reference in case of an occurrence of an event. This plan is also approved by the BOD.

The Group's liquidity risk is managed by holding sufficient liquid assets of appropriate quality to ensure short-term funding requirements are met and by maintaining a portfolio of unencumbered government securities. Deposits with banks are made on a short-term basis with almost all being available on demand or within one month.

The Treasury Group uses liquidity forecast models that estimate the Group's cash flow needs based on the Group's actual contractual obligations and under normal and extraordinary circumstances. Based on the behavioral pattern of the deposit substitute accounts, which has been observed to have a "core deposit" level of about 80.0% to 90.0%, liquidity forecast and/or plans for its use are determined like earmarking for future loans and for other investment outlets. The plans and strategies in the liquidity risk management are contained in the board-approved Liquidity Risk Management and Contingency Funding Plan.

Liquidity is monitored by the Group on a daily basis and further analyzed at predetermined scenarios/situations.

Market Risk

Market risk is the risk of loss to future earnings, fair values or future cash flows that may result from changes in the price of a financial instrument. The Parent Company's market risk originates from its holdings of debt securities and equities.

The Parent Company manages market risk by segregating its statement of financial position into a trading book and a banking book. The management of this portfolio is assigned to the SMC, chaired by the President.

The RMD serves under the ROC and performs daily market risk analyses to ensure compliance with the company's policies and procedures. The methodologies used in managing the risk include the daily marking-to-market, monitoring of loss alerts and stop loss limits, profit alert and start sell limits, nominal position limits as well as Value-at-Risk (VaR) and Earnings-at-Risk (EaR) limits.

Stress testing on the portfolio is also done on a daily basis to complement the VaR methodology. The stress testing results are reported to the President and Treasurer as well as to the Controller and the CRO and subsequently to the ROC and the BOD.

Foreign exchange risk

Foreign exchange risk is the risk to earnings or capital arising from changes in foreign exchange rates. The Group takes an exposure to effects on the fluctuations in the prevailing foreign currency exchange rates on its cash flows.

Equity price risk

Equity price risk is the risk that the fair values of equities will fluctuate as a result of changes in the levels of equity indices and the value of individual stocks. The non-trading equity price risk exposures arise from the Parent Company's investment portfolio and a few club shares.

The Parent Company's policies and procedures as well as risk limit structures on its equity investment portfolio are approved by the ROC and BOD. Management's strategies and plans are discussed in the regular Incom meetings. The committee is headed by the President and the members include the Treasurer and the investment managers.

First Metro's Legal Division is tasked to ensure that all documentations related to transactions entered into by the Company are enforceable and that contracting parties have the required legal capacity to do so. The Compliance Division has the primary duty of identifying, monitoring and controlling compliance with regulatory policies.

The management of risks is being observed in the areas of credit, treasury operations, as well as in all legal dealings by the designated officers and staff of First Metro applying sound risk management practices in its day-to-day transactions. First Metro endeavors to strike a critical balance of attaining optimal returns while taking calculated risks. Inextricable from our passion for excellence, Risk Management Division and Information Security Department were formed to oversee the identification, evaluation and assessment of business and systems risks inherent to First Metro's operations. The major objective of the two units is to enhance risk awareness among First Metro's personnel in order to achieve a more disciplined approach in the overall management of risks.

Item 2. DESCRIPTION OF PROPERTIES

Please refer to Exhibit 1 for the location and condition of the principal properties that First Metro and its subsidiaries owned and the limitations to their ownership, if any.

First Metro leases its office space in 43rd and 45th Floor of GT Tower in Makati City at monthly rentals, inclusive of 12% VAT, amounting to ₱0.52 million and ₱1.87 million, respectively, subject to increases as provided. The leases are renewable every five years unless sooner terminated as provided in the contract of lease.

First Metro terminated the office premises it leases in 26th Floor of GT Tower, Makati City and in Wellington Building, Binondo, Manila last October 31, 2017 and December 31, 2017, respectively. First Metro then renovated its owned condominium units in Skyland Plaza, Makati City to serve as its extension office.

First Metro has no major planned capital expenditure for the year 2020.

Item 3. LEGAL PROCEEDINGS

There are no material legal proceedings filed by or against First Metro, its directors and executive officers nor any petition for bankruptcy, or violation of the Securities Regulation Code has been filed, issued or committed, up to the latest date that are material to evaluation.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There are no matters submitted during the fourth quarter of the calendar year covered by this report to a vote of security holders, through the solicitation of proxies or otherwise.

PART II – OPERATIONAL AND FINANCIAL INFORMATION

Item 5. MARKET PRICE OF AND DIVIDENDS ON ISSUER’S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Market Information

The Parent Company’s shares of stock (originally Solidbank) were listed in the Philippine Stock Exchange, Inc. (PSE) on October 25, 1963 and were subsequently delisted effective December 21, 2012.

Holdings

As of December 31, 2019, there are 1,375 shareholders of First Metro’s common stock. Shown below are the top twenty (20) shareholders, including the number of shares and percentage of ownership held by each as of the same date.

Name of Stockholders	No. of Common Shares Held	Percentage of Ownership*
Metropolitan Bank & Trust Co.	369,736,960	99.2670%
Cuaycong, Jose G.	85,320	0.0229
Per, Apolinario O.	60,800	0.0163
Yu, Juan G. &/or Grace C. Yu	57,350	0.0154

**Computed based on outstanding shares*

Dividends

Details of First Metro's dividend declarations/payments are as follows:

Date of Declaration	Dividend		Record Date	Payment Date
	Per Share	Total Amount		
May 25, 2017	₱7.65	₱2,849,965,777	June 9, 2017	June 23, 2017
December 19, 2016	8.06	3,002,710,540	December 29, 2016	January 12, 2017

The BOD of First Metro can authorize the declaration of its dividends. The President, as authorized by the BOD, sets the record and payment dates on such dividend declaration.

Aside from the preconditions above-mentioned, there are no other restrictions that limit the ability of First Metro to pay dividends on its common equity.

Recent Sale of Unregistered Securities

There are no securities of the registrant sold by it within the past three (3) years which were not registered under the Code.

Item 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The Group's Financial Statements as of and for the years ended December 31, 2019, 2018 and 2017 are presented below.

2019 Performance

Results of Operations

First Metro ended the year 2019 with consolidated net income attributable to equity holders of the Parent Company of ₱402 million. This is 20.0% or ₱101 million lower than last year's result of ₱503 million.

Total consolidated gross revenues which comprised of net interest income, other operating income and share in net income of investees reached to ₱2,521 million, ₱378 million or 17.7% higher than the ₱2,143 million recorded last year.

Net interest income derived from lending, investment and borrowing activities amounting to ₱143 million represents 5.7% of the total consolidated revenues of the Group. This account decreased by 59.6% or ₱211 million compared with last year's revenue of ₱354 million mainly due to the effect of higher interest rate on borrowings during the year. Interest income earned on investments increased by ₱13 million while interest expense incurred on borrowings also increased by ₱224 million or 29.2% during the year.

Other operating income totaled ₱1,603 million and represents 63.6% of the total revenues. It is composed of net trading and securities gains (losses), service charges, fees and commissions, dividend income, gain on sale of assets, foreign exchange gain (loss), and miscellaneous income. The increase of 100.9% or ₱805 million compared with last year's result of ₱798 million was mainly due to higher realized and unrealized trading gains from investments securities of the Group incurred this year.

Operating expenses consist of taxes and licenses, compensation and fringe benefits, provision for impairment losses and other administrative and miscellaneous expenses. The increase of 40.4% or ₱536 million was mainly due to the higher provision for impairment losses incurred this year.

Share in net income of investees represents 30.7% of the total consolidated revenues amounting to ₱775 million. This is ₱216 million or 21.8% lower from last year's results of ₱991 million. This year's share in net earnings mostly came from PALIC (₱700 million) and OMLFC (₱222 million).

Provision for income taxes totaled ₱251 million, 19.5% or ₱61 million lower than last year's result of ₱312 million. The decrease was mainly due to lower income subjected to final tax and RCIT of the Group this year.

Total comprehensive income decreased by 105.8% or ₱422 million from last year's result of ₱399 million income to ₱23 million loss mainly due to the net effect of lower net income recognized by the Group and net equity share in other comprehensive losses of Parent Company's Associates. For the year ended December 31, 2019, total comprehensive income (loss) attributable to equity holders of the Parent Company decreased by 106.8% or ₱427 million to ₱27million loss from ₱400 million income for the same period in 2018.

In terms of return on equity, First Metro achieved 2.7% in 2019 as compared to 3.5% in 2018.

Financial Position

The changes in consolidated total assets were primarily due to the movements in the following accounts:

Cash and Cash Equivalents

Due from Bangko Sentral ng Pilipinas represents the balance of the deposit accounts maintained with BSP to meet the reserve requirements on deposit substitute liabilities and bonds payable and serves as a clearing account for interbank transactions and special deposit accounts. This account increased by 64.3% or ₱2,243 million from ₱3,490 million to ₱5,733 million this year mainly due to ₱4,478 million outstanding overnight and term deposit facility netted by the decrease in demand deposit account of ₱2,235 million as of December 31, 2019.

Cash and other cash items, which comprises of due from other banks and other cash items, went up by 35.1% or ₱1,030 million from ₱2,935 million to ₱3,965 million mainly due to higher outstanding time deposit and savings account balances this year.

Interbank Loans Receivable and Securities Purchased Under Resale Agreements (SPURA)

This account represents the overnight lending under SPURA with BSP.

Investment Securities

Financial Assets at Fair Value Through Profit or Loss (FVTPL) consists of investments in government securities and private debt and equity securities. The increase of 27.8% or ₱2,661 million from ₱9,559 million to ₱12,220 million mainly due to higher government securities portfolio this year.

Financial assets at FVTPL include fair value gain of ₱220 million in 2019 and fair value loss of ₱596 million in 2018.

Fair Value Through Other Comprehensive Income (FVOCI) represents investments in government securities and private debt and equity securities. The increase of ₱1,223 million or 184.1% from ₱665 million to ₱1,888 million was mainly due to the ₱1,302 million net purchases during the year.

As of December 31, 2019 and 2018, FVOCI investments include net unrealized loss of ₱687 million and ₱250 million, respectively.

Amortized Cost consists of investments in government securities and private debt securities. The decrease of ₱16,443 million or 96.5% from ₱17,034 million to ₱591 million this year was mainly due to ₱16,426 million sales of investment securities held by the Parent Company during the year.

Loans and Receivables consist of Unquoted Debt Securities Classified as Loans (UDSCL), loans and discount and other receivable accounts. The increase of 6.2% or ₱98 million from ₱1,588 million to ₱1,686 million this year was mainly due higher outstanding accounts receivable this year.

UDSCL consists of various debt instruments issued by private corporations. This account decreased by ₱2 million from ₱632 million to ₱630 million due to partial payment during the year.

Loans and Discount increased by 5.8% or ₱27 million from ₱476 million to ₱503 million due to the impact of ₱1,498 million loan repayments offset by ₱1,525 million loan grants during the year.

Other Receivables went up by 15.2% or ₱73 million from ₱479 million to ₱552 million. This account consists of accrued interest receivable, dividend receivable, account receivables, and other receivables. The increase was mainly due to higher outstanding account and other receivables as of reporting date.

Property and Equipment

This account pertains to condominium units and improvements, furniture, fixtures and equipment owned by the Group. The increase of 39.9% or ₱43 million from ₱106 million to ₱149 million was mainly due to the booking of ₱103 million right-of-use asset in accordance with adoption of PFRS 16, Leases, ₱20 million net acquisitions of various furniture and fixtures and ₱80 million depreciation expense recorded during the period.

Investments in Subsidiaries and Associates

This represents the costs of investments in shares of stocks in allied/non-allied undertakings. The ₱286 million increase from ₱6,583 million to ₱6,869 million this year was mainly due to the ₱775 million share in net earnings, ₱70 million equity share in other comprehensive income of Associates netted by ₱439 million provision for impairment losses and ₱120 million share in cash dividend.

Investment Properties

This account consists of land and condominium units held for sale or for lease. The decrease of ₱17 million or 8.1% from ₱206 million to ₱189 million this year was mainly due to ₱16 million disposal of property and ₱1 million depreciation expenses incurred during the year.

Deferred Tax Assets

This account consists of net deductible temporary differences. The increase of ₱34 million or 98.0% from ₱35 million to ₱69 million was mainly due to NOLCO and reversal of taxable temporary difference from retirement assets of the Group recognized during the year.

Other Assets

This account includes prepayments, intangible assets, refundable deposits, deferred charges, unissued office supplies, input taxes and others. This account decreased by ₱69 million or 6.9% from ₱998 million to ₱929 million this year mainly due to lower retirement, intangible, prepayments and miscellaneous asset account this year.

Bills Payable

This account comprises of deposit substitutes and other borrowings obtained from local banks, private firms and individuals. The decrease of 30.3% or ₱4,915 million from ₱16,222 million to ₱11,307 million was mainly due to decrease in level of financial assets being funded by this account during the year. Net proceeds from issuances and settlements during the year amounted to ₱244 billion and ₱249 billion, respectively.

Accounts Payable

This account increased by 20.8% or ₱386 million from ₱1,859 million to ₱2,245 million this year mainly due to the higher unsettled purchases of equity shares of subsidiaries' participants/customers as of reporting date.

Accrued Taxes, Interest and Other Expenses

This account consists of expenses incurred on taxes, licenses, interests on borrowings, retirement liability and other expenses which have remained unpaid as of reporting date. The decrease of ₱11 million or 7.6% from ₱153 million to ₱142 million this year was mainly due to lower accrued interest payable and accrued other expenses netted by higher accrued taxes and retirement liability as of reporting date.

Bonds Payable

This account consists of the fixed rate corporate bonds issued by the Parent Company. As of December 31, 2018, this has outstanding balance of ₱2,917 million. The bonds matured in August 2019.

Income Taxes Payable

This account decreased by ₱2 million or 13.7% from ₱14 million to ₱12 million this year mainly due to lower taxable income of the Group. During the year, the Group already paid a total of ₱284 million in regular corporate income tax and final tax.

Puttable Instruments of Mutual Fund Subsidiaries Classified as Liability

This account pertains to the ownership interest of other shareholders outside the Group in the puttable instruments issued by mutual fund subsidiaries. This account went down by ₱226 million from ₱6,779 million to ₱6,553 million this year mainly due to decrease in value of these puttable instruments.

Deferred Tax Liability

This account decreased by ₱1 million or 22.6% from ₱5 million to ₱4 million this year mainly due to lower taxable temporary differences recognized by the Group during the year.

Other Liabilities

This account consists of payables for securities purchased, withholding taxes, dividends, subscription and premium payables, non-equity non-controlling interest and other miscellaneous liabilities. This account increased by ₱148 million or 41.6% from ₱356 million to ₱504 million this year mainly due to higher outstanding miscellaneous liabilities and recorded lease liability during the year.

Equity

First Metro's capital funds ended at ₱14,773 million, ₱30 million lower from last year's ₱14,803 million, which translates to 45.6% capital adequacy ratio (CAR). This is far beyond the 10.0% CAR required by BSP on non-bank financial intermediaries with quasi-banking function. The changes of this account were primarily due to the following:

Retained Earnings increased by ₱402 million from ₱11,382 million to ₱11,784 million mainly due to Group's results of operations recognized during the year.

Treasury Stock increased by ₱2 million from ₱2,660 million to ₱2,662 million as of reporting year.

Net Unrealized Loss on FVOCI increased by ₱437 million or 174.8% from ₱250 million to ₱687 million this year mainly due to the decline in market value of Parent Company's investment in FVOCI during the year.

Cumulative Translation Adjustment went down by 27.7% or ₱9 million from ₱33 million to ₱24 million this year mainly due to the booking of foreign currency adjustment of Parent Company's foreign currency denominated equity investments with FMSALDBF.

Unrealized Loss on Fair Value Adjustment of Cash Flow Hedge totaled ₱10 million which pertains to fair value adjustment of Parent Company's cross currency swap transaction under cash flow hedge.

Remeasurement of Retirement Liability decreased by 93.6% or ₱44 million from ₱47 million to ₱3 million mainly due to the effect of the remeasurements of the post-employment defined benefit plans to be recognized in other comprehensive income this year.

Equity in Other Comprehensive Income of Associates pertains to Equity Share on Decline in Value of Investments Securities, Translation Adjustment, Unrealized Gains (Losses) Arising from Remeasurement of Retirement and Life Insurance Reserves of Parent Company's Associates. This account increased by ₱70 million or 295.5% from ₱24 million loss to ₱46 million gain this year mainly due to the increase in the Parent Company's proportionate share in the changes in the fair value of FVOCI investments netted by the decrease in remeasurement of retirement liabilities and life insurance reserves of associates.

Equity Attributable to Non-controlling Interest increased by ₱4 million from ₱91 million to ₱95 million which was attributable to the increase in capital funds of majority owned subsidiary of the Parent Company.

2018 Performance

Results of Operations

First Metro ended the year 2018 with consolidated net income attributable to equity holders of the Parent Company of ₱503.0 million. This is 57.2% or ₱671.9 million lower than last year's result of ₱1.2 billion.

Total consolidated gross revenues which comprised of net interest income, other operating income and share in net income of investees reached to ₱2.1 billion, ₱804.7 million or 27.3% lower than the ₱2.9 billion recorded last year.

Net interest income derived from lending, investment and borrowing activities amounting to ₱353.8 million represents 16.5% of the total consolidated revenues of the Group. This account decreased by 32.6% or ₱171.2 million compared with last year's revenue of ₱525.0 million mainly due to the effect of lower level or volume of interest-earning assets and deposits substitutes during the year. Interest income earned on investments decreased by ₱203.2 million or 15.3% while interest expense incurred on borrowings decreased by ₱32.0 million during the year.

Other operating income totaled ₱798.0 million and represents 37.2% of the total revenues. It is composed of gain on sale of assets, net trading and securities gains (losses), service charges, fees and commissions, dividend income, foreign exchange gain, and miscellaneous income. The decrease of 49.9% or ₱794.6 million compared with last year's result of ₱1.6 billion was mainly due to realized and unrealized trading losses from held-for trading assets of the Group incurred this year.

Operating expenses consist of taxes and licenses, compensation and fringe benefits and other administrative and miscellaneous expenses. The decrease of ₱41.0 million was mainly due to the lower miscellaneous expenses incurred this year.

Share in net income of investees represents 46.3% of the total consolidated revenues amounting to ₱991.1 million. This is ₱161.2 million or 19.4% higher from last year's results of ₱829.9 million. This year's share in net earnings mostly came from PALIC (₱869.1 million) and OMLFC (₱246.0 million).

Provision for income taxes totaled ₱311.9 million, 19.3% or ₱74.7 million lower than last year's result of ₱386.6 million. The decrease was mainly due to lower income subjected to final tax and RCIT of the Group this year.

Total comprehensive income decreased by 66.7% or ₱798.0 million from last year's result of ₱1.2 billion to ₱399.0 million mainly due to the net effect of lower net income recognized by the Group amounting to ₱502.9 million, changes in the fair value of AFS investments, remeasurement of retirement liability and equity share in comprehensive income of Associates totaling ₱103.9 million. For the year ended December 31, 2018, total comprehensive income attributable to equity holders of the Parent Company decreased to ₱400.3 million or by 66.1% or ₱778.8 million from ₱1.2 billion for the same period in 2017.

In terms of return on equity, First Metro achieved 3.5% in 2018 as compared to 7.9% in 2017.

Financial Position

The changes in consolidated total assets were primarily due to the movements in the following accounts:

Cash and Cash Equivalents

Due from Bangko Sentral ng Pilipinas decreased by 20.7% or ₱910.0 million from ₱4.4 billion to ₱3.5 billion this year. This account represents the balance of the deposit accounts maintained with the BSP to meet the reserve requirements on deposit substitute liabilities and serves as a clearing account for interbank transactions. The decrease was mainly due to lower bills payable outstanding as of December 31, 2018.

Cash and other cash items, which comprises due from other banks and other cash items, went down by 44.8% or ₱2.4 billion from ₱5.3 billion to ₱2.9 billion mainly due to the lower outstanding time deposit, demand and savings account balances this year.

Interbank Loans Receivable and Securities Purchased Under Resale Agreements (SPURA)

This account represents the overnight interbank lending and SPURA with BSP. The decrease of 100% or from ₱500.0 million to nil was mainly due to the maturity of this account during the year.

Investment Securities

Financial Assets at Fair Value Through Profit or Loss (FVTPL) consists of investments in government securities and private debt and equity securities. The decrease of 9.9% or ₱1.0 billion from ₱10.6 billion to ₱9.6 billion mainly due to net sales of debt and equity securities portfolio and reclassification from AFS and UDSCL accounts as a result of adoption of PFRS 9 starting January 1, 2018.

Financial assets at FVTPL include fair value loss of ₱595.9 million in 2018 and fair value gain of ₱826.3 million in 2017.

Fair Value Through Other Comprehensive Income (FVOCI)/ Available-for-Sale (AFS) Investments represent investments in government securities and private debt and equity securities. The decrease of ₱7.5 billion or 91.9% from ₱8.2 billion to ₱664.5 million was mainly due to the ₱65.9 million net sales and ₱7.6 billion net reclassification to FVTPL and Amortized Cost accounts as a result of adoption of PFRS 9 starting January 1, 2018.

As of December 31, 2018 and 2017, FVOCI/ AFS investments include net unrealized loss of ₱249.7 million and ₱338.6 million, respectively.

Amortized Cost/ Held-to-Maturity (HTM) Investments consist of investments in government securities and private debt securities. The increase of ₱2.8 billion or 19.5% from ₱14.3 billion to ₱17.0 billion this year was mainly due to purchases and maturity of investments amounting to ₱0.1 billion and ₱4.0 billion, respectively, and ₱6.7 billion reclassification from AFS investments account as a result of adoption of PFRS 9 starting January 1, 2018.

Loans and Receivables

Unquoted Debt Securities Classified as Loans (UDSCL) consists of various debt instruments issued by private corporations. This account decreased by ₱201.8 million from ₱834.3 million to ₱632.5 million mainly due to the ₱150.0 million purchase, sale and redemption totaling ₱151.8 million and ₱200.0 million reclassification to FVTPL as a result of adoption of PFRS 9 starting January 1, 2018 during the year.

As of December 31, 2018 and 2017, the outstanding unquoted commercial papers were not subject to periodic interest repricing. The remaining unquoted commercial papers earned fixed annual interest rates ranging from 7.0% to 7.4% and from 3.5% to 7.4% in 2018 and 2017, respectively.

Loans and Discount decreased by 64.9% or ₱878.3 million from ₱1.4 billion to ₱475.8 million due to the impact of ₱1.5 billion loan repayments offset by ₱0.7 billion loan grants during the year.

As of December 31, 2018 and 2017, none of the total loans and discounts was subject to periodic interest repricing for the Group. Total loans and discounts earned fixed annual interest rate of 10.8% and from 7.5% to 10.8% in 2018 and 2017, respectively.

Other Receivables went down by 42.7% or ₱356.5 million from ₱835.9 million to ₱479.4 million. This account consists of accrued interest receivable, dividend receivable, account receivables, and other receivables. The decrease was mainly due to lower outstanding account, accrued interest and other receivables as of reporting date.

Property and Equipment

This account pertains to condominium units and improvements, furniture, fixtures and equipment owned by the Group. The increase of 11.4% or ₱10.8 million from ₱95.4 million to ₱106.2 million was mainly due to the ₱47.4 million net acquisition of various office and transportation equipment and improvements to office premises and buildings and the recognition of depreciation expense amounting to ₱36.4 million during the year.

Investments in Subsidiaries, Associates and Joint Venture

This represents the costs of investments in shares of stocks in allied/non-allied undertakings. The ₱735.6 million or 12.6% increase from ₱5.8 billion to ₱6.6 billion this year was mainly due to the ₱999.1 million share in net earnings, ₱418.2 million share in remeasurement of life insurance reserves netted by the ₱452.2 million share in cash dividend and ₱221.5 million share in the changes in fair value of AFS investments and remeasurement of retirement liabilities of associates.

Investment Properties

This account consists of land and condominium units held for sale or for lease. The decrease of ₱108.4 million or 34.5% from ₱314.3 million to ₱205.9 million this year was mainly due to ₱106.8 million sale of real property and ₱1.6 million depreciation expenses incurred during the year.

Deferred Tax Assets

This account decreased by ₱15.5 million or 30.8% from ₱50.3 million to ₱34.8 million mainly due to lower deductible temporary differences of the Group recognized during the year.

Other Assets

This account includes prepayments, intangible assets, refundable deposits, deferred charges, unissued office supplies, input taxes and others. This account decreased by ₱2.7 million from ₱1.0 billion to ₱999.3 million this year.

Bills Payable

This account comprises of deposit substitutes and other borrowings obtained from local banks, private firms and individuals. The decrease of 36.9% or ₱9.5 billion from ₱25.7 billion to ₱16.2 billion was mainly due to decrease in level of financial assets being funded by this account during the year. Net proceeds from issuances and settlements during the year amounted to ₱618.3 billion and ₱627.8 billion, respectively.

Accounts Payable

This account decreased by 15.3% or ₱336.3 million from ₱2.2 billion to ₱1.9 billion this year mainly due to the lower outstanding payable of the Parent Company and unsettled purchases of equity shares of subsidiaries' participants/customers as of reporting date.

Accrued Taxes, Interest and Other Expenses

This account consists of expenses incurred on taxes, licenses, interests on borrowings, retirement liability and other expenses which have remained unpaid as of reporting date. The increase of ₱5.6 million from ₱147.6 million to ₱153.2 million this year was mainly due to higher accrued interest payable netted by lower accrued other expenses, retirement liability and unpaid taxes and licenses account as of reporting date.

Bonds Payable

This account consists of the fixed rate corporate bonds issued by the Parent Company amounting to ₱2.9 billion.

Income Taxes Payable

This account decreased by ₱46.4 million or 76.4% from ₱60.7 million to ₱14.3 million this year mainly due to lower taxable income of the Group. During the year, the Group already paid a total of ₱318.3 million in regular corporate income tax and final tax.

Puttable Instruments of Mutual Fund Subsidiaries Classified as Liability

This account pertains to the ownership interest of other shareholders outside the Group in the puttable instruments issued by mutual fund subsidiaries. This account went down by ₱1.2 billion or 15.3% from ₱8.0 billion to ₱6.8 billion this year mainly due to decrease in value of these puttable instruments.

Deferred Tax Liability

This account increased by ₱5.0 million from ₱0.2 million to ₱5.2 million this year mainly due to higher taxable temporary differences recognized by the Group during the year.

Other Liabilities

This account consists of payables for securities purchased, withholding taxes, dividends, subscription and premium payables, non-equity non-controlling interest and other miscellaneous liabilities. This account decreased by ₱114.9 million or 24.4% from ₱470.4 million to ₱355.5 million this year mainly due to settlement of payables for securities purchased and lower miscellaneous liabilities outstanding as of reporting date.

Equity

First Metro's capital funds ended at ₱14.8 billion, 5.8% or ₱806.7 million higher from last year's ₱14.0 billion, which translates to 60.8% capital adequacy ratio (CAR). This is far beyond the 10.0% CAR required by BSP on non-bank financial intermediaries with quasi-banking function. The changes of this account were primarily due to the following:

Retained Earnings increased by 4.7% or ₱515.3 million from ₱10.9 billion to ₱11.4 billion mainly due to ₱502.9 million Group's results of operations recognized during the year.

Treasury Stock remains at ₱2.7 billion as of reporting year.

Net Unrealized Loss on FVOCI/ AFS Investments decline by ₱89.7 million or 26.4% from ₱339.7 million to ₱250.0 million this year mainly due to the effect of changes in the fair value of the Group's outstanding FVOCI/ AFS investments.

Cumulative Translation Adjustment went up by 57.3% or ₱11.9 million from ₱20.8 million to ₱32.7 million this year mainly due to the booking of foreign currency adjustment of Parent Company's foreign currency denominated equity investments with FMSALDBF.

Remeasurement of Retirement Liability decreased by 12.4% or ₱6.7 million from ₱54.0 million to ₱47.3 million mainly due to the effect of the remeasurements of the post-employment defined benefit plans to be recognized in other comprehensive income this year.

Equity in Other Comprehensive Income of Associates pertains to Equity Share on Decline in Value of Investments Securities, Translation Adjustment, Unrealized Gains (Losses) Arising from Remeasurement of Retirement and Life Insurance Reserves of Parent Company's Associates. This account decreased by ₱196.7 million or 89.2% from ₱220.5 million to ₱23.8 million this year mainly due to the decreases in the Parent Company's proportionate share in the changes in the fair value of AFS securities and remeasurement of retirement liabilities netted by the increase in remeasurement of life insurance reserves of associates.

Equity Attributable to Non-controlling Interest decreased by 9.4% or ₱9.4 million from ₱100.6 million to ₱91.2 million which was attributable to the decrease in capital funds of majority owned subsidiary of the Parent Company.

2017 Performance

Results of Operations

First Metro ended the year 2017 with consolidated net income attributable to equity holders of the Parent Company of ₱1.2 billion. This is 51.5% or ₱399.5 million higher than last year's result of ₱775.4 million.

Total consolidated gross revenues which comprised of net interest income, other operating income and share in net income of investees reached to ₱2.9 billion, ₱60.1 million lower than the ₱3.0 billion recorded last year.

Net interest income derived from lending, investment and borrowing activities amounting to ₱525.0 million represents 17.8% of the total consolidated revenues of the Group. This account decreased by 12.2% or ₱72.9 million compared with last year's revenue of ₱597.9 million mainly due to the effect of lower interest income earned on investments and interest expense incurred on borrowings during the year.

Other operating income totaled ₱1.6 billion and represents 54.0% of the total revenues. It is composed of gain on sale of assets, net trading and securities gains (losses), service charges, fees and commissions, dividend income, and miscellaneous income. The decrease of 14.7% or ₱274.3 million compared with last year's result of ₱1.9 billion was mainly due to lower service charges, fees and commissions and miscellaneous income earned this year.

Operating expenses consist of taxes and licenses, compensation and fringe benefits and other administrative and miscellaneous expenses. The decrease of ₱231.8 million or 14.5% from ₱1.6 billion to ₱1.4 billion was mainly due to the lower taxes and licenses, provision for impairment and credit losses, rent, light and water, brokers' commission and depreciation expenses incurred this year.

Share in net income of investees represents 28.2% of the total consolidated revenues amounting to ₱829.9 million. This is ₱287.0 million or 52.9% higher from last year's results of ₱542.9 million. This year's share in net earnings mostly came from PALIC (₱684.8 million) and OMLFC (₱255.7 million).

Provision for income taxes totaled ₱386.6 million, 37.2% or ₱229.4 million lower than last year's result of ₱616.0 million. The decrease was mainly due to lower income subjected to final tax and RCIT of the Group this year.

Total comprehensive income increased by 146.5% or ₱711.5 million from last year's result of ₱0.5 billion to ₱1.2 billion mainly due to the effect of the higher net income recognized by the Group amounting to ₱1.2 billion and net changes in the fair value of AFS investments, remeasurement of retirement liability and equity share in comprehensive income of Associates totaling ₱5.2 million. For the year ended December 31, 2017, total comprehensive income attributable to equity holders of the Parent Company increased to ₱1.2 billion or by 149.8% or ₱707.0 million from ₱472.1 million for the same period in 2016.

In terms of return on equity, First Metro achieved 7.9% in 2017 as compared to 4.6% in 2016.

Financial Position

The changes in consolidated total assets were primarily due to the movements in the following accounts:

Cash and Cash Equivalents

Due from Bangko Sentral ng Pilipinas decreased by 39.2% or ₱2.8 billion from ₱7.2 billion to ₱4.4 billion this year. This account represents the balance of the deposit accounts maintained with the BSP to meet the reserve requirements on deposit substitute liabilities and serves as a clearing account for interbank transactions and special deposit account. The decrease was mainly due to maturity of overnight and term deposit facility with BSP amounting to ₱3.0 billion.

Cash and other cash items, which comprises cash on hand and due from other banks, went up by 71.4% or ₱2.2 billion from ₱3.1 billion to ₱5.3 billion mainly due to the higher outstanding time deposit, demand and savings account balances this year.

Interbank Loans Receivable and Securities Purchased Under Resale Agreements (SPURA)

This account represents the overnight interbank lending and SPURA with BSP. The decrease of 77.5% or ₱1.7 billion from ₱2.2 billion to ₱0.5 billion was mainly due to the maturity of ₱2.2 billion SPURA with BSP last year.

Investment in Debt and Equity Securities

Financial Assets at Fair Value Through Profit or Loss (FVPL) consists of investments in government securities, private debt and equity securities and derivative asset. The increase of 12.9% or ₱1.2 billion from ₱9.4 billion to ₱10.6 billion was mainly due to the higher portfolio in government and equity securities.

Financial assets at FVPL include fair value gain of ₱826.3 million in 2017 and fair value loss of ₱380.1 million in 2016.

Available-for-Sale (AFS) Investments represent investments in government securities and private debt and equity securities. The increase of ₱1.6 billion or 24.5% from ₱6.6 billion to ₱8.2 billion was mainly due to the effects of ₱6.6 billion purchases, ₱5.0 billion sales and redemption, ₱20.2 million amortization of premium or discount and ₱39.9 million net unrealized loss recognized due to the changes in fair value of AFS investments.

As of December 31, 2017 and 2016, AFS investments include net unrealized loss of ₱338.6 million and ₱241.7 million, respectively.

Held-to-Maturity (HTM) Investments consists of investments in government securities and private debt securities. The decrease of ₱3.5 billion or 20.1% from ₱17.8 billion to ₱14.3 billion this year was mainly due to the additional acquisition and maturities of government securities amounting to ₱1.3 billion and ₱4.8 billion, respectively, during the year.

Loans and Receivables

Unquoted Debt Securities Classified as Loans consists of various debt instruments issued by private corporations. This account increased by ₱24.3 million from ₱810.0 million to ₱834.3 million mainly due to the ₱297.0 million purchase and sale and redemption totaling ₱272.7 million during the year.

As of December 31, 2017 and 2016, the outstanding unquoted commercial papers were not subject to periodic interest repricing. The remaining unquoted commercial papers earned fixed annual interest rates ranging from 3.5% to 7.4% and from 5.4% to 7.4% in 2017 and 2016, respectively.

Loans and Discount decreased by 12.0% or ₱188.4 million from ₱1.6 billion to ₱1.4 billion due to the impact of ₱195.7 million loan repayments offset by ₱7.3 million loan grants during the year.

As of December 31, 2017 and 2016, none of the total loans and discounts was subject to periodic interest repricing. Total loans and discounts earned fixed annual interest rates ranging from 7.5% to 10.8% and from 7.5% to 10.4% in 2017 and 2016, respectively.

Other Receivables went up by 64.5% or ₱327.6 million from ₱508.3 million to ₱835.9 million. This account consists of accrued interest receivable, dividend receivable, account receivables, and other receivables. The increase was mainly due to higher outstanding account and other receivables netted by lower accrued interest receivable and collection of sales contract receivables as of reporting date.

Property and Equipment

This account pertains to buildings and improvements, furniture, fixtures and equipment owned by the Group. The increase of 16.7% or ₱13.9 million from ₱81.5 million to ₱95.4 million was mainly due to the ₱49.7 million net acquisition of various office and transportation equipment and improvements to office premises and buildings and the recognition of depreciation expense amounting to ₱36.0 million during the year.

Investments in Subsidiaries, Associates and Joint Venture

This represents the costs of investments in shares of stocks in allied/non-allied undertakings. The ₱832.9 million or 16.6% increase from ₱5.0 billion to ₱5.8 billion this year was mainly due to the ₱829.9 million share in net earnings, ₱235.5 million additional investments and ₱96.7 million share in remeasurement of life insurance reserves netted by the ₱281.8 million share in cash dividend and ₱47.4 million share in the changes in fair value of AFS investments and remeasurement of retirement liabilities of associates.

Investment Properties

This account consists of land, building and condominium units held for sale or for lease. The decrease of ₱16.4 million from ₱330.7 million to ₱314.3 million this year was mainly due to ₱13.1 million reclassification and disposals and ₱3.1 million depreciation expenses incurred during the year.

Deferred Tax Assets

This account increased by ₱11.6 million or 29.8% from ₱38.7 million to ₱50.3 million mainly due to higher deductible temporary differences of the Group recognized during the year.

Other Assets

This account includes prepayments, intangible assets, refundable deposits, deferred charges, unissued office supplies, input taxes and others. The increase of 62.3% or ₱384.4 million from ₱0.6 billion to ₱1.0 billion was mainly due to higher prepaid taxes, retirement and miscellaneous assets netted by amortization of intangible assets.

Bills Payable

This account comprises of deposit substitutes and other borrowings obtained from local banks, private firms and individuals. The increase of 70.9% or ₱10.7 billion from ₱15.0 billion to ₱25.7 billion was mainly due to the net effect of the proceeds from issuances and settlements during the year totaling ₱228.2 billion and ₱217.5 billion, respectively.

Accounts Payable

This account increased by 40.5% or ₱632.9 million from ₱1.6 billion to ₱2.2 billion this year mainly due to the higher outstanding payable of the Parent Company and its subsidiaries to its participants/customers triggered by purchase of their investments with the latter as of reporting date.

Accrued Taxes, Interest and Other Expenses

This account consists of expenses incurred on taxes, licenses, interests on borrowings, retirement liability and other expenses which have remained unpaid as of reporting date. The decline of 18.5% or ₱33.4 million from ₱181.0 million to ₱147.6 million this year was mainly due to lower accrued interest payable, accrued other expenses and retirement liability netted by unpaid taxes and licenses account as of reporting date.

Bonds Payable

This account consists of the fixed rate corporate bonds issued by the Parent Company. The decrease of ₱8.6 billion or 74.7% from ₱11.5 billion to ₱2.9 billion was mainly due to the maturity of the ₱9.0 billion fixed rate bonds during the year.

Income Taxes Payable

This account increased by ₱29.7 million or 96.0% from ₱31.0 million to ₱60.7 million this year mainly due to higher taxable income of the Group. During the year, the Group already paid a total of ₱381.5 million in regular corporate income tax and final tax.

Puttable Instruments of Mutual Fund Subsidiaries Classified as Liability

This account pertains to the ownership interest of other shareholders outside the Group in the puttable instruments issued by mutual fund subsidiaries. This account increased by ₱59.5 million from ₱7.9 billion to ₱8.0 billion this year.

Deferred Tax Liability

This account decreased by 97.7% or ₱8.6 million from ₱8.8 million to ₱0.2 million this year mainly due to the effect of the reversal of unrealized gain on AFS debt investments of Parent Company's subsidiaries.

Other Liabilities

This account consists of payables for securities purchased, withholding taxes, dividends, subscription and premium payables, non-equity non-controlling interest and other miscellaneous liabilities. The decrease of 85.7% or ₱2.8 billion from ₱3.3 billion to ₱0.5 billion was mainly due to the impact of the payment of the ₱3.0 billion dividends payable of the Parent Company as of reporting date.

Equity

First Metro's capital funds ended at ₱14.0 billion, 10.7% or ₱1.7 billion lower from last year's ₱15.7 billion, which translates to 28.7% capital adequacy ratio (CAR). This is far beyond the 10.0% CAR required by BSP on non-bank financial intermediaries with quasi-banking function. The changes of this account were primarily due to the following:

Retained Earnings decreased by 13.4% or ₱1.6 billion from ₱12.5 billion to ₱10.9 billion mainly due to ₱2.8 billion dividend declaration and ₱1.2 billion Group's results of operations recognized during the year.

Treasury Stock remains at ₱2.7 billion as of reporting year.

Net Unrealized Loss on AFS Investments rose by ₱86.2 million or 34.0% from ₱253.5 million to ₱339.7 million this year mainly due to the effect of changes in the fair value of the Group's outstanding AFS investments.

Cumulative Translation Adjustment went down by 6.4% or ₱1.5 million from ₱22.3 million to ₱20.8 million this year mainly due to the booking of foreign currency adjustment of Parent Company's foreign currency denominated equity investments with FMSALDBF.

Remeasurement of Retirement Liability increased by 372.7% or ₱42.6 million from ₱11.4 million to ₱54.0 million mainly due to the effect of the remeasurements of the post-employment defined benefit plans to be recognized in other comprehensive income this year.

Equity in Other Comprehensive Income of Associates pertains to Equity Share on Decline in Value of Investments Securities, Translation Adjustment, Unrealized Gains (Losses) Arising from Remeasurement of Retirement and Life Insurance Reserves of Parent Company's Associates. This account increased by ₱49.2 million or 18.3% from ₱269.7 million to ₱220.5 million this year mainly due to the decreases in the Parent Company's proportionate share in the changes in the fair value of AFS securities and remeasurement of retirement liabilities netted by the increase in remeasurement of life insurance reserves of associates.

Non-controlling Interest increased by 9.8% or ₱9.0 million from ₱91.6 million to ₱100.6 million which was attributable to the increase in capital funds of majority owned subsidiary of the Parent Company.

Subsequent Events

There were no subsequent events that took place after the year ended December 31, 2019.

Other Matters

Other than the information on the consolidated financial positions, results of operations and business prospects discussed over the last three (3) years, the following disclosures are made on matters that affect the past or would have an impact on past and future operations of First Metro:

- First Metro does not have or anticipate having, within the next twelve (12) months, any cash flow or liquidity problems; is not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments; and has no significant amount of trade payables that have not been paid within the stated trade terms.
- There were no material commitments for capital expenditures during the past years and in the subsequent year.
- There are no known trends, events or uncertainties that First Metro had or that are reasonably expected to cause a material favorable or unfavorable impact on income from continuing operations;
- There are no significant elements of income or loss that did not arise from First Metro's continuing operations.
- There are no seasonal aspects that materially affect First Metro's financial positions and results of operations.
- There are no events that will trigger direct or contingent financial obligation that is material to First Metro, including any default or acceleration of an obligation.
- There are material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of First Metro with unconsolidated entities or other persons created during the reporting period (refer to Note 28, *Commitments and Contingent Accounts* of the audited financial statements as of December 31, 2019 and 2018).

Capital Management

The primary objectives of the Group's capital management are to ensure that it complies with externally imposed capital requirements and it maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group manages its capital structure attuned to the changes in economic conditions and the risk characteristics of its activities. The Group may adjust the amount of dividend payments to shareholders or issue capital securities in order to maintain or adjust its capital structure.

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Parent Company's compliance with regulatory requirements and ratios is based on the amount of the Parent Company's "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of regulatory accounting policies which, in some respect, differ from that of the PFRS.

Effective January 1, 2014, the Group complied with BSP issued Circular No. 781, Basel III Implementing Guidelines on Minimum Capital Requirements, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50% and also introduced a capital conservation buffer of 2.50% comprised of CET1 capital. The existing requirement for Total Capital Adequacy Ratio (CAR) remains unchanged at 10.00% and these ratios shall be maintained at all times.

The details of CAR, as reported to the BSP, as of December 31, 2019 and 2018 based on Basel III, respectively, follow:

	Consolidated		Parent Company	
	2019	2018	2019	2018
CET 1 capital	₱18,053,884,868	₱17,306,229,570	₱18,053,884,868	₱17,306,229,570
Less: Required deductions	14,793,654,901	13,067,659,722	15,160,814,238	13,499,143,734
Net Tier 1 capital	3,260,229,967	4,238,569,848	2,893,070,630	3,807,085,836
Tier 2 capital	43,119,568	41,602,506	32,454,703	32,945,110
Total qualifying capital	₱3,303,349,535	₱4,280,172,354	₱2,925,525,333	₱3,840,030,946
Risk weighted assets	₱7,244,124,947	₱7,041,239,125	₱5,672,383,176	₱5,731,092,351
CET 1 ratio*	45.0%	60.2%	51.0%	66.4%
*Capital conservation buffer	39.0%	54.2%	45.0%	60.4%
Tier 1 capital ratio	45.0%	60.2%	51.0%	66.4%
Total capital ratio	45.6%	60.8%	51.6%	67.0%

CET 1, Tier 1 and Total Capital Ratio are computed by dividing the CET 1 Capital, Tier 1 Capital and Total Qualifying Capital, respectively, by the Total Risk Weighted Assets. Capital Conservation Buffer is computed by deducting the required 6.0% CET 1 ratio from the actual CET 1 ratio.

The breakdown of the CET 1 capital for 2019 and 2018 is presented as follows:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Paid-up common stock	₱4,208,692,400	₱4,208,692,400	₱4,208,692,400	₱4,208,692,400

*Net of regulatory adjustments amounting to P10.8 billion.

Total off-balance sheet exposures of the Group and Parent Company as of December 31, 2019 and 2018 are as follows:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Direct credit substitutes (financial stand-by letters of credit)	P410,000,000	P410,000,000	P410,000,000	P410,000,000

Qualifying capital and risk-weighted assets (RWA) are computed based on BSP regulations.

Under Basel III, the regulatory qualifying capital of the Parent Company consists of CET1 capital, which comprise of paid-up common stock, surplus including current year profit, surplus reserves, other comprehensive income (net unrealized gains or losses on AFS securities and cumulative foreign currency translation) and non-controlling interest less required deductions such as unsecured credit accommodations to directors, officers, stockholders and related interests (DOSRI), deferred income tax, other intangible assets, defined benefit pension fund assets and goodwill. The other component of regulatory capital is Tier 2 capital, which consists of general loan loss provision.

The Risk Weighted Assets consist of total assets less due from BSP, loans covered by hold-out on or assignment of deposits, and other non-risk items determined by the Monetary Board of the BSP. Credit risk rating assessments from Moodys, Fitch and PhilRatings are applied for cash on hand, while assessment from Philratings is applied for the investment exposures. The eligible credit risk mitigants are investments with guarantees from the Government.

As of December 31, 2019 and 2018, the Group has no exposures to securitization structures, contracts that provide credit protection through credit derivatives and investments in other types of structured products. The Group and its individual regulated operations have complied with all externally imposed capital requirements throughout the period.

The issuance of BSP Circular No. 639 covering the Internal Capital Adequacy Assessment Process (ICAAP) in 2009 supplements the BSP's risk-based capital adequacy framework under Circular No. 538. In compliance with this new circular, the Metrobank Group has adopted and developed its ICAAP framework to ensure that the appropriate level and quality of capital is maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Group. The level and structure of capital are assessed and determined in light of the Group's business environment, plans, performance, risks and budget, as well as regulatory edicts. The Group follows

the Metrobank Group's ICAAP framework and submits the result of its assessment to the Ultimate Parent Company. The BSP requires submission of ICAAP documents on a group-wide basis every March 31. The Group, through the Ultimate Parent Company, has complied with the requirement.

The Group has taken into consideration the impact of the foregoing requirements to ensure that the appropriate level and quality of capital are maintained on an ongoing basis.

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following the BSP guidelines.

In the consolidated financial statements, a portion of the Group's retained earnings corresponding to the net earnings of the subsidiaries and accumulated equity in net earnings of the associates amounting to ₱5.2 billion and ₱4.5 billion as of December 31, 2019 and 2018, respectively, is not available for dividend declaration. The accumulated equity in net earnings becomes available for dividends upon receipt of cash dividends from the investees.

Leverage Ratio

The Basel III Leverage ratios of the Group and the Parent Company as reported to the BSP as of December 31, 2019 and 2018, respectively, follow:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Exposure measures				
On-balance sheet items	₱28,146,308,652	₱36,304,056,356	₱26,042,377,718	₱34,556,756,610
Less deductions from Basel III Tier 1 Capital	12,131,675,699	10,408,108,851	12,498,835,035	10,839,592,863
Total On-balance sheet exposures	16,014,632,953	25,895,947,505	13,543,542,683	23,717,163,747

Adjustments for conversion to credit equivalent amounts	–	–	–	–
Total Off-balance sheet exposures	410,000,000	410,000,000	410,000,000	410,000,000
Total Exposures Measures	₱17,781,554,888	₱26,305,947,505	₱15,310,464,618	₱24,127,163,747
Tier 1 Capital	₱3,260,229,967	₱4,238,569,848	₱2,893,070,630	₱3,807,085,836
Basel III Leverage Ratio*	18.3%	16.1%	18.9%	15.8%

* Basel III leverage ratio is computed by dividing Tier 1 capital over total exposure measures.

The Basel III Leverage ratio is designed to act as supplementary measure to the risk-based capital requirements and shall not be less than 5.0%. It is defined as the capital measure divided by the exposure measure. Capital measure for the leverage ratio is Tier 1 capital (net of regulatory deductions). Exposure measure is the sum of on-balance sheet exposures, derivative exposures, SFT exposures and off-balance sheet items. Items that are deducted completely from capital (regulatory deductions) which do not contribute to leverage are also deducted from the exposure measure.

SFTs are transactions such as repurchase agreements, reverse repurchase agreements, security lending and borrowing and margin lending transactions, where the value of the transactions depends on market valuation and the transactions are often subject to margin agreements. As of December 31, 2019 and 2018, SFT assets of the Group are repurchase agreements amounting to ₱1,346,691,935 and nil, respectively.

Comparison of accounting assets vs. leverage ratio exposure measure of the Group and the Parent Company as reported to the BSP as of December 31, 2019 and 2018, respectively, follow:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Total consolidated assets as per published financial statements	₱29,439,362,796	₱36,248,978,136	₱27,335,431,862	₱34,501,678,390
Adjustments for derivative financial instruments	10,230,000	–	10,230,000	–
Adjustments for securities financial transactions	–	–	–	–
Adjustments for off-balance sheet items	410,000,000	410,000,000	410,000,000	410,000,000
Other adjustments	(12,078,037,908)	(10,353,030,631)	(12,445,197,244)	(10,784,514,643)
Leverage Ratio Exposure Measure	₱17,781,554,888	₱26,305,947,505	₱15,310,464,618	₱24,127,163,747

Below are the reconciliation of the Group and Parent Company's total consolidated assets per published financial statements as against the on-balance sheet exposures per common disclosure template as of December 31, 2019 and 2018:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Total consolidated assets as per published financial statements	₱29,439,362,796	₱36,248,978,136	₱27,335,431,862	₱34,501,678,390
General loan loss provision	53,637,791	55,078,220	53,637,791	55,078,220
Adjustments for securities financial transactions	(1,346,691,935)	–	(1,346,691,935)	–
On-balance sheet items	₱28,146,308,652	₱36,304,056,356	₱26,042,377,718	₱34,556,756,610

Liquidity Coverage Ratio (LCR)

The issuance of BSP Circular No. 905 and 995 in 2016 and 2018, respectively, provides the implementing guidelines on LCR and disclosure standards that are consistent with the Basel III framework. The LCR is the ratio of high-quality liquid assets to total net cash outflows which should not be lower than 100.00%. During the observation period which started from January 1, 2018 to December 31, 2018, the Group is required to comply with the minimum LCR requirement of 90.0%. Issuance of BSP Circular No. 1035 in 2019 moved the observation period until December 31, 2019 with the prescribed minimum ratio of 70.0%. Effective, January 1, 2020, the Group is required to comply with the prescribed minimum ratio of 100%. As of December 31, 2019 and 2018, the LCR in single currency as reported to the BSP, was at 153.8% and 132.8%, respectively for the Group, and 192.0% and 148.3%, respectively for the Parent Company.

Net Stable Funding Ratio (NSFR)

On June 6, 2018, the BSP issued BSP Circular No.1007 covering the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards – NSFR. The NSFR is aimed to promote long-term resilience against liquidity risk by requiring the Group to maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. It complements the LCR, which promotes short term resilience of the Group's liquidity profile. The Group shall maintain an NSFR of at least 100.0 percent (100%) at all times. The implementation of the minimum NSFR shall be phased in to help ensure that the Group can meet the standard through reasonable measures without disrupting credit extension and financial market activities. An observation period was set initially from July 1 to December 31, 2018 which was later on moved to December 31, 2019 based on BSP Circular No. 1034 series of 2019 with minimum NSFR requirement of 70.0%. Effective, January 1, 2020, the Group is required to comply with the prescribed minimum ratio of 100%. As of December 31, 2019 and 2018, the NSFR as reported to the BSP, was at

122.5% and 118.6%, respectively for the Group, and 128.2% and 121.8%, respectively for the Parent Company.

Minimum Capital Requirement

As required by the Omnibus Rules and Regulations for Investment Houses and Universal Banks Registered as Underwriters of Securities, investment houses shall have a minimum initial paid-in capital of ₱300.0 million or such amount as the BSP may prescribe at the time of incorporation. Further, BSP requires a ₱200.0 million minimum paid-in capital for investment houses to be established in Metro Manila.

The Parent Company's paid-in capital is ₱3.6 billion, which is above the required externally imposed minimum paid-in capital.

Discussion of Key Performance Indicators

In evaluating its performance, First Metro regularly analyzes the results of current operations and compares these against budget and results of prior period. The results of operations reflect the financial end results and effectiveness of assets and liabilities management. A monthly financial review with senior management (through the President) is being conducted to present the operating performance and financial well-being of the Company. The review discloses the causes of any deviation and aids First Metro in controlling costs, evaluating performance and planning future goals.

Monthly results of operations and financial positions are also reported regularly to Metrobank, to the BOD and to the BSP.

The following basic ratios measure the financial performance of First Metro as of and for the years ended December 31, 2019 and 2018 (based on the audited figures) as well as for the interim period January 31, 2020 (based on the unaudited figures):

Performance Indicator	As of		
	Jan 31, 2020 (Unaudited)	Dec 31, 2019 (Audited)	Dec 31, 2018 (Audited)
a) Return on Average Assets	3.61%	1.02%	1.07%
b) Return on Average Equity	8.51	2.72	3.46
c) Cost-to-Income Ratio	(473.78)	79.95	119.57
d) Capital Adequacy Ratio	48.91	45.60	60.79
e) Non-performing loans ratio	-	-	-

Detailed discussions on some of the key performance indicators of the Company are as follows:

- *Return on Assets*
Return on Assets (ROA) or the ratio of annualized net income to average total assets, measures the return on money provided by both stockholders and creditors, as well as how efficiently all assets are managed. Year on year, ROA decreased to 1.02% from 1.07% on account of the lower net income attributable to equity holdings of the Parent Company and lower average assets.
- *Return on Equity*
Return on Equity (ROE) or the ratio of annualized net income to average capital funds, measures the return on capital provided by the stockholders. ROE went down to 2.72% this year from 3.46% last year, due to the effect of lower net income attributable to equity holdings of the Parent Company and higher average equity.
- *Capital Adequacy Ratio*
This represents the ratio of net qualifying capital over the risk-weighted assets. It went down from 60.79% to 45.60% from last year due to decrease in net qualifying capital and decrease in risk-weighted assets during the year.
- *Cost-to-Income Ratio*
This represents the ratio of total operating expenses (excluding provisions for credit and impairment losses and income tax) to total operating income (excluding share in net income of associates and recovery from impairment losses). It went down to 79.95% from 119.57% last year resulting from the higher operation expenses and operating income this year.

Financial Soundness Indicators

Financial assets at FVTPL and FVOCI investments are measured in the statement of financial position at fair value.

Loans and receivables are measured in the statement of financial position at amortized cost using the effective interest rate and method, less allowance for credit losses. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are an integral part of the effective interest rate (EIR).

Amortized Cost investments are measured in the statement of financial position at amortized cost using the effective interest rate and method, less impairment losses, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR.

2. Amounts Receivable from Directors, Officers, Employees, Related Parties, and Principal Stockholders (Other than Related parties) in the ordinary course of business

Consolidated Statements of Income

Interest Expense

The breakdown of interest expense for the year ended December 31, 2019 and 2018 is shown below:

	2019	2018
Deposit substitutes:		
Promissory notes issued	₱735,307,684	₱499,794,988
Repurchase agreements	71,085,034	356,289
Bonds payable	105,195,335	172,757,137
Borrowings from local banks	34,789,346	17,949,077
Interbank call loan	23,362,120	70,390,859
Borrowings from BSP	6,429,167	1,458,333
Others	16,888,144	5,972,778
	₱993,056,830	₱768,679,461

Deposit substitutes have maturities of 15-365 days. Peso-denominated deposit substitutes bear annual interest rates ranging from 0.1% to 6.25% in 2019 and from 0.1% to 6.8% in 2018. US dollar-denominated deposit substitutes bear annual interest rates ranging from 0.6% to 3.1% and from 0.6% to 1.8% in 2019 and 2018, respectively.

Borrowings from other banks represent US dollar- and peso-denominated loans. Outstanding borrowings from other banks denominated in US dollar amounted to ₱1,012.7 million and ₱525.8 million as of December 31, 2019 and 2018, respectively, bearing annual interest rates ranging from 2.8% to 3.5% and from 2.4% to 3.5% in 2019 and 2018, respectively.

Related Party Transactions

First Metro has loans and other transactions with subsidiaries, associated companies, affiliates, and to DOSRI consisting principally of loan transactions, management contracts and outright purchases and sales of trading and investment securities. (Please refer to Note 27, Related Party Transactions of the audited financial statements as of December 31, 2019 and 2018).

Most of these transactions were carried out in the normally stated trade terms as practiced in its ordinary course of business.

Item 7. FINANCIAL STATEMENTS

Statement of Management's Responsibility for Financial Statements

Please refer to Exhibit 2.

Audited Financial Statements

Please refer to Exhibit 3.

Item 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

First Metro's external auditor, Sycip, Gorres, Velayo and Co. (SGV), issued an unqualified opinion on the consolidated and parent company financial statements as of and for the years ended December 31, 2019 and 2018.

There are no disagreements between First Metro and SGV on any matter of accounting principles or practices, financial statement disclosures, auditing scope or procedures, which disagreements, if not resolved to their satisfaction, would have caused SGV to make reference thereto in their respective reports on the financial statements for such years.

PART III – CONTROL AND COMPENSATION INFORMATION

Philip G. Soliven	1 year, 8 months	58	Banking/Finance/Management

The directors are elected during the annual stockholders' meeting. Each director holds office until the corresponding BOD's meeting in the succeeding year, or until a successor is elected, appointed or shall have been qualified.

FRANCISCO C. SEBASTIAN, 65, Filipino, Chairman of the Board of First Metro. He is concurrently the vice chairman of Metropolitan Bank & Trust Company and GT Capital Holdings Inc.

He joined the Metrobank Group in 1997 as president of First Metro, a position which he held for 13 years until 2011 when he became chairman.

Mr. Sebastian joined Ayala Investment and Development Corporation in 1975 and was seconded in Hong Kong. He worked as an investment banker in Ayala International Finance Limited and then Filinvest Finance (HK) Ltd. until 1984. He then started his own corporate and financial advisory firm based in Hong Kong, Integrated Financial Services Ltd., which he managed until he returned after 20 years to the Philippines to join the Metrobank Group in 1997.

Mr. Sebastian graduated Magna Cum Laude with an AB degree in Economics Honors from the Ateneo de Manila University in 1975.

ARTHUR V. TY, 53, Filipino, Vice Chairman of the Board of Directors of First Metro. Mr. Ty currently serves as the Chairman of Metropolitan Bank & Trust Company, Vice Chairman of PSBank, Chairman of Metropolitan Bank (China) Ltd., and Chairman of GT Capital Holdings, Inc.

He graduated from the University of California, Los Angeles with a degree in BS Economics and obtained his master's degree in Business Administration from Columbia University.

RABBONI FRANCIS B. ARJONILLO, 60, Filipino, was appointed president and director of First Metro on January 1, 2016. He is concurrently the chairman of First Metro Securities Brokerage Corporation. He has more than three decades of extensive international and local banking experience.

He spent 18 years in Citibank with most recent roles as consumer bank treasurer in Australia and country treasurer in Vietnam where he was the founding chairman of the Vietnam Bond Market Forum, the precursor of the Vietnam Bond Market Association. Prior to joining First Metro, he was the head of Treasury and Investment Banking Sector of Land Bank of the Philippines. Right before that, he was the chief risk officer of China Bank. He started his banking career in Bank of the Philippine Islands as a management trainee and had a brief stint with UCPB.

Mr. Arjonillo is an active member of various business, professional, and non-government organizations. Currently, he is the president of the Investment House Association of the Philippines and the chairman of Couples for Christ Global Foundation. He once served as the president and director of the Money Market Association of the Philippines and vice president of the ACI Financial Markets Association, where he also acted as organizing committee chairman of its 18th Asia Pacific Foreign Exchange Congress. He was also appointed as treasurer of the Rotary Club Makati Premier District.

He was an assistant professorial lecturer at De La Salle University, teaching courses in Economics and Finance for nine years. He regularly conducts lectures in the Bankers Association of the Philippines' Treasury Certification Program. He is also a fellow of the Institute of Corporate Directors.

Mr. Arjonillo holds an AB Economics degree from De La Salle University and a master's degree in Business Management from the Asian Institute of Management.

ISMAEL G. CRUZ, 74, Filipino, was elected to the Board in April 2008. Mr. Cruz has over 30 years of experience in investment banking in the Philippines and in the other parts of Asia. He spent 17 years of his career in Hong Kong where he became chief executive of three regional merchant banking organizations: Ayala International Finance Ltd., Filinvest Finance (HK) Ltd., and Elders Finance Group of Australia. He served as Governor of the Philippine Stock Exchange and the Makati Stock Exchange for several years. He was also Governor of the Subdivision and Housing Developers Association.

Currently, he is the President of the Philippine Association of Securities Dealers and Brokers, Inc.; a Governor of the Market Governance Board of the Philippine Dealing System, Inc. and the Makati Commercial Estate Association, Inc.; a Trustee of the Securities Investor Protection Fund, Inc.; an Independent Director of Penta Capital Investment Corp.; the founder and President of IGC Securities, Inc.; and the Chairman and President of Carmen Homes, Inc. Mr. Cruz is also a member of the Capital Markets Council of the Philippines.

He holds a BS Economics degree and completed academic requirements for a Master in Business Management degree from the Ateneo de Manila University. In 1981, he was named one of the Ten Outstanding Young Men of the Philippines in the field of International Finance.

MARTIN Q. DY BUNCIO, 55, Filipino, has served as a Director since 1995 and brings with him over 24 years of experience in interdisciplinary management.

Currently, he is the Chairman of the Board of Pro-Oil Corp. and Pro-Auto Parts; is currently President of the following:

Proline Sports Center Inc., HJ Marketing, Design Products Manufacturing, Proline II Mercantile, DYBCOM CORP., Integra Development Corp., and the President/Director of Banam Global Holdings Corp.

He holds a Bachelor of Arts degree from De La Salle University.

JOSHUA E. NAING, 59, Filipino, was elected to the Board in April 2015. Mr. Naing is a seasoned banker with over 30 years of experience. He started his career with Bangko Sentral ng Pilipinas until he joined the Metrobank Group in 1989 as OIC. For 11 years since 2002, he took the role of controller. He also held several directorship positions with the following companies: Global Business Power Corporation; Cebu Energy Development Corporation; Metrobank Technology, Inc.; Data Serve, Inc.; Philippine AXA Life Insurance Corporation; Multi Currency FX Corporation; Toyota Manila Bay; Metro Remittance (Spain), S.A.; Metro Remittance (Italia), S.p.A.; and MBTC Remittance GmbH (Vienna); Metro Remittance Center, Inc. (USA); and MB Remittance Center (Hawaii), Ltd.

From 2013 to present he is assigned as head of the Financial Control Sector. Concurrent to his position as senior executive vice president of the Bank, he also serves as director of Manila Medical Services, Inc. since April 2018 and Metro Remittance (Hong Kong) Limited since 2009.

Mr. Naing earned his BSC Accountancy degree from the Polytechnic University of the Philippines.

RUFINO LUIS T. MANOTOK, 69, Filipino, was elected to the Board of Directors in May 2014. Mr. Manotok held several key positions at Ayala Corporation: senior managing director, chief financial officer, chief information officer, and head of Strategic Planning Group. He was also a member of the Senior Management Committee of the Ayala group of companies. He also served as the chairman and president of Ayala Automotive Holdings Corp., Honda Cars Makati, Inc., Isuzu Automotive Dealership, Inc., Isuzu Iloilo Corporation, and Prime Initiatives, Inc.; president and treasurer of Mandaué Primeland, Inc.; president of Honda Cars Cebu, Inc.; chairman of Ayala Aviation Corporation; and director of Globe Telecom, BPI Family Bank, Ayala Systems Technology, Inc., AC International Finance Ltd., and AYC Holdings Limited.

Mr. Manotok finished his AB Economics degree from the Ateneo de Manila University and obtained his master's degree in Business Management from the Asian Institute of Management. He also completed the Advance Management Program at Harvard Business School.

RAPHAEL PERPETUO M. LOTILLA, 61, Filipino, was elected to the Board of Directors in May 2014. Mr. Lotilla remains active in policy studies. He currently serves as a trustee of the Philippine Institute for Development Studies, and chairs the Board of the Center for the Advancement of Trade Integration and Facilitation and of the Asia-Pacific Pathways to Progress Foundation.

Mr. Lotilla is an independent director of several private companies and foundations, and sits as a member of the Advisory Board of the Ateneo de Manila University Professional Schools.

He was Secretary of Energy of the Philippines from 2005 to 2007, having previously served as Deputy Director-General of the National Economic and Development Authority, and president and CEO of the government-owned Power Sector Assets and Liabilities Management Corp.

He also served as Regional Programme director of the Partnerships in Environmental Management for the Seas of East Asia, a regional project funded by the Global Environment Facility and implemented by the United Nations Development Programme.

Mr. Lotilla was a Professor of Law at the University of the Philippines where he obtained his law, psychology, and history undergraduate degrees. He received his Master of Laws from the University of Michigan.

PHILIP G. SOLIVEN, 58, Filipino, was elected to the Board of Directors in April 2018.

Mr. Philip Soliven now holds the position of Chairman Emeritus and Senior Advisor after serving as President and Country Representative of Cargill Philippines, Inc. for the past 18 years (term ended June 2019). Cargill Philippines, Inc. is the main operating company and the parent company of Cargill's various businesses in the Philippines. He was also the Commercial Director for various Food Ingredients and Bio-Industrial (FIBI) businesses and the President of Philippine Bio-Industries, Inc., a Cargill joint venture. He also represents Cargill on the board of C-Joy Poultry Meats, Inc., a Cargill-Jollibee Foods joint venture.

Philip joined Cargill in 1995 as a Singapore-based manager in the Financial Markets Trading Group, then Cargill's proprietary financial trading business. He managed the group's investment portfolio for the Philippines and subsequently moved to the Philippines where he assumed the country lead role concurrent with his responsibilities as Asia Pacific Regional Treasurer.

He began his professional career with the First National Bank of Boston, working in the Manila, Philippines branch as a foreign exchange trader. In 1984, he moved to the Bank of Boston's corporate headquarters in Boston, Massachusetts to assume a role within corporate banking. In 1985, he was assigned to Hong Kong as manager of the bank's corporate banking business. During his six years in Hong Kong, he occupied a number of positions across Corporate Loan Recovery, Treasury Sales-Foreign Exchange, Debt Trading and Trade Services. In 1991, he relocated to Singapore as vice president for corporate banking. His responsibilities included covering corporate banking clients in Singapore, Indonesia and Thailand.

Philip is currently a Director of the American Chamber of Commerce of the Philippines, and is also Chairman of its Agribusiness committee. In addition, he serves as a Director at the Rotary Club of Makati, as well as a member of the U.S. ASEAN Business Council, Makati Business Club and Management Association of the Philippines. Philip holds a degree in business management from the Ateneo de Manila University.

Compensation of Directors

The members of the BOD are compensated under standard remuneration as follows:

Per diem ranging from ₱75,000.0 to ₱125,000.0 and reasonable transportation allowance are granted to directors on annual stockholders' meeting and regular BOD meetings. Bonuses amounting to ₱200,000.0 are given to each director during December each year.

As part of good governance practices, the directors, particularly the Independent Directors, are required to chair board committees created to enhance business operations and processes. The compensation for their participation in these committees is part of their annual package.

Employment Contracts, Termination of Employment and Change-In Control Arrangements

There are no compensatory plans or arrangement with respect to any of First Metro's executive officers that can result to the resignation, retirement or any other termination of such executive officer's employment with First Metro and its subsidiaries. Neither from a change in control of the registrant or a change in the named executive officer's responsibilities.

Warrants and Options Outstanding: Repricing

There are no stock warrants or options that First Metro has awarded to any of its directors or officers. Neither has the registrant's officers or directors own any stock warrants or options.

Item 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

Security Ownership of Certain Record and Beneficial Owners

The following stockholder owns more than 5% of the common voting securities as of December 31, 2019:

<u>Title of class</u>	<u>Name and address of owner</u>	<u>Amount and nature of ownership</u>	<u>Percent to outstanding shares</u>
Common shares	Metrobank Metrobank Plaza, Sen. Gil Puyat Avenue, Makati City	369,736,960 r	99.27%

r - Registered

First Metro holds 48,402,024 treasury shares, which represent 11.50% of the total common shares issued.

Metrobank, a universal banking corporation, is the registered owner of the shares in the books of First Metro. Beneficial owners with at least 10.0% of the voting stocks of said universal bank are GT Capital Holdings, Inc. (36.65%), PCD Nominee (Non-Filipino) (27.74%) and PCD Nominee (Filipino) (19.36%) as of December 31, 2019. The BOD of Metrobank has the right to appoint actual person or persons acting individually or jointly to direct the voting or disposition of the shares held by the corporation. The person who will exercise the voting powers over the shares of Metrobank is Mr. Arthur V. Ty or any officers nominated by the BOD.

Security Ownership of Management

Following are the securities owned by directors and officers of First Metro as of December 31, 2019:

<u>Title of class</u>	<u>Name of beneficial owners</u>	<u>Amount and nature of ownership</u>	<u>Percentage to outstanding shares</u>
Common shares	Francisco C. Sebastian	110 r	0.000
Common shares	Arthur V. Ty	100 r	0.000
Common shares	Rabboni Francis B. Arjonillo	100 r	0.000
Common shares	Ismael G. Cruz	100 r	0.000
Common shares	Martin Q. Dy Buncio	1,100 r	0.000
Common shares	Joshua E. Naing	100 r	0.000
Common shares	Rufino Luis T. Manotok*	100 r	0.000
Common shares	Raphael Perpetuo M. Lotilla*	100 r	0.000
Common shares	Philip G. Soliven*	100 r	0.000

* - Independent Directors

r - Registered

Voting Trust Holders of 5% or More

There are no persons known to the registrant who owns more than 5.0% of a voting trust or similar arrangements.

Changes in Control

Metrobank has no intention of relinquishing its 99.27% hold on First Metro. As of this writing, there are no arrangements that can result to a change in control of First Metro.

Item 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Except for the related party transactions stated in the notes to financial statements of First Metro as of and for the years ended December 31, 2019 and 2018, there has been no material transactions during the last two years nor is there any material transaction currently proposed to which First Metro was, or is a party, or in which any director or executive officer of First Metro, any nominee for election, any owner of more than five (5.0%) percent of First Metro's voting shares, or any member of the immediate family of any such director or officer, had or is to have a direct or indirect material interest.

PART IV- CORPORATE GOVERNANCE

Item 13. CORPORATE GOVERNANCE

First Metro Investment Corporation (First Metro) adopted its Manual on Corporate Governance (Manual) on August 30, 2002 which provides for the leading best practices on governance. The Manual of Corporate Governance (Manual) serves as a guide to the directors, management, officers and staff in the performance of their respective duties and responsibilities to all stakeholders and in the development and achievement of First Metro's corporate goals. Pursuant to the mandate laid down in the Manual, various Board Committees have been constituted to aid the Board in complying with the principles of good corporate governance and in the performance of its corporate functions and responsibilities. These are:

- Corporate Governance and Compensation Committee - mainly responsible for ensuring the Board of Directors' effectiveness and observance of corporate governance principles and guidelines
- Related Party Transactions Committee – assist the Board of Directors in ensuring that transactions with related parties are conducted on an arm's length basis and that the corporate/business resources are not misappropriated or misapplied
- Audit Committee - provides effective oversight of internal and external functions and ensures transparency and proper reporting with emphasis on the report's integrity, timeliness and compliance with standards
- Nominations Committee – assists the Board of Directors in defining and assessing board membership criteria and reviews and evaluates the qualifications of persons nominated to the Board including those positions requiring appointment by the Board
- Risk Oversight Committee - primarily responsible for the development and oversight of First Metro's Risk Management System

Each Committee has its own respective charter to define the duties and responsibilities of its members as well as its reporting functions to the Board of Directors. The memberships in these committees are distributed to ensure that they are balanced, effective and in compliance with the requirements of regulations.

First Metro adopted a compliance system describing the specific roles of each unit, from the Board down to the last unit in the organization, including responsibilities in complying with applicable laws, rules, and regulations.

The same is embodied in an updated compliance system manual duly approved by the Board in December 2016 and regularly updated to conform with the latest trends and new/amended regulations, particularly BSP Circular No. 972. The latest amendments to First Metro's compliance system manual was approved by the Policies Committee on November 14, 2018 and confirmed by the Senior Management Committee on November 22, 2018.

The Board of Directors has appointed a Compliance Officer to oversee the implementation of the compliance system and ensure its effectiveness.

The Manual has been revised and updated several times over the years to effect the amendments provided in the various issuances of the Securities and Exchange Commission (SEC) and Bangko Sentral ng Pilipinas (BSP) and globally accepted best practices.

Last revised in June 2018, the Manual includes amendments introduced by BSP Circular 970 or the Enhanced Guidelines for BSP-supervised Financial Institutions amending the Manual of Regulations for Non-bank Financial Institutions. Significant changes involve the inclusion of the qualification of officers which are aligned with the Parent Bank and address the requirements of BSP Circular No. 970.

First Metro is substantially in compliance with the leading practices on good corporate governance. It has put in place measures directed at the company's commitment to sound corporate governance. It has adopted a Corporate Governance Scorecard to measure and determine the level of compliance by the Board of Directors and Board Committees with corporate governance standards. It created an internal self-rating system and procedures to determine compliance with the Manual e vis-à-vis good corporate governance principles and practices such that: (1) each director self-rates and collectively rates the board, the President and the Chairman; (2) Board-level Committees respectively rate themselves. The baseline on the effectiveness of the performance of the Board, the individual directors and various Board committees are the duties and responsibilities laid down in the Manual, the First Metro By-laws, various rules and regulations and in the respective Committee charters. As of the preceding calendar year, directors perform self-rating and assessment of the Board and the committees of the company's compliance with corporate governance standards. Results of the assessment are submitted to the Corporate Governance and Compensation Committee and are considered in making recommendations on the directors to be nominated to the Board and appointed to the Board committees for the following year. In addition, the Compliance Officer annually issues to the SEC a certification on First Metro's compliance with its Manual. For the year 2019, the Compliance Officer submitted and filed with the SEC on January 30, 2020 a Certification that no director, officer or employee of First Metro was found in violation of the Manual.

First Metro is committed to instituting and upholding the highest standards of corporate governance. It has always endeavored to improve and enhance the corporate governance practices in the company. Its corporate governance policy is intended to achieve its corporate mission of providing investment banking and related financial solutions to enable its clients to achieve sustainable and optimal returns by observing the highest standards of integrity and efficiency. Existing policies and procedures are constantly being reviewed to enhance the governance, risk management and compliance framework of the company.

Reports on SEC Form 17-C

The following were the reports on SEC Form 17-C filed during 2019:

Date Filed	Items Reported
February 15, 2019	<p>The Board of Directors of First Metro Investment Corporation, in its meeting held on February 14, 2019, approved the following:</p> <ol style="list-style-type: none"> 1. First Metro Investment Corporation to conduct an equity restructuring via a Reverse Stock Split for the purpose of converting the Company into a private company. 2. 23 April 2019 as the date of the Annual Stockholders' Meeting to be held at the 22nd Floor, Metrobank Penthouse, Metrobank Plaza, Sen. Gil Puyat Avenue, Makati City at 3:00 P.M. 3. 15 March 2019 as the record date to determine the stockholders entitled to notice and to vote in the 23 April 2019 Annual Stockholders' Meeting. 4. Authorizing the Chairman or the President to change the date, time and place of the stockholder's meeting and the record date.
March 19, 2019	<p>The Board of Directors during its meeting last March 14, 2019, approved the amendments to the Article VII of the Articles of Incorporation. The proposed amendment is pursuant to an equity restructuring via a Reverse Stock Split. The par value of each share will be increased from ₱10.0 to ₱350.0 per share, and there will be a proportionate decrease in the number of authorized common shares from 800,000,000 common shares to 22,857,143 common shares. The decrease in the number of common shares and change in par value was effected to have a better management of, and supervision over the shareholdings of the Company following its delisting. The authorized capital stock would still remain at Eight Billion Pesos (₱8,000,000,000.0), and the amendment does not have any adverse impact on the financial position of the Company.</p> <p>Any resulting fractional shares will be repurchased by First Metro at a pre-determined price in accordance with Article 41 of the Corporation Code. The Company will engage a third-party to conduct a valuation of its shares and render a fairness opinion in order to determine the price per share for the buyback of the fractional shares. For this purpose, First Metro has procured the services of Reyes Tacandong & Co. for the share valuation.</p> <p>This matter will be submitted to the stockholders for approval.</p>
April 25, 2019	<p>During the annual stockholders' meeting of First Metro Investment Corporation held on April 23, 2019, the following matters were taken up:</p> <ol style="list-style-type: none"> 1. Election of the following stockholders as Directors of the Corporation for the year 2019-2020;

	<ul style="list-style-type: none"> • Mr. Francisco C. Sebastian • Mr. Arthur V. Ty • Mr. Rabboni Francis B. Arjonillo • Mr. Martin Q. Dy Buncio • Mr. Ismael G. Cruz • Mr. Joshua E. Naing • Atty. Raphael Perpetuo M. Lotilla* • Mr. Rufino Luis T. Manotok* • Mr. Philip G. Soliven* <p><i>*Independent Director</i></p> <ol style="list-style-type: none"> 2. Amendment to the Article VII of the Articles of Incorporation to increase the par value of the shares from ₱10.0 to ₱350.0 per share, and proportionately decrease the number of authorized common shares from 800,000,000 common shares to 22,857,143 common shares. 3. Appointment of Sycip, Gorres, Velayo & Co. as External Auditor for year 2019 <p>At the organizational meeting of the Board of Directors immediately after the stockholders meeting, the Board elected/appointed the following:</p> <ol style="list-style-type: none"> 1. Board Officers Mr. Francisco C. Sebastian, Chairman Mr. Arthur V. Ty, Vice Chairman Mr. Rabboni Francis B. Arjonillo, President Ms. Alesandra T. Ty, Treasurer/Corporate Secretary Atty. Nimfa B. Pastrana, Asst. Corporate Secretary Mr. Nicholas James T. Dy Buncio, Asst. Corporate Secretary 2. Board Advisers Atty. Florencio T. Mallare - Adviser Mr. Mayo Jose B. Ongsingco - Adviser 3. Appointment/Re-appointment of corporate officers listed in Annex A. 4. Executive and Board Committees composition as listed in Annex B.
July 4, 2019	Mr. Christopher Ma. Carmelo Y. Salazar, Senior Vice President, and Group Head – Financial Markets has tendered his resignation from First Metro Investment Corporation effective July 31, 2019.
July 22, 2019	<p>The Board of Directors of First Metro Investment Corporation, in its meeting held on July 18, 2019, noted/approved the following:</p> <ol style="list-style-type: none"> 1. Resignation of Atty. Sergio M. Ceniza, Vice President, Head, Compliance Division; and Chief Compliance Officer; and Data Protection Officer; and Anti-Money Laundering Officer; and Registered Officer for FATCA; and Associated Person from First Metro Investment Corporation effective end of business day on August 15, 2019.

	<p>2. Designation of officers for Compliance functions effective August 16, 2019, to wit:</p> <ul style="list-style-type: none"> a. Atty. Margarita Angela B. Robles, Senior Manager, as AML Officer, Data Protection Officer and Responsible Officer under FATCA b. Mr. Kristopher Kaiser Salamat, Assistant Manager as Associated Person (for Securities and Exchange Commission).
July 23, 2019	<p>Please be advised that Ms. Lalaine C. de Guzman, Senior Vice President, and Head – Sales & Distribution Division, Financial Markets Group has tendered her resignation from First Metro Investment Corporation effective end of business day on August 9, 2019.</p>
December 12, 2019	<p>The Board of Directors of First Metro Investment Corporation, in its meeting held on December 10, 2019, approved the designation/appointment of officers for Compliance functions effective December 15, 2019, to wit:</p> <ul style="list-style-type: none"> 1. Atty. Alexis K. Javelosa, Jr., Assistant Vice President and OIC – Compliance Division as Data Protection Officer. 2. Mr. Kristopher Kaiser S. Salamat, Assistant Manager and Department Head of Regulatory Reports and Independent Testing as AML Officer and Responsible Officer under FATCA.

INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders
First Metro Investment Corporation
45th Floor, GT Tower International
Ayala Avenue corner H.V. dela Costa Street
Makati City

Opinion

We have audited the consolidated financial statements of First Metro Investment Corporation and its subsidiaries (the Group) and the parent company financial statements of First Metro Investment Corporation (the Parent Company), which comprise the consolidated and parent company statements of financial position as at December 31, 2019 and 2018, and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2019, and notes to the consolidated and parent company financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2019 and 2018, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2019 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated and parent company financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2019, but does not include the consolidated and parent company financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2019 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent company financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent company financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent company financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent company financial statements, management is responsible for assessing the Group's and Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and Parent Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

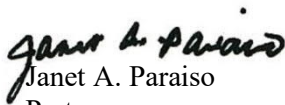

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on the Supplementary Information Required Under Bangko Sentral ng Pilipinas (BSP) Circular No. 1075 and Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under BSP Circular No. 1075 in Note 33 to the financial statements and Revenue Regulations 15-2010 in Note 34 to the financial statements is presented for purposes of filing with the Bangko Sentral ng Pilipinas and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of First Metro Investment Corporation. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

FIRST METRO INVESTMENT CORPORATION AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

First Metro Investment Corporation (the Parent Company) is an investment house incorporated on August 30, 1972 in Metro Manila. On September 22, 2000, the Parent Company was merged with Solidbank Corporation (Solidbank) with Solidbank as the surviving entity and subsequently renamed as First Metro Investment Corporation. The Parent Company's shares of stock (originally Solidbank) were listed in the Philippine Stock Exchange, Inc. (PSE) on October 25, 1963 and were subsequently delisted effective December 21, 2012. The Parent Company is a 99.3%-owned subsidiary of Metropolitan Bank & Trust Company (Metrobank or Ultimate Parent Company).

The Parent Company is primarily engaged in investment banking and has a quasi-banking license from the Bangko Sentral ng Pilipinas (BSP). It provides services such as equity and debt underwriting and private placements, loan syndication and arrangements, financial advisory and securities dealership.

The Parent Company's principal place of business is located at 45th Floor, GT Tower International, Ayala Avenue corner H.V. dela Costa Street, Makati City.

2. Accounting Policies

Basis of Preparation

The accompanying financial statements have been prepared on a historical cost basis except for debt and equity investment securities and derivative instrument designated as cash flow hedge that have been measured at fair value. The financial statements are presented in Philippine peso (₱), the functional currency of the Parent Company and all values are rounded to the nearest peso except when otherwise indicated.

The financial statements of the Parent Company and its subsidiaries (the Group) provide comparative information in respect of the previous period.

Statement of Compliance

The financial statements of the Group and of the Parent Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs).

Presentation of Financial Statements

The statements of financial position of the Group and of the Parent Company are presented in order of liquidity. An analysis regarding the recovery of assets or settlement of liabilities within twelve (12) months after the statement of financial position date (current) and more than twelve (12) months after the statement of financial position date (noncurrent) is presented in Note 18.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its wholly owned and majority owned subsidiaries (Note 10).

The Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure or rights to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other voting shareholders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income, expenses and other comprehensive income (OCI) of a subsidiary are included in the financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. The consolidated financial statements are prepared for the same reporting period as the Parent Company's financial statements, using consistent accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

Non-Controlling Interests

Non-controlling interests represent the portion of profit or loss and net assets of subsidiaries not attributed, directly or indirectly, to the Parent Company.

Non-controlling interests are presented separately in the consolidated statement of income, consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from the Parent Company's shareholders' equity.

Changes in Accounting Policies and Disclosures

The Group applied, for the first time, the following applicable new and revised accounting standards. Unless otherwise indicated, these new and revised accounting standards have no impact to the Group. Except for these new and amended standards which were adopted as of January 1, 2019, the accounting policies adopted are consistent with those of previous financial year.

New standard

- PFRS 16, *Leases*

PFRS 16 supersedes PAS 17, *Leases*, Philippine Interpretation IFRIC 4, *Determining Whether an Arrangement Contains a Lease*, SIC-15, *Operating Leases – Incentives*, and SIC-27, *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model.

The Group has lease contracts for various office spaces used as branch offices. Before the adoption of PFRS 16, the Group classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the lease asset to the Group; otherwise it was classified as an operating lease. All leases (as lessee) were classified as operating leases. In an operating lease, the leased property was not capitalized and the lease payments were recognized as rent expense under ‘Rent, light and water’ in the statement of income on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognized under ‘Prepaid expenses’ lodged in ‘Other assets’, and ‘Accrued other expenses’ lodged in ‘Accrued interest and other expenses’, respectively.

Upon adoption of PFRS 16, the Group applied a single recognition and measurement approach for all leases (as lessee) except for short-term leases and leases of low-value assets. The Group recognized lease liabilities representing lease payments and right-of-use (ROU) assets representing the right to use the underlying assets.

Lease liabilities were recognized based on the present value of the remaining lease payments, discounted using the incremental borrowing rate (IBR) at the date of initial application. ROU assets were recognized based on the amount equal to the lease liabilities adjusted for any related prepaid and accrued lease payments previously recognized.

Except for the additional disclosures required, PFRS 16 has no impact for leases where the Group is the lessor.

The Group adopted PFRS 16 as at January 1, 2019, the date of initial application, using the modified retrospective approach and applying certain transition reliefs. The Group elected to use the practical expedient allowing the standard to be applied only to contracts that were previously identified as leases. As of January 1, 2019, the effect of adoption PFRS 16 is an increase (decrease) in the following accounts in the statement of financial position:

	Consolidated	Parent Company
Assets		
Property and equipment (Right-of-use asset)	₱103,072,517	₱65,283,797
Other assets (Prepaid rent)	(2,545,906)	(2,241,062)
Liabilities		
Other liabilities (Lease liabilities)	100,526,611	63,042,735

The lease liabilities as at January 1, 2019 can be reconciled to the operating lease commitments as of December 31, 2018, as follows:

	Consolidated	Parent Company
Operating lease commitments, December 31, 2018 (PAS 17)	₱113,078,302	₱68,524,712
Operating lease liabilities before discounting		
Discount using incremental borrowing rates <i>Weighted average incremental borrowing rate as of January 1, 2019</i>	(12,551,691)	(5,481,977)
	11.10%	8.00%
Lease liabilities, January 1, 2019	₱100,526,611	₱63,042,735

The adoption of the following amendments and interpretation to standards did not have significant impact on the financial statements of the Group:

Amendments

- Amendments to PFRS 9, *Financial Instruments – Prepayment Features with Negative Compensation*
- Amendments to PAS 19, *Employee Benefits – Plan Amendment, Curtailment or Settlement*
- Amendments to PAS 28, *Investments in Associates and Joint Ventures – Long-term Interests in Associates and Joint Ventures*
- Annual Improvements to PFRS 2015 to 2017 Cycle
 - PFRS 3, *Business Combinations* and PFRS 11, *Joint Arrangements – Previously held interest in a joint operation*
 - PAS 12, *Income Taxes - Income tax consequence of payments on financial instruments classified as equity*
 - PAS 23, *Borrowing Costs – Borrowing costs eligible for capitalization*

Interpretation

- Philippine Interpretation IFRIC 23, *Uncertainty over Income Tax Treatments*
The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*. It does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:
 - Whether an entity considers uncertain tax treatments separately
 - The assumptions an entity makes about the examination of tax treatments by taxation authorities
 - How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
 - How an entity considers changes in facts and circumstances

The entity is required to determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and use the approach that better predicts the resolution of the uncertainty. The entity shall assume that the taxation authority will examine amounts that it has a right to examine and have full knowledge of all related information when making those examinations. If an entity concludes that it is not probable that the taxation authority will accept an uncertain tax treatment, it shall reflect the effect of the uncertainty for each uncertain tax treatment using the method the entity expects to better predict the resolution of the uncertainty.

Upon adoption of the Interpretation, the Group has assessed whether it has any uncertain tax position. The Group applies significant judgement in identifying uncertainties over its income tax treatments. The Group determined, based on its assessment, in consultation with its tax counsel, that it is probable that its uncertain income tax treatments will be accepted by the taxation authorities. Accordingly, the interpretation did not have an impact on the consolidated and parent company's financial statements.

Significant Accounting Policies

Foreign Currency Translation

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

The functional currency of the Parent Company and its subsidiaries is Philippine peso (₱), except for First Metro Save and Learn Dollar Bond Fund (FMSLDBF) whose functional currency is United States dollar (USD).

Transactions and balances

For financial reporting purposes, the foreign currency-denominated monetary assets and liabilities are translated in Philippine peso based on the Bankers Association of the Philippines (BAP) closing rate beginning 2018 and Philippine Dealing System (PDS) closing rate for 2017 and prior years prevailing at the statement of financial position date and foreign currency-denominated income and expenses, at the prevailing exchange rates as at the date of transaction. Foreign exchange differences arising from revaluation and translation of foreign currency-denominated assets and liabilities are credited to or charged against operations in the year in which the rates change.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Subsidiary with different functional currency

The functional currency of FMSLDBF is USD. As at the reporting date, the assets and liabilities of FMSLDBF are translated into the Group presentation currency at BAP closing rate prevailing at the statement of financial position date, and their income and expenses are translated at BAP weighted average rate (BAPWAR) for 2019 and 2018 and PDS weighted average rate (PDSWAR) for 2017 and prior. Exchange differences arising on translation are taken to statement of comprehensive income as 'Cumulative translation adjustment'. Upon disposal of FMSLDBF or when the Group ceases to have control, the deferred cumulative amount recognized in the statement of comprehensive income is recognized in the statement of income.

Fair Value Measurement

The Group measures financial instruments at fair value at each statement of financial position date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial Instruments - Initial Recognition

Date of recognition

Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place are recognized on the settlement date. Deposits, amounts due to banks and customers and loans are recognized when cash is received by the Group or advanced to the borrowers.

Initial recognition of financial instruments

All financial instruments are initially measured at fair value. Except for financial assets and financial liabilities valued at FVTPL, the initial measurement of financial instruments includes transaction costs.

'Day 1' profit or loss

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' profit or loss) in the statement of income under 'Miscellaneous income' or 'Miscellaneous expense' unless it qualifies for recognition as some other type of asset. In cases where transaction price used is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of income when the inputs become observable, or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' profit or loss amount.

Derivatives recorded at FVTPL - Embedded derivatives

Derivatives are entered into as a service to customers and as a means of reducing or managing their respective foreign exchange and interest rate exposures, as well as for trading purposes. Such derivative financial instruments are initially recorded at fair value on the date at which the derivative contract is entered into and are subsequently remeasured at fair value. Any gains or losses arising from changes in fair values of derivatives (except those accounted for as accounting hedges) are taken directly to the statement of income and are included in 'Trading and securities gains (losses)'. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Under PFRS 9, the Group accounts for derivatives embedded in financial liabilities and non-financial host contracts similar with PAS 39. For financial assets, embedded derivatives are accounted for together with the host contracts and are classified based on the business model and contractual cash flows of the instrument.

Puttable instruments of mutual fund subsidiaries classified as financial liabilities at FVTPL

The Group has seed capital investments in several funds where it is in a position to be able to control those funds. These funds are consolidated with the shares held by investors other than the Group are considered as puttable instruments, recorded under 'Puttable instruments of mutual fund subsidiaries classified as liability' account in the statement of financial position, with changes in the net asset value per unit of the mutual funds recognized in 'Trading and securities gains (losses)' in the statement of income.

Financial Instruments – Classification and Subsequent Measurement

The Group classifies its financial assets in the following categories: investment securities at FVTPL, investment securities at FVOCI and investment securities measured at amortized cost while financial liabilities are classified as financial liabilities at FVTPL and financial liabilities at amortized cost. The classification of financial instruments depends on the contractual terms and the business model for managing the instruments. Subsequent to initial recognition, the Group may reclassify its financial assets only when there is a change in its business model for managing these financial assets. Reclassification of financial liabilities is not allowed.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

As a second step of its classification process, the Group assess the contractual terms of financial assets to identify whether they pass the contractual cash flows test (SPPI test). For the purpose of the SPPI test, principal is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium or discount). The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. In contrast, contractual terms that introduce a more than de minimis exposure to risks or validity in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are SPPI. In such cases, the financial asset is required to be measured at FVTPL.

Financial assets or financial liabilities held for trading (FVTPL)

Debt instruments that do not meet the amortized cost criteria, or that meet the criteria but the Group has chosen to designate as at FVTPL at initial recognition, are classified as financial assets at FVTPL. Equity investments are classified as financial assets at FVTPL, unless the Group designates an equity investment that is not held for trading as at FVOCI at initial recognition. The Group's financial assets at FVTPL include government securities, corporate bonds and equity securities which are held for trading purposes and debt instruments which contractual cash flows is not SPPI.

A financial asset is considered as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or,
- it is a derivative that is not designated and effective as a hedging instrument or financial guarantee.

Financial assets at FVTPL are measured at fair value. Related transaction costs are recognized directly as expense in profit or loss. Unrealized gains and losses arising from changes (mark-to-market) in the fair value of the financial assets at FVTPL category and realized gains or losses arising from disposals of these instruments are included in 'Trading and securities gains (losses)' in the statements of income.

Interest earned on these investments is reported in statements of income under Interest income account while dividend income is reported as 'Dividends' in the statements of income account when the right of payment has been established.

Investment securities at FVOCI

Investment securities at FVOCI include debt and equity instruments. After initial measurement, FVOCI investments are subsequently measured at fair value. The unrealized gains and losses arising from the fair valuation of FVOCI investments are excluded, net of tax, from the reported earnings and are included in the statement of comprehensive income as 'Changes in net unrealized gain/(loss) on FVOCI investments'.

Debt securities at FVOCI are those that meet both of the following conditions: (i) the asset is held within a business model whose objective is to hold financial assets in order to both collect contractual cash flows and sell financial assets; and (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the outstanding principal amount. The effective yield component of FVOCI debt securities, as well as the impact of restatement on foreign currency-denominated FVOCI debt securities, are reported in the statement of income. Interest earned on holding FVOCI investments are reported as 'Interest income' using the effective interest rate (EIR) method. When the FVOCI debt securities are disposed of, the cumulative gain or loss previously recognized in other comprehensive income is recognized as 'Trading and securities gains (losses)' in the statement of income. The ECL arising from impairment of such investments do not reduce the carrying amount of these financial assets in the statement of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortized cost is recognized in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognized in OCI is recycled to the profit or loss upon derecognition.

Equity instruments designated at FVOCI are those that the Group made an irrevocable election to present in OCI the subsequent changes in fair value. Dividends earned on holding these equity securities are recognized in the statement of income as 'Dividends' when the right of the payment has been established. Gains and losses on disposal of these equity securities are never recycled to profit

or loss, but the cumulative gain or loss previously recognized in other of comprehensive income is reclassified to retained earnings. Equity securities at FVOCI are not subject to impairment assessment.

Financial assets at amortized cost

Financial assets at amortized cost are debt financial assets that meet both of the following conditions: (i) these are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and (ii) the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal amount. These include 'Cash and other cash items', 'Due from BSP', 'SPURA', 'Investment securities at amortized cost' and 'Loans and receivables'.

After initial measurement, financial assets at amortized cost are subsequently measured at amortized cost using the EIR method, less impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR. The amortization is included in 'Interest income' in the statement of income. Gains and losses are recognized in statement of income when these investments are derecognized or impaired, as well as through the amortization process. The expected credit losses are recognized in the statement of income under 'Provision for (recovery from) impairment, credit and other probable losses'. The effects of revaluation on foreign currency-denominated investments are recognized in the statement of income.

Financial Liabilities Carried at Amortized Cost

Issued financial instruments or their components, which are not designated at FVTPL, are classified as financial liabilities carried at amortized cost accounts, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity shares. Financial liabilities carried at amortized cost include 'Bills payable', 'Bonds payable', or other appropriate financial liability accounts.

After initial measurement, Bills payable, Bonds payable, and similar financial liabilities not qualified as and not designated as FVTPL, are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR. Any effects of restatement on foreign currency-denominated liabilities are recognized in the statement of income.

Treasury bonds

Issued bonds payable by the Parent Company that are being held by a subsidiary are deducted from the carrying value of the bond. Treasury bonds are recognized in the consolidated accounts at acquisition cost, and any related unamortized premium, discount and issue costs at the Parent Company are cancelled. The difference between the acquisition cost and the book value of the treasury bonds is treated as gain or loss and recorded under 'Miscellaneous income' or 'Miscellaneous expense' in the statement of income.

Repurchase and Reverse Repurchase Agreements

Securities sold under agreements to repurchase at a specified future date ('repos') are not derecognized from the statement of financial position. The corresponding cash received, including accrued interest, is recognized in the statement of financial position as a 'Bills payable' to the Group, reflecting the economic substance of such transaction.

Conversely, securities purchased under agreements to resell at a specified future date ('reverse repos') are not recognized in the statement of financial position. The corresponding cash paid, including accrued interest, is recognized in the statement of financial position as 'SPURA', and is considered a loan to the counterparty. The difference between the purchase price and resale price is treated as 'Interest income' and is accrued over the life of the agreement using the effective interest method.

Reclassification of Financial Assets

The Group can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Group is required to reclassify financial assets: (i) from amortized cost to FVTPL, if the objective of the business model changes so that the amortized cost criteria are no longer met; and (ii) from FVTPL to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristics of the instrument's contractual cash flows need the amortized cost criteria.

A change in the objective of the Group's business model will be affected only at the beginning of the next reporting period following change in the business model.

Classification of Financial Instruments between Debt and Equity

A financial instrument is classified as debt, if it provides for a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Group does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Impairment of Financial Assets

From January 1, 2018 the Group has been recording the allowance based on a forward-looking expected credit losses (ECL) approach for all loans and other debt financial assets not held at FVTPL, together with loan commitments. Equity instruments are not subject to impairment under PFRS 9.

Overview of the ECL principles

The ECL allowance is based on the credit losses expected to arise on 12-month duration if there was no significant increase in the credit risk (SICR) of the financial asset since origination. Otherwise if a SICR is observed, then the ECL estimation is extended until the end of the life of the financial asset. The 12-month ECL represents the losses that result from default events on a financial asset which may happen within 12 months after the reporting date. The Lifetime ECL on the other hand represents the losses that result from default events on a financial asset which may happen over its life. Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

Based on these processes, debt financial assets are grouped into Stage 1, Stage 2, and Stage 3 as described below.

For non-credit-impaired financial instruments:

- Stage 1 is comprised of all non-impaired financial instruments which have not experienced a SICR since initial recognition. The Group recognizes a 12-month ECL for Stage 1 financial instruments.
- Stage 2 is comprised of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Group recognizes a lifetime ECL for Stage 2 financial instruments.

For credit-impaired financial instruments:

- Financial instruments are classified as Stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a loan or a portfolio of loans. The ECL model requires a lifetime ECL for impaired financial instruments.

Definition of “default” and “cure”

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, in all cases when the borrower becomes 90 days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikelihood to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default (i.e. to have cured) when it no longer meets any of the default criteria and has exhibited a satisfactory track record.

Treasury exposures are considered in default upon occurrence of a credit event such as but not limited to bankruptcy of counterparty, restructuring, failure to pay on agreed settlement date, or request for moratorium.

SICR

The criteria for determining whether credit risk has increased significantly vary by portfolio and include quantitative changes in probabilities of default and qualitative factors, including a backstop based on delinquency. The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Group’s internal credit assessment, the borrower or counterparty is determined to have well-defined credit weaknesses. For exposures without internal credit grades, if contractual payments are more than 30 days past due threshold, the credit risk is deemed to have increased significantly since initial recognition. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, the group shall revert to recognizing a 12-month ECL.

ECL parameters and methodologies

ECL is a function of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), with the timing of the loss also considered.

The PD represents the likelihood that a credit exposure will not be repaid and will go into default in either a 12-month horizon for Stage 1 or lifetime horizon for Stage 2. The PD for each individual instrument is modelled based on historical data and is estimated based on current market conditions and reasonable and supportable information about future economic conditions. The Group segmented its credit exposures based on homogenous risk characteristics and developed a corresponding PD

methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristic of the portfolio, behavior of the accounts and materiality of the segment as compared to the total portfolio.

EAD is modelled on historical data and represents an estimate of the outstanding amount of credit exposure at the time a default may occur. For off-balance sheet and undrawn committed amounts, EAD includes an estimate of any further amount to be drawn at the time of default.

LGD is the amount that may not be recovered in the event of default and is modelled based on historical cash flow recovery and reasonable and supportable information about future economic conditions, where appropriate. LGD takes into consideration the amount and quality of any collateral held.

Forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. A broad range of forward-looking information are considered as economic inputs, such as GDP growth, inflation rates, unemployment rates, interest rates and BSP statistical indicators. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

Policies applicable prior to January 1, 2018

The Group assesses at each statement of financial position date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Impairment of financial assets carried at amortized cost

For financial assets carried at amortized cost, which include 'Cash and other cash items', 'Due from BSP', 'Loans and receivables', 'SPURA', and 'HTM investments', the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant.

For individually assessed financial assets, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current EIR, adjusted for the original credit risk premium. The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable. Financial assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in the collective assessment for impairment.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged to the statement of income. Interest income continues to be recognized based on the original EIR of the asset. Loans, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reduced by adjusting the allowance account. If a future write-off is later recovered, any amounts formerly charged are credited to the 'Provision for (recovery from) impairment and other probable losses' in the statement of income.

If the Group determines that no objective evidence of an impairment exists for individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. The similarity in credit risk characteristics is relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

For the purpose of the collective evaluation of impairment, financial assets are grouped on the basis of credit risk characteristics such as industry, collateral type, past due status and term. Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the Group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. Estimates of changes in future cash flows reflect, and are directionally consistent with changes in related observable data from period to period (such changes in property prices, payment status, or other factors that are indicative of incurred losses in the group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

AFS investments

For AFS investments, the Group assesses at each statement of financial position date whether there is objective evidence that a financial asset or group of financial assets is impaired.

In the case of equity investments classified as AFS investments, this would include a significant or prolonged decline in the fair value of the investments below its cost. Where there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the statement of income - is removed from the statement of comprehensive income and recognized in the statement of income.

Impairment losses on equity investments are not reversed through the statement of income. Increases in fair value after impairment are recognized directly in the statement of comprehensive income.

In the case of debt instruments classified as AFS investments, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount and is accrued based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Such accrual is recorded as part of 'Interest income' in the statement of income. If, in the subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the statement of income, the impairment loss is reversed through the statement of income.

Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (where applicable, a part of a financial asset, or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risks and rewards of the asset but has transferred the control over the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control over the asset, the asset is recognized to the extent of the Group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

The Group’s accounting policy for write-offs and recoveries after write-offs of financial assets under PFRS 9 remains the same as it was under PAS 39. Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Company and all of the counterparties.

Derivative Financial Instruments and Hedge Accounting

Derivative financial instruments are recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the statement of income.

Hedge Accounting

For the purpose of hedge accounting, hedges are classified primarily as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment
- Hedges of a net investment in a foreign operation

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effective requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is ‘an economic relationship’ between the hedged item and the hedging instrument.
- The effect of credit risk does not ‘dominate the value changes’ that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges that meet all the qualifying criteria for hedge accounting are accounted for, as described below:

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognized in OCI in the ‘Cash flow hedge reserve’, while any ineffective portion is recognized immediately in the statement of income. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in the fair value of the hedged item..

The amounts accumulated in OCI are accounted for, depending on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the amount accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and will not be recognized in OCI for the period. This also applies where the hedged forecast transaction of a non-financial asset or non-financial liability subsequently becomes a firm commitment for which fair value hedge accounting is applied.

For any other cash flow hedges, the amount accumulated in OCI is reclassified to profit or loss as a reclassification adjustment in the same period or periods during which the hedged cash flows affect profit or loss.

If cash flow hedge accounting is discontinued, the amount that has been accumulated in OCI must remain in accumulated OCI if the hedged future cash flows are still expected to occur. Otherwise, the amount will be immediately reclassified to profit or loss as a reclassification adjustment. After

discontinuation, once the hedged cash flow occurs, any amount remaining in accumulated OCI must be accounted for depending on the nature of the underlying transaction as described above.

The Group's cash flow hedges consist principally of cross-currency swaps that are used to protect against exposures to variability in future interest and principal cash flows on its issued floating rate euro notes due to changes in interest rate risk and/or foreign currency risk. The hedging ratio is established by matching the notional of the derivatives against the principal of the hedged issued foreign currency debt.

As of December 31, 2019, the Group has an outstanding cross currency swap designated as hedging instrument in a cash flow hedge (see Note 17).

Hedge effectiveness testing

To qualify for hedge accounting, the Group requires that at the inception of the hedge and throughout its life, each hedge must be expected to be highly effective (prospective effectiveness), and demonstrate actual effectiveness (retrospective effectiveness) on an ongoing basis. The documentation of each hedging relationship sets out how the effectiveness of the hedge is assessed. The method that the Group adopts for assessing hedge effectiveness will depend on its risk management strategy.

For prospective effectiveness, the hedging instrument must be expected to be highly effective in offsetting changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated. The Group applies the dollar-offset method using hypothetical derivatives in performing hedge effectiveness testing. For actual effectiveness to be achieved, the changes in fair value or cash flows must offset each other on the range of 80.00% to 125.00%. Any hedge ineffectiveness is recognized in the statement of income.

Current versus Noncurrent Classification

Derivative instruments that are not designated as effective hedging instruments are classified as current or noncurrent or separated into a current and noncurrent portion based on an assessment of the facts and circumstances (i.e., the underlying contracted cash flows):

- When the Group will hold a derivative as an economic hedge (and does not apply hedge accounting) for a period beyond 12 months after the statement of financial position date, the derivative is classified as noncurrent (or separated into current and noncurrent portions) consistent with the classification of the underlying item.
- Embedded derivatives that are not closely related to the host contract are classified consistent with the cash flows of the host contract.

Derivative instruments that are designated as, and are effective hedging instruments, are classified consistently with the classification of the underlying hedged item. The derivative instrument is separated into a current portion and a noncurrent portion only if a reliable allocation can be made.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items (i.e., Due from Banks and Cash on Hand), amounts due from BSP and SPURA with original maturities of three months or less from the dates of placements and are subject to insignificant risk of changes in value. Cash and cash equivalents are carried at amortized cost. Due from BSP includes the statutory reserves required by the BSP, which the Company considers as cash equivalents wherein drawings can be made to meet cash requirements.

Investments in Subsidiaries, Associates and Joint Venture

Investment in subsidiaries

Subsidiaries pertain to all entities over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Investment in associates and joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

Consolidated financial statements

The Group's consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries.

The Group's investments in its associates and joint venture are accounted for using the equity method. (See discussion on the next section, 'Parent Company financial statements', on accounting using the equity method).

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in the statement of income.

Parent Company financial statements

The Parent Company's investments in subsidiaries, associates and joint venture are accounted for using the equity method. Under the equity method, the investment in subsidiaries, associates or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Parent Company's share of net assets of the subsidiary, associate or joint venture since the acquisition date. Goodwill relating to the subsidiary, associate or joint venture is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The statement of income reflects the Parent Company's share of the results of operations of the subsidiary, associate or joint venture. Any change in OCI of those investees is presented as part of the Parent Company's OCI. In addition, when there has been a change recognized directly in the equity of the subsidiary, associate or joint venture, the Parent Company recognizes its share of any changes, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Parent Company and the subsidiary, associate or joint venture are eliminated to the extent of the interest in the subsidiary, associate or joint venture.

The aggregate of the Parent Company's share of profit or loss of subsidiaries, associates and a joint venture is shown on the face of the statement of income outside operating profit and represents share in the profit or loss after tax.

The financial statements of the subsidiaries, associates or joint venture are prepared for the same reporting period as the Parent Company. When necessary, adjustments are made to bring the accounting policies in line with those of the Parent Company.

After application of the equity method, the Parent Company determines whether it is necessary to recognize an impairment loss on its investment in subsidiaries, associates or joint venture. At each statement of financial position date, the Parent Company determines whether there is objective evidence that the investment in subsidiaries, associates or joint venture is impaired. If there is such evidence, the Parent Company calculates the amount of impairment as the difference between the recoverable amount of the subsidiaries, associates or joint venture and its carrying value, then recognizes the loss under 'Provision for (recovery from) impairment and other probable losses' in the statement of income.

Property and Equipment

Depreciable properties, including leasehold improvements and furniture, fixture and equipment are stated at cost less accumulated depreciation and amortization, and any allowance for impairment losses. Such cost includes the cost of replacing part of the property and equipment when that cost is incurred, if the recognition criteria are met, but excludes repairs and maintenance costs.

Depreciation is calculated using the straight-line method over the estimated useful life of the depreciable assets. The estimated useful lives of the depreciable assets are as follows:

Furniture, fixtures and equipment	3 to 5 years
Condominium Units	34 years
Leasehold improvements	5 years or the terms of the related lease agreements, whichever is shorter

The depreciation method and useful life are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under 'Gain on sale of assets' in the statement of income in the year the asset is derecognized.

Investment Properties

Investment properties are measured initially at cost, including transaction costs. An investment property acquired through an exchange transaction is measured at the fair value of the asset acquired unless the fair value of such asset cannot be measured, in which case, the investment property acquired is measured at the carrying amount of the asset given up. Foreclosed properties are classified under 'Investment properties' from foreclosure date.

Subsequent to initial recognition, depreciable investment properties are carried at cost less accumulated depreciation and allowance for impairment losses, whereas, non-depreciable investment properties are carried at cost less allowance for impairment losses.

Expenditures incurred after the investment properties have been put into operations, such as repairs and maintenance costs, are normally charged against current operations when the costs are incurred.

Depreciation is calculated on a straight-line basis using the useful life of 5 and 34 years from the time of acquisition for land improvements and condominium units, respectively.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of income as 'Gain on sale of assets' in the year of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner occupation, commencement of an operating lease to another party or completion of construction or development. Transfers are made from investment properties when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sale.

Intangible Assets

Intangible assets refer to the Group's software licenses. An intangible asset is recognized only when the cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of income in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and they are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of income under 'Miscellaneous expense' (Note 25).

Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of income when the asset is derecognized.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the control the use of an identified asset for a period of time in exchange for consideration.

Policy applicable beginning January 1, 2019

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

The right-of-use assets are presented within Note 9, Property and equipment and are subject to impairment in line with the Group's policy as described in the next section.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (less any lease incentives receivable), variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset

Policy applicable prior to January 1, 2019

Leases, which do not transfer to the Group substantially all the risks and benefits of ownership of the asset, are classified as operating leases. Operating lease payments (net of any incentive received from the lessor) are recognized as expense in the statements of income on a straight-line basis over the lease term. Associated costs, such as repairs, maintenance and insurance, are expensed as incurred.

Impairment of Nonfinancial Assets

At each statement of financial position date, the Group assesses whether there is any indication that its nonfinancial assets may be impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Group makes a formal estimate of the recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell and its value-in-use (VIU) and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent from other assets or groups of assets, in which case the recoverable amount is assessed as part of the CGU to which it belongs. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged against operations in the year in which it arises. The following criteria are also applied in assessing impairment of specific assets:

Property and equipment, investment properties and intangible assets with definite useful lives

For property and equipment, investment properties and intangible assets with definite useful lives, an assessment is made at each statement of financial position date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of income.

After such a reversal, the depreciation and amortization expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Investments in associates

After application of the equity method, the Group determines whether it is necessary to recognize an additional impairment loss on the Group's investments in associates. If this is the case, the Group calculates the amount of impairment loss as the difference between the recoverable amount of investment in the associate and the acquisition cost and recognizes the amount under 'Provision for (recovery from) impairment and other probable losses' in the statement income.

Common Stock

Common stocks are classified as equity and are recorded at par. Proceeds in excess of par value are recorded as 'Capital paid in excess of par value' in the statement of financial position. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Capital Paid in Excess of Par Value

When the shares are sold at a premium, the difference between the proceeds and par value is credited to 'Capital paid in excess of par value', net of direct costs incurred related to the equity issuance. If 'Capital paid in excess of par value' is not sufficient, the excess is charged against retained earnings.

Treasury Shares and Contracts on Own Shares

Own equity instruments which are acquired (treasury shares) are deducted from equity and accounted for at weighted average cost. Consideration paid or received and all transaction costs directly attributable on the purchase, sale, issue, or cancellation of the Parent Company's own equity instruments is recognized directly in equity. No gain or loss is recognized in the statement of income on the purchase, sale, issue or cancellation of own equity instruments.

Revenue Recognition

Revenue from contracts with customers is recognized upon transfer of services to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services.

The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as a principal or agent. The Group concluded that it is acting as a principal in all of its revenue arrangements except for certain brokerage transactions. The following specific recognition criteria must also be met before revenue is recognized within the scope of PFRS 15:

Fees and commission income

The Group earns fees and commission income from a diverse range of services it provides to its customers.

Fee income can be divided into the following two categories:

- a) Fee income earned from services that are provided over a certain period of time
Fees earned for the provision of services over a period of time are accrued over that period as the customer simultaneously receives and consumes the benefits provided by the Group. These fees includes management fees and advisory fees.
- b) Fee income from providing transaction services
Fees arising from negotiating or participating in the negotiation of a transaction for a third party - such as underwriting fees, arrangement fees, and brokerage fees for the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses - are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria. Loan syndication fees are recognized in the statement of income when the syndication has been completed and the Group retains no part of the loans for itself or retains part at the same EIR as for the other participants.

Gain on sale of assets

Gain on sale of assets is recognized when the control of the asset have passed to the buyer, usually on the date of delivery, and the collectability of the sales price is reasonably assured. Any income recognized is recorded under 'Gain on sale of assets' in the statement of income.

The Group assessed that there is no difference in accounting for the above fees and commission income and gain on sale of assets under PFRS 15 and PAS 18.

Revenue outside the scope of PFRS 15

Interest income

- a. *Interest income recognized using the EIR method* – Interest income is recognized in profit or loss for all instruments measured at amortized cost, HTM investments and debt instruments classified as investment securities at FVOCI and AFS using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the EIR, the Group estimate cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are integral part of the EIR, transaction costs and all other premiums or discounts.

When financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Group calculates interest income by applying the EIR to the net amortized cost of the financial asset. If the financial assets cures and is no longer credit impaired, the Group reverts to calculating interest income on a gross basis.

- b. *Other interest income* – Interest income on all trading assets and financial assets mandatorily required to be measured at FVTPL is recognized using the contractual interest rate and is included under 'Interest income on investment securities at FVTPL' in the statement of income.

Dividends

Dividend income is recognized when the Group's right to receive payment is established.

Trading and securities gains (losses)

Results arising from trading activities include all gains and losses from changes in fair value for financial assets and financial liabilities at FVTPL and gains and losses from disposal of, debt securities at FVOCI, AFS and HTM investments.

Unrealized gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealized gains and losses for financial instruments, including puttable instruments classified as financial liability, which were realized in the reporting period. Realized gains and losses on disposals of financial instruments classified as at fair value through profit or loss are calculated using pro-rata approach starting January 1, 2018 and using WAC method in 2017.

Rental income

Rental income arising from leased properties is accounted for on a straight-line basis over the lease terms on ongoing leases and is recorded in the statement of income under 'Miscellaneous income'.

Gain on sale or redemption of unquoted commercial papers

This income results from sale or redemption of unquoted commercial papers. The gain on sale or redemption of unquoted commercial papers is recorded under 'Miscellaneous income' in the statement of income.

Expenses

Expenses constitute costs of administering the business and these are charged to operations as incurred.

Retirement Benefits

The Group has a funded noncontributory defined benefit retirement plan. The retirement cost of the Parent Company, FMSBC and FAMI is determined using the projected unit credit method.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

Defined benefit costs comprise the following:

- (a) service cost;
- (b) net interest on the net defined benefit liability or asset; and
- (c) remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statement of income. Past service costs are recognized when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on high quality corporate bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income under 'Compensation and fringe benefits' in the statement of income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as 'Interest expense'.

Contingencies

Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of assets embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefits is probable.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as of the statement of financial position date.

Deferred tax

Deferred tax is provided, using the balance sheet liability method, on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, including asset revaluations, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries and foreign associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable profit will be available against which the deductible temporary differences and carryforward of unused tax credits from MCIT and unused NOLCO can be utilized except:

- Where the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable income will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each statement of financial position date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the statement of financial position date.

Deferred tax relating to items recognized directly in the statement of comprehensive income is also recognized in the statement of comprehensive income and not in the statement of income.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognized subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill (as long as it does not exceed goodwill) if it was incurred during the measurement period or in profit or loss.

Earnings per Share

Basic earnings per share (EPS) is computed by dividing net income for the year attributable to equity holders of the Parent Company by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock dividends declared and stock rights exercised during the year, if any. The Group does not have dilutive potential common shares.

Dividends on Common Shares

Dividends on common shares are recognized as a liability and deducted from equity when approved by the respective Board of Directors (BOD) of the Parent Company and its subsidiaries. Dividends for the year that are approved after the statement of financial position date are dealt with as an event after the statement of financial position date.

Subsequent Events

Post-year-end events that provide additional information about the Group's financial position at the statement of financial position date (adjusting event) are reflected in the financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on operating segments is presented in Note 6.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2020

- Amendments to PFRS 3, *Definition of a Business*

The amendments to PFRS 3 clarify the minimum requirements to be a business, remove the assessment of a market participant's ability to replace missing elements, and narrow the definition of outputs. The amendments also add guidance to assess whether an acquired process is substantive and add illustrative examples. An optional fair value concentration test is introduced which permits a simplified assessment of whether an acquired set of activities and assets is not a business.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments refine the definition of material in PAS 1 and align the definitions used across PFRSs and other pronouncements. They are intended to improve the understanding of the existing requirements rather than to significantly impact an entity's materiality judgements.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

Effective beginning on or after January 1, 2021

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in accordance with PFRS requires the Group's management to make judgments and estimates that affect the reported amounts of assets, liabilities, income and expenses, and the disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Unless otherwise stated, below significant judgments and estimates apply as of and for the years ended December 31, 2019, 2018 and 2017.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements:

a. Classification of financial assets

The Group classifies its financial assets depending on the business model for managing those financial assets and whether the contractual terms of the financial asset are SPPI on the principal amount outstanding.

The Group performs the business model assessment based on observable factors such as:

- Performance of the business model and the financial assets held within that business model are evaluated and reported to the Group's key management personnel
- Risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- Compensation of business units whether based on the fair value of the assets managed or on the contractual cash flows collected
- Expected frequency, value and timing of sales

In performing the SPPI test, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, the period for which the interest rate is set, contingent events that would change the amount and timing of cash flows, leverage features, prepayment and extension terms and other features that may modify the consideration for the time value of money.

In August 2019, the Parent Company's BOD approved the disposal of its investment securities at amortized cost with carrying value of ₱16.4 billion and abandonment of the related hold-to-collect (HTC) business models due to external changes that are significant to its operations. The securities were sold at the prevailing market prices and resulted in a net gain amounting to ₱26.4 million, presented separately in the statement of income.

b. Consolidation of entities in which the Group holds less than majority of voting rights.

The Group applies judgment in assessing whether it holds control over an investee where the Group's ownership interest and voting rights is 50.0% and below. For this, the Group considers the following factors: (a) power over the investee; (b) exposure, or rights, to variable returns from its involvement with the investee; and (c) the ability to use its power over the investee to affect the amount of the investor's returns.

The Group directly holds 44.4%, 27.6%, 24.3%, and 26.8% in First Metro Philippines Equity Exchange Traded Fund, Inc. (FMPEETFI), First Metro Save and Learn Equity Fund (FMSALEF), First Metro Save and Learn Balanced Fund (FMSALBF) and First Metro Save and Learn Fixed Income Fund (FMSLFIF), respectively, as of December 31, 2019 and 45.0%, 25.1%, 21.3%, and 25.1%, respectively, as of December 31, 2018. The Group assessed that control over FMPEETFI, FMSLFIF, FMSALEF and FMSALBF (the Funds) exists because the Parent Company is acting as principal of the Funds, through the fund manager of the Funds, FAMI, which is a 70.0% owned subsidiary of the Parent Company, and given the Parent Company's economic interests (comprising direct interests and future management and advisory fees) over these Funds. The following factors were considered in the assessment: (a) the Parent Company

has wide decision making rights over the relevant activities of the Funds and (b) the removal rights are not substantive since there are multiple parties (widely dispersed shareholders) who hold the removal rights; further, members of the BOD of the Funds are normally nominated/appointed by the Parent Company.

- c. *Existence of significant influence over an associate with less than 20.0% ownership*
In determining whether the Group has significant influence over an investee requires significant judgment. Generally, a shareholding of 20.0% to 50.0% of the voting rights of an investee is presumed to give the Group a significant influence.

There are instances that an investor exercises significant influence even if its ownership is less than 20.0%. The Group applies significant judgment in assessing whether it holds significant influence over an investee and considers the following: (a) representation on the board of directors or equivalent governing body of the investee; (b) participation in policy-making processes, including participation in decisions about dividends or other distributions; (c) material transactions between the investor and the investee; (d) interchange of managerial personnel; or (e) provision of essential technical information.

The Parent Company and another investor of Lepanto Consolidated Mining Company (LCMC) entered into a collaboration agreement to: (a) jointly vote their fully paid “A” and “B” common shares during stockholders meeting in all matters affecting their right as stockholders; (b) for the parties’ respective nominees in the BOD to decide and vote jointly for every corporate act and purpose during meetings of the BOD; and (c) to consult each other on all the issues and corporate acts raised in the BOD and in the stockholders’ meetings and come up with a common decision and vote uniformly at the said meetings. The Parent Company and the other investor, together, have two (2) board seats out of the nine (9) or equivalent to 22.2% of the members of the BOD of LCMC. As a result of the collaboration agreement, management assessed that the Parent Company has significant influence over LCMC.

Estimates

The measurement of impairment losses under PFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

- a. *Credit losses on financial assets*

The measurement of impairment losses under PFRS 9 across all categories of financial assets requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Group’s ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Significant factors affecting the estimates on the ECL model include:

- The Group’s internal grading model, which assigns PDs to individual grades.
- The Group’s criteria for assessing if there has been a SICR and so allowances for financial assets should be measured on a Lifetime Expected Credit Loss (LTECL) basis and the qualitative assessment.
- The Group’s definition of default, which is consistent with regulatory requirements.

- The segmentation of financial assets when the ECL is assessed on a collective basis .
- Development of ECL models, including the various formulas and the choice of inputs.

The gross carrying amounts of financial assets subject to ECL as of December 31, 2019 and 2018 are disclosed in Note 4, while the related ECL allowances for credit losses are disclosed in Note 13.

b. Impairment of non-financial assets (Investments in subsidiaries and associates)

The Group assesses impairment on assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends

The Group uses the higher of fair value less costs to sell and VIU in determining recoverable amount. The carrying value of investments in subsidiaries and associates of the Group and the Parent Company are disclosed in Note 10.

As of December 31, 2019, there has been a significant and prolonged decline in the fair value of an associate. The Group performed impairment testing using the associate's VIU. The recoverable amount of the investment in the associate has been determined based on a VIU calculation using cash flow projections. Key assumptions in VIU calculation are most sensitive to the following assumptions: a) production volume; b) price; c) exchange rates; d) capital expenditures; and e) forecasted long-term growth rates. Based on the Group's impairment testing, the investment in associate is impaired by ₱439.2 million.

c. Leases – Estimating the incremental borrowing rate

Applicable beginning January 1, 2019

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its IBR to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease.

The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the credit spread for a stand-alone credit rating).

The carrying amount of the lease liabilities as of December 31, 2019 is disclosed in Note 24.

d. Recognition of deferred taxes

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits, future tax planning strategies, and type

of deductions to be availed in the future i.e. either itemized deductions or optional standard deduction (OSD).

As of December 31, 2019 and 2018, the Parent Company and certain subsidiaries of the Group did not recognize deferred tax assets on NOLCO and carryforward benefits of MCIT. The Group believes that it is not probable that these temporary differences will be realized before the three-year expiration. The income of these subsidiaries mainly pertain to trading gains and interest income which are not subject to regular corporate income tax.

The carrying amount of deferred tax assets and liabilities, for both the Group and the Parent Company, are disclosed in more detail in Note 26.

e. Present value of retirement obligation

The cost of the defined benefit pension plan and other post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

The assumed discount rates were determined using the market yields on Philippine government bonds with terms consistent with the expected employee benefit payout as of statement of financial position date.

The mortality rate is based on publicly available mortality tables for the Philippines and is modified accordingly with estimates of mortality improvements. Future salary increases and pension increases are based on expected future inflation rates, seniority, promotion and other market factors.

While the Group believes that the assumptions are reasonable and appropriate, significant differences between actual experience and assumptions may materially affect the cost of employee benefits and related obligations.

As of December 31, 2019 and 2018, the balance of the Group's present value of defined benefit obligations and other employee benefits and the assumptions used in the actuarial valuation are shown in Note 22.

4. Financial Risk Management

The Group has exposures to the following risks from the use of financial instruments:

- Operational risk
- Regulatory Compliance risk
- Credit risk
- Liquidity risk
- Market risk

Risk Management Framework

The Group's implementation of the risk management process involves a top-down approach that starts with the BOD. The Parent Company's BOD, through the board-level Risk Oversight Committee (ROC), is actively involved in planning, approving, reviewing, and assessing all risks involved within the Parent Company. ROC also establishes the risk culture and sets the tone for all

institutional risk-related activities and ensures that the risk policies are clearly formulated and disseminated within the Parent Company.

The ROC's functions are supported by the Executive Committee (EXCOM), which provides essential inputs and advice, particularly on credit and investment policy matters. The EXCOM is provided with the necessary assistance by the following management working committees, namely: the Senior Management Committee (SMC), the Credit Committee (CreCom), the Investment Committee (InCom), Deal Committee (DealCom) and the Policy Committee (PolCom).

The SMC is responsible for identifying, synchronizing and addressing various operational problems and concerns of the Parent Company and certain subsidiaries. The SMC is also tasked with providing the general guidelines and advice on all transactional dealings which consider facet of risks, i.e., market, credit, operational risks, etc. The SMC's other functions are similar to that of Asset and Liability Committee (ALCO) of most banks. Its members comprise of the most senior officers of the Parent Company which have significant risk responsibilities over the asset and liability management.

The CreCom, another senior management committee comprised of senior officers of the Parent Company, is tasked with reviewing all credit proposals and approving loan applications and credit facilities up to set limits/criteria; when exceeded, the decision is elevated to the EXCOM. It also provides support on monitoring and reviewing active credit and investments positions as well as documentations.

The Incom is tasked with reviewing all investment proposals, approving investment outlets and guiding the fund managers in the discharge of their respective investing responsibilities.

The Dealcom is tasked with the reviewing/screening of new deal proposals preparatory to sending mandate letter, clearing the business units' new deals subject to the final approval of credit authority, and monitoring all deals in process of the business units.

The Compliance Division (CD) also collaborates with the ROC. The main task of the CD is to monitor and assess compliance of various units of the Parent Company and certain subsidiaries to its rules and regulations as well as their compliance with the rules and regulations prescribed by the government regulatory bodies. The CD is also tasked to properly disseminate these rules and regulations to the various units of the Parent Company as well as its subsidiaries when applicable.

The PolCom is tasked with reviewing the policy proposals from all FMIC units which are subsequently confirmed and approved by appropriate body.

The Chief Risk Officer (CRO) manages and oversees the day-to-day activities of the Risk Management Division (RMD). The CRO likewise evaluates all risk policy proposals and reports to be presented to the ROC. The CRO, through the RMD, also coordinates with the Risk Taking Units (RTUs) and the Risk Control and Compliance Units (RCCUs) of the Parent Company with regard to the submission of requisite reports on their risk compliance and control activities.

RMD is tasked with identifying, analyzing, measuring, controlling and evaluating risk exposures arising from fluctuations in the prices or market values of instruments, products and transactions of the Parent Company and certain subsidiaries. It is responsible for recommending trading risk and liquidity management policies, setting uniform standards of risk assessment and measurement, providing senior management with periodic evaluation and simulation and analyzing limit compliance exceptions. The RMD furnishes daily reports to Senior Management and RTUs and provide monthly reports to ROC. The RMD also coordinates with the Risk Taking Units (RTUs) and

the Risk Control and Compliance Units (RCCUs) of the Parent Company with regard to the submission of requisite reports on their risk compliance and control activities.

The identified market, such as equity prices, interest rate and foreign currency, and liquidity, as well as credit and operations risks are consequently measured and then controlled by a system of limits. The RMD defines and presents for approval of the ROC and BOD the various risk management measures to be used in quantifying those risks.

The Parent Company requires either internal or external legal opinions to ensure that all documentations related to transactions entered into by the Parent Company are enforceable. Specific, internal legal functions/responsibilities including coordination with external counsel groups are handled by the Legal Department.

Operational Risk

The Parent Company's operational risk management framework outlines its effective management of operational risks via a staged approach which involves risk identification, analysis and assessment, treatment, monitoring and reporting. The document also provides pertinent operational risk management tools that need to be in place.

In line with the framework, various methodologies and tools were established to facilitate management of operational risk. These include operational risk incident data management, risk event database maintenance, risk assessment, key risk indicator monitoring and contingent legal liability reporting. The Parent Company, likewise, has in place a responsive risk management policy for effective oversight, due diligence and management of risks arising from outsourcing, prior to entering into, as well as, during the lifespan of an outsourcing agreement/arrangement. This is recognizing that while outsourcing can be cost effective and brings other competitive advantages, it also poses an Outsourcing Risk. Outsourcing Risk is the risk that third party service providers may not act within the intended limits of their authority and/or not perform in a manner consistent with outsourcing party's strategies, objectives and desired results, as well as, legal and regulatory requirements.

Moreover, the Parent Company has in place a structured Information Systems Strategic Plan (ISSP). The plan is reviewed and updated on regular basis to keep it in sync with Parent Company's strategic business direction.

The Ultimate Parent Company, on the other hand, thru its Internal Audit Group (IAG), reviews operational risk management processes and provide an independent assurance as to its adequacy and effectiveness.

Credit Risk

Credit risk is the risk of financial loss to the Group if a counterparty to a financial instrument fails to meet its contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relation to such limits. Counterparty credit lines are established by the Parent Company annually to guide its transactions. Business transactions are restricted to these accredited counterparties, and any violations are reported to the designated control units.

The management of credit risk is outlined in the Credit Policy Manual where credit authority and approval bodies are formalized within the institution. This is further supported by various operating manuals from relevant units subject to periodic review, any changes are elevated to appropriate approving body. The Parent Company operates under sound, well-defined credit-granting criteria which include a thorough understanding of the borrower or counterparty, as well as the purpose and structure of the credit, risks and risk mitigants and its source of repayment. Independent validation of

credit reviews is done annually. Vendors are subject to financial assessments according to prescribed policy. Credit ratings of counterparties are likewise periodically tracks and reported to board committee level. The Parent Company gathers sufficient information to enable a comprehensive assessment of the true risk profile of the borrower or counterparty through the use of Internal Credit Risk Rating System (ICRRS) as well as rating information from independent credit rating providers. On implementation of PFRS 9 on ECL, the PFRS 9 - ECL Technical Document provides guidance on the methodology and calculation of the impairment provision; models are assessed and recalibrated as needed.

Management of Credit Risk

The Parent Company faces potential credit risks every time it extends funds to borrowers, commits funds to counterparties, guarantees the paying performance of its clients, invests funds to issuers (e.g., investment securities issued by either sovereign or corporate entities) or enters into market-traded securities either through implied or actual contractual agreements (i.e., on- or off-balance sheet exposures).

The Parent Company manages its credit risk at various levels (i.e., strategic level, portfolio level down to individual credit or transaction) by adopting a credit risk management environment that has the following components:

- Formulating credit policies in areas like documentation and collateral requirements as well as credit assessments and risk grading processes. The monitoring and reporting procedures are likewise documented.
- The guidelines provided by the regulators are also incorporated to internal policies to ensure adherence to regulatory requirements.
- Providing seminars or programs that enhance skills and risk awareness among its personnel.
- Establishing authorization limits for the approval and renewal of credit facilities.
- Independent credit evaluation by Credit Division prior to loan approval.
- Screening of prospective borrowers/deals by the DealCom/SMC prior to endorsement to other Committees like Crecom/EXCOM.
- Limiting concentrations of exposures by periodic monitoring of counterparties including what industry they belong to.
- Performance of independent credit review validation by RMD.
- Performance of Vendor Financial Assessments for its service providers
- Continuously monitoring the credit quality of various portfolios including certain subsidiaries.
- Maintaining an ICRRS, approved by the BOD, in order to categorize exposures according to the risk profile. The rating system is a combination of quantitative and qualitative factors. This is also used for determining impairment provisions against specific credit exposures. The current risk grading framework consists of ten grades reflecting varying degrees of risk of default and the availability of collateral or other credit risk mitigation.

Credit risk at initial recognition

The Group uses internal credit assessment and approvals at various levels to determine the credit risk of exposures at initial recognition. Assessment can be quantitative or qualitative and depends on the materiality of the facility or the complexity of the portfolio to be assessed.

Modification

In certain circumstances, the Group modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The modifications may include

but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments and accrual of interest and charges.

Maximum exposure to credit risk after collateral held or other credit enhancements

An analysis of the maximum credit risk exposure (net of allowance) relating to financial assets with collateral or other credit enhancements is shown below:

	Consolidated							
	2019					2018		
	Maximum Exposure to Credit Risk	Fair Value of Collateral	Financial Effect of Collateral or Credit Enhancement	Net Exposure	Maximum Exposure to Credit Risk	Fair Value of Collateral	Financial Effect of Collateral or Credit Enhancement	Net Exposure

Others	5,650,500	10,095,005	5,650,500	-	7,973,879	9,827,252	7,973,879	-
Total	₱1,749,663,741	₱2,228,668,497	₱1,749,663,741	₱-	₱467,999,539	₱941,315,459	₱467,999,539	₱-

	Parent Company							
	2019					2018		
	Maximum Exposure to Credit Risk	Fair Value of Collateral	Financial Effect of Collateral or Credit Enhancement	Net Exposure	Maximum Exposure to Credit Risk	Fair Value of Collateral	Financial Effect of Collateral or Credit Enhancement	Net Exposure
SPURA	₱1,346,691,935	₱1,346,691,935	₱1,346,691,935	₱-	₱-	₱-	₱-	₱-
Loans and receivables - net								
Loans and discounts								
Corporate lendings	397,321,306	871,881,557	397,321,306	-	460,025,660	931,488,207	460,025,600	-
Others	3,759,746	5,838,505	3,759,746	-	5,021,808	6,875,181	5,021,808	-
Total	₱1,747,772,987	₱2,224,411,997	₱1,747,772,987	₱-	₱465,047,468	₱938,363,388	₱465,047,408	₱-

For the other financial assets of the Group and of the Parent Company not presented in the table above, the carrying amounts represent the maximum exposure to credit risk as at December 31, 2019 and 2018.

Collateral and other credit enhancements

The Group holds collateral against loans and receivables in the form of real estate and chattel mortgages, guarantees, and other registered securities over assets. Estimates of fair value are based on the value of the collateral assessed at the time of borrowing and these are periodically updated following the internally approved guidelines on accepted collaterals. Generally, collateral is not held over loans and advances to banks except for reverse repurchase agreements. Collateral valuations are monitored periodically by an independent unit of the Parent Company. Collateral, usually, is not held against investment securities and no such collateral was held as of December 31, 2019 and 2018.

It is the Group's policy to dispose foreclosed properties acquired in an orderly fashion.

Concentrations of Credit Risk

Concentrations of credit risk arise when the company is exposed to particular group of counterparties or a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate relative sensitivity of the Parent Company's performance to developments affecting a particular industry or geographic location.

For risk concentration monitoring purposes, the financial assets are broadly categorized into (1) loans and advances; (2) loans and receivables; and (3) trading and financial investment securities. To mitigate risk concentration, the Parent Company checks for breaches in regulatory and internal limits. Internal credit concentration limits were set at not more than 20.0% and 25.0% of the selected financial assets for counterparties and industry exposures, respectively. Monitoring reports are done monthly wherein the same are elevated to the ROC on its monthly meeting for information and appropriate actions.

Each business unit is responsible for the performance and quality of its credit portfolio and for monitoring and controlling all credit risks in its portfolio. IAG undertakes the periodic review of business units and credit processes.

Concentration of risks of financial assets with credit risk exposure

An analysis of concentrations of credit risk by industry at the statement of financial position date is shown below:

	Consolidated			Total
	2019			
	Loans and Receivables*	Loans and Advances to Banks**	Investment Securities***	
Water supply, sewage, waste management and remediation activities	₱488,192,432	₱-	₱-	₱488,192,432

Credit quality per class of financial assets

The credit quality of financial assets is assessed and managed using external and internal ratings.

The ICRRS contains the following:

- Borrower Risk Rating (BRR) - The BRR is an assessment of the credit worthiness of the borrower (or guarantor) without considering the type or amount of the facility and security arrangements. It is an indicator of the probability that a borrower cannot meet its credit obligations in a foreseen manner.

The assessment is described below:

Component	Description	Credit Factor Weight
Financial Condition	Refers to the financial condition of the borrower as indicated by certain financial ratios. The Financial Factor Evaluation is conducted manually by the Credit Division.	40.0%
Industry Analysis	Refers to the prospects of the industry as well as the company's performance and position in the industry.	30.0%
Management Quality	Refers to the management's ability to run the company successfully.	30.0%

- b. Facility Risk Factor (FRF) - This is determined for each individual facility considering the term of the facility, security arrangement and quality of documentation. This factor can downgrade or upgrade the BRR based on the elements relating to cover (collateral including pledged cash deposits and guarantee), quality of documentation and structure of transactions.
- c. Adjusted Borrower Risk Rating (ABRR) - The combination of BRR and FRF results in ABRR.
- d. Composite Risk Rating (CRR) for borrowers with multiple facilities - The weighted average ABRR shall be computed and used in determining the CRR.

The following table shows the description of ICRRS grade as well as the mapping of ICRRS to external credit ratings:

Credit Quality	ICRRS Grade	Description	Moody's/S&P/Fitch Rating Notations	MBRR
High Grade	1	Excellent	AAA Aa1/A+ Aa2AA Aa3/AA-	AAA
	2	Strong	A1/A+ A2/A A3/A-	A+ A A-
Standard Grade	3	Good	Baa/BBB+ Baa2/BBB Baa3/BBB-	BBB+ BBB BBB-
	4	Satisfactory	Ba1/BB+ Ba2/BB Ba3/BB-	BB+ BB BB-
	5	Acceptable	B1/B+ B2/B B3/B-	B+ B B-
Substandard Grade	6	Watchlist	Caa/CCC+	CCC+
	7	Especially mentioned	Caa2/CCC	CCC
Impaired	8	Substandard	Caa3/CCC-	CCC-
	9	Doubtful	D	D
	10	Loss	E	E

1 - Excellent

An “excellent” rating is given to a borrower with no history of delinquencies or defaults, highly liquid and sustaining strong operating trends, unlikely to be affected by external factors and has a competent management that uses current business models.

2 - Strong

A “strong” rating is given to borrowers with the same characteristics as those rated as “excellent” rating, but is only adequately liquid.

3 - Good

A “good” rating is given to a borrower with no history of default in the last 12 months. The entity’s borrowing base can support its line of credit, and it is meeting performance expectations. It is unlikely to be affected by external factors and has a competent management that uses current business models.

4 - Satisfactory

A “satisfactory” rating is given to a borrower that pays as agreed, but is not necessarily non-delinquent. The entity has adequate to marginal liquidity and generally meets performance expectations. While there are external factors that may affect the entity, these will likely be overcome. A lack of key management experience may be a current problem for the entity, and such could be brought about by a recent departure of a key employee.

5 - Acceptable

An “acceptable” rating is given to a borrower that is current in its payments while not necessarily paying as agreed. The entity has marginal liquidity and has a declining trend in operations or an imbalanced position in the statement of financial position, though not to the point that repayment is jeopardized. There are identified external disruptions though the impact on the entity is uncertain. There may also be some turnover causing key management positions to stay vacant.

6 - Watchlist

This rating is given to a borrower that may either be current in its payments or 30 to 60 days past due. The entity has marginal liquidity and may not be meeting performance expectations, even having defaulted on some of its loans. There are identified disruptions that negatively affect the entity’s performance, though there are near-term solutions. Management may also have changed its business model with negative implications for the entity.

7 - Especially Mentioned

The borrower in this rating shows evidence of weakness in its financial condition, having expected financial difficulties. There is a real risk that the entity’s ability to pay the interest and principal on time could be jeopardized. Without government intervention, external factors will negatively impact the entity. The entity’s ability or willingness to service debt is in doubt, likely causing a need to reschedule payments.

8 - Substandard

For a “substandard” borrower, the debt burden has become too heavy, only to be made worse by weak or negative cash flows and interest coverage. This makes the collection of principal or interest payments questionable, causing an assessment of default of up to 25.0%. Unless given closer supervision, the institution will likely suffer a future loss. External factors may be causing an adverse trend, or there may be a significant weakness in the entity’s collateral. Management has an unfavorable record and lacks managerial capability.

9 - Doubtful

This rating is given to a nonperforming borrower where a payment default has occurred, due to the borrower’s inability or unwillingness to service debt over an extended period of time. Loss is unavoidable and significant, the extent of probable loss on the loan assessment of default is up to 50.0%. However, there may be external factors that may strengthen the entity’s assets, e.g. merger, acquisition, and capital injection. Management has an unfavorable record and lacks managerial capability.

10 - Loss

This rating is given to a borrower when debt service or the prospect for re-establishment of credit worthiness has become remote. This may be due to the fact that the borrower and/or his co-makers have become insolvent, thus, the lender may already be preparing foreclosure procedures. A full provision is made on that part of the principal which is not fully and adequately covered. While the loan covers basically worthless assets, writing off these loans is neither practical nor desirable for the lender.

Risk Rating References - Investment Securities

In ensuring a quality investment portfolio, the Parent Company uses the ICRRS as well as credit risk ratings from eligible external credit rating agencies like Philratings, CRISP, Moody's, Standard & Poor's and other reputable rating agencies.

In undertaking its investment transactions, the Parent Company is also guided by the BOD-approved manual of procedures and the applicable rules and regulations issued by the concerned regulatory bodies of the government. The Parent Company's Compliance Unit, in collaboration with Legal Unit, is tasked with monitoring adherence to these risk areas.

Cash and Other Cash Items

Cash and other cash items of the Group were rated based on credit risk ratings from published data providers like Moody's, Standard & Poor's and other reputable rating agencies.

Collateral

The Parent Company's Credit Policy Manual incorporated the list of acceptable collaterals and corresponding valuation parameters. For real estate mortgages, it provides for a separate collateral appraisal by an independent appraisal firm as required by regulators and a re-appraisal for at least every two years as circumstances warrant.

Monitoring of compliance by the RMD of the approved exposure limits, likewise, with concentration limit.

The following are apply in classifying the credit exposure into the PFRS 9 stages along with the corresponding PD to be assigned:

Stages	Status	ICRRS Rating	PD
Stage 1	Current	1, 2, 3, 4, 5, or 6	12-month PD
Stage 2	Current	7, 8, or 9	Lifetime PD
Stage 3	Item in Litigation ("ITL") or past due	10	100% PD

The Group considers investments in financial assets that are investment grade as low credit risk.

The following tables show the credit quality of the Group and the Parent Company's financial assets, gross of allowance for credit losses, as of December 31, 2019 and 2018, all of which are classified as Stage 1.

Impaired loans and receivables - are loans and receivables for which the Group determines that it is probable that it will be unable to collect all principal and interest due based on the contractual terms of the promissory note and security agreements. Loan classification in terms of provisioning are aligned with regulatory guidelines.

A financial instrument is considered default when the obligation is not paid on its maturity date or any event of default trigger in the agreement and if on maturity, that account is not granted an extension of payment or is not restructured. Account classification in terms of provisioning is aligned with regulatory guidelines.

As of December 31, 2019 and 2018, the Group and the Parent Company has no outstanding past due but not impaired loans and receivables.

Liquidity Risk and Funding Management

Liquidity risk is generally defined as the current and prospective risk to earnings or capital arising from the Group's inability to meet its obligations when they come due without incurring unacceptable losses or costs.

Liquidity management is among the most important activities conducted within the Group. The Group manages its liquidity risk through analyzing net funding requirements under alternative scenarios, diversification of funding sources and contingency planning.

For liquidity risk, the Group uses the Maximum Cumulative Outflow (MCO or Liquidity Gap) analysis in analyzing its funding requirements. The report is prepared once a month and forwarded to the SMC and the RTU. The assumptions employed in the preparation of this report are approved by the BOD. These assumptions are reviewed and updated, as necessary, by the Senior Management through the RMD and Treasury Group. In addition, the Group develops a Liquidity Risk Management and Contingency Funding Plan to serve as reference in case of an occurrence of an event. This plan is also approved by the BOD.

The Group's liquidity risk is managed by holding sufficient liquid assets of appropriate quality to ensure short-term funding requirements are met and by maintaining a portfolio of unencumbered government securities. Deposits with banks are made on a short-term basis with almost all being available on demand or within one month.

The Treasury Group uses liquidity forecast models that estimate the Group's cash flow needs based on the Group's actual contractual obligations and under normal and extraordinary circumstances. Based on the behavioral pattern of the deposit substitute accounts, which has been observed to have a "core deposit" level of about 80.0% to 90.0%, liquidity forecast and/or plans for its use are determined like earmarking for future loans and for other investment outlets. The plans and strategies in the liquidity risk management are contained in the board-approved Liquidity Risk Management and Contingency Funding Plan.

Liquidity is monitored by the Group on a daily basis and further analyzed at predetermined scenarios/situations.

Financial assets

Analysis of equity and debt securities at FVTPL into maturity groupings is based on the expected date on which these assets will be realized. For other assets, the analysis into maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date or if earlier, the expected date the assets will be realized.

Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Group can be required to pay.

The table below shows the maturity profile of the financial instruments:

	Consolidated								Total

Market Risk

Market risk is the risk of loss to future earnings, fair values or future cash flows that may result from changes in the price of a financial instrument. The Parent Company's market risk originates from its holdings of debt securities and equities.

The Parent Company manages market risk by segregating its statement of financial position into a trading book and a banking book. The management of this portfolio is assigned to the SMC, chaired by the President.

The RMD serves under the ROC and performs daily market risk analyses to ensure compliance with the company's policies and procedures. The methodologies used in managing the risk include the daily marking-to-market, monitoring of loss alerts and stop loss limits, profit alert and start sell limits, nominal position limits as well as Value-at-Risk (VaR) and Earnings-at-Risk (EaR) limits.

Stress testing on the portfolio is also done on a daily basis to complement the VaR methodology. The stress testing results are reported to the President and Treasurer as well as to the Controller and the CRO and subsequently to the ROC and the BOD.

A summary of the VaR levels of the trading portfolio of the Parent Company appears below (amounts in millions):

	Equities	Bonds	
		PHP	USD

Lowest	1.45	4.40	1.31

Guiding daily monitoring activities are limits structures that are based on annual targets set during budget hearings, approved by the ROC and the BOD. Monitoring reports are discussed in the ROC monthly meetings.

The Group follows a prudent policy in managing its assets and liabilities to ensure that exposure to fluctuations in interest rates are kept within acceptable limits. Majority of the Parent Company's loan portfolio have no repricing rate arrangements. The determination of the applicable rates is sourced from the Parent Company's approved lending rates. Lending rates are determined based on funding cost plus certain spreads. As of December 31, 2019 and 2018, total loans and discounts earned fixed annual interest rates ranging from 6.5% to 10.81% and 8.0% to 10.81%, respectively, for the Group and the Parent Company.

Another interest rate risk area where the Parent Company has exposures is on the effect of future changes in the prevailing level of interest rates on its fixed and floating interest rate-financial assets and liabilities. It has identified the financial assets and liabilities that are to mature or to reprice in the future and monitors its effect on the statement of income and equity.

The Company slots its interest rate sensitive assets or liabilities according to maturity or repricing date, whichever comes first. The Company has no non-maturing deposits. Interest rate risk in the banking book is measured through the Interest Rate Gap and EaR, measured and reported monthly.

The tables below demonstrate the sensitivity to a reasonable possible change in interest rates with all other variables held constant, of the Group's income before tax (through the impact on interest for floating rate instruments and financial debt assets at FVTPL) and the Group's equity (through the impact on unrealized gain (loss) on FVOCI fixed rate debt securities).

Total	₱872,364,059	₱418,271,112	₱894,122,747	₱438,555,865

Foreign exchange risk

Foreign exchange risk is the risk to earnings or capital arising from changes in foreign exchange rates. The Group takes an exposure to effects on the fluctuations in the prevailing foreign currency exchange rates on its cash flows.

The tables below summarize the Group and the Parent Company's exposure to foreign currency risk as of December 31, 2019 and 2018:

	Consolidated		
	2019	2018	
	US Dollar	US Dollar	Euro
Financial assets			
Loans and advances			
Cash and other cash items	\$26,522,299	\$2,128,306	€7,896

The exchange rates used to convert the Group's US Dollar-denominated and Euro-denominated assets and liabilities into Philippine Peso follow:

	US Dollar- Philippine Peso	Euro- Philippine Peso
Exchange rate		
2019	₱50.64 to US\$1.0	₱56.79 to €1.0
2018	52.58 to US\$1.0	60.09 to €1.0

The following tables set forth the impact of the range of reasonable possible changes in the US Dollar-Philippine Peso exchange rate and Euro-Philippine Peso exchange rate on the Group's income before income tax and equity (due to the revaluation of monetary assets and liabilities) for the years ended December 31, 2019 and 2018 (in millions):

	Consolidated and Parent Company			
	2019		2018	
	Change in Income Before Tax	Change in Equity	Change in Income Before Tax	Change in Equity
Reasonable Possible Change

Euro				
1.0%	-	-	0.87	-
(1.0%)	-	-	(0.87)	-

Equity price risk

Equity price risk is the risk that the fair values of equities will fluctuate as a result of changes in the levels of equity indices and the value of individual stocks. The non-trading equity price risk exposures arise from the Parent Company's investment portfolio and a few club shares.

The Parent Company's policies and procedures as well as risk limit structures on its equity investment portfolio are approved by the ROC and BOD. Management's strategies and plans are discussed in the regular Incom meetings. The committee is headed by the President and the members include the Treasurer and the investment managers.

The following tables set forth, for the period indicated, the impact of a reasonable possible change in the PSE index (PSEi), with all other factors being held constant, on the Group's unrealized gain or loss on held for trading securities:

	Consolidated			
	2019		2018	
Changes in PSEi	12.0%	(12.0%)	15.2%	(15.2%)
Change on trading income under:				
Holding firm industry	₱299,699,655	(₱299,699,655)	₱417,384,243	(₱417,384,243)
Property industry	204,603,554	(204,603,554)	240,085,732	(240,085,732)
Financial industry	149,292,238	(149,292,238)	217,608,961	(217,608,961)
Services industry	66,922,065	(66,922,065)	67,854,571	(67,854,571)
Industrial industry	63,401,455	(63,401,455)	45,693,070	(45,693,070)
Mining and oil industry	6,414,912	(6,414,912)	16,664,475	(16,664,475)
Total	₱790,334,014	(₱790,334,013.9)	₱1,005,291,052	(₱1,005,291,052)
As a percentage of the Group's net unrealized trading gain or loss for the year	359.7%	(359.7%)	168.7%	(168.7%)

As of December 31, 2019 and 2018, the Parent Company does not have equity investments measured at FVTPL.

The increase or decrease in PSEi will directly impact the statement of income of the Group.

The following tables set forth, for the period indicated, the impact of changes in the PSEi to the Group's and the Parent Company's unrealized gain or loss in OCI on FVOCI investments:

	Consolidated			
	2019		2018	
Changes in PSEi	12.0%	(12.0%)	15.2%	(15.2%)
Change on equity under:				
Financial industry	₱19,091,370	(₱19,091,370)	₱38,978,108	(₱38,978,108)
Industrial	57,268,961	(57,268,961)	882,774	(882,774)
Total	76,360,331	(76,360,331)	₱39,860,882	(₱39,860,882)
As a percentage of the Group's net unrealized gain in OCI for the year	12.2%	(12.2%)	27.6%	(27.6%)
	Parent Company			
	2019		2018	
Changes in PSEi	12.0%	(12.0%)	15.19%	(15.19%)
Change on equity under:				
Financial industry	14,759,366	(14,759,366)	₱30,133,623	(₱30,133,623)
Industrial	56,676,091	(56,676,091)	-	-
Total	71,435,457	(71,435,457)	₱30,133,623	(₱30,133,623)
As a percentage of the Parent Company's net unrealized gain in OCI for the year	11.5%	(11.5%)	19.3%	(19.3%)

The increase or decrease in PSEi will directly impact the equity of both the Group and Parent Company.

5. Fair Value Measurement

The methods and assumptions used by the Group in estimating the fair value of financial instruments and nonfinancial assets are:

Cash and other cash items and due from BSP, financial liabilities at cost except for bonds payable - Carrying amounts approximate fair values due to the relatively short-term maturities of these investments.

Debt securities

Fair value of debt securities (Investment securities at FVTPL, FVOCI and Amortized Cost) composed of government securities issued by the Philippine government and private debt securities are determined based on quoted prices at the close of business as appearing on Bloomberg.

Equity securities

Quote equity securities are valued based on their closing prices published by the Philippine Stock Exchange. The fair value of unquoted equity securities are determined based on the adjusted asset approach and Guideline Company Method (GCM). The adjusted asset approach derives the value of the investment using the net asset of the investee adjusted to its fair value. GCM allows a value indicator of a company to be derived by applying relevant multipliers of similar, publicly traded "comparable" companies to the company's financial metrics.

Derivative instruments - Fair values are estimated based on prices derived using acceptable valuation models. The model utilizes published underlying rates (e.g. interest rates and quoted price volatilities) and are implemented through validated calculation engines.

Loans and receivables - Fair values of loans are estimated using the discounted cash flow methodology, using Bloomberg's risk free rate plus estimated credit spread. Where the instrument reprices on a quarterly basis or has a relatively short maturity, the carrying amount approximates fair value.

Investment properties - Fair value has been determined based on valuations made by independent appraisers who holds a recognised and relevant professional qualification and who has recent experience in the location and category of the investment property being valued. Valuations were derived on the basis of recent sales of similar properties in the same areas as the investment properties and taking into account the highest and best use of the properties at the time the valuations were made (Note 11).

Bonds payable - Fair values are estimated using the discounted cash flow methodology, using Bloomberg's risk free rate plus estimated credit spread.

The following tables summarize the carrying amount and fair values of the financial assets, financial liabilities and non-financial assets, analyzed based on inputs to fair value:

	Consolidated				Total Fair Value

Nonfinancial assets					
Investment properties	₱205,902,887	₱-	₱-	₱660,127,500	₱660,127,500

As of December 31, 2019 and 2018, no transfers were made among the three levels in the fair value hierarchy.

Inputs used in estimating fair values of the equity securities measured at FVOCI under Level 3 include price-to-book ratio. The table below demonstrate the sensitivity of the Group's equity (through the change in the impact on OCI, representing net unrealized gain/(loss) on the FVOCI equity securities) assuming a reasonable change in the price-to-book ratio:

Reasonable Possible Change	Consolidated and Parent Company Change in Equity	
	2019	2018
Price to book		
15.0%	₱20,231,928	₱20,393,068
(15.0%)	10,196,170	(11,478,943)

For financial assets and liabilities for which fair values are disclosed, inputs used in estimating fair values categorized under Level 3 include risk-free rates and applicable risk premium.

Significant (decreases) increases in the risk-free rates and risk premium, in isolation, would result in a significantly higher (lower) fair value measurement. Significant increases (decreases) in volatility, in isolation, would result in a significantly higher (lower) fair value measurement.

6. Segment Information

The Group's operating businesses are organized and managed separately according to the nature of services provided and the different markets served, with each segment representing a strategic business unit.

As of December 31, 2019 and 2018, the Group's operating segments are as follows:

- Financial Markets Group - manages the liquidity and funding requirements of the Parent Company and the distribution of financial instruments such as government securities and corporate papers. It offers a wide variety of profitable and secure instruments such as treasury bills, treasury notes/bonds, commercial papers, and promissory notes. As a quasi-bank licensed by the BSP, it borrows money from the public and issues its own financial instruments. Moreover, it is an accredited government securities eligible dealer authorized by the Bureau of Treasury in trading government securities and it remains a dominant selling agent in the distribution of government securities, government-owned or controlled corporations and other corporate issuances;
- Investment Banking - is responsible for raising long-term funding requirements of the government and the private sectors. Its products and services include debt and equity underwriting, loan syndication, financial advisory, project finance and structured financial solutions.
- Mutual Funds - these are the fund business of the Group;
- Strategic Investments - these are the business of the Group which are involved in leasing and finance, life insurance and mining industries.
- Others - principally consists of institutions with significant presence in each of its respective markets which include stock brokerage and real estate. This also includes non-interest income and expenses managed on a group basis that are not allocated to operating segments.

No operating segments have been aggregated to form the reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. This segment information is presented monthly to the Parent Company's BOD which is the Chief Operating Decision Maker.

The following tables present revenue and income information of the Group's operating segments measured in accordance with PFRS as of and for the years ended December 31, 2019, 2018 and 2017:

Inter-segment revenues are eliminated upon consolidation and reflected in the 'adjustment/elimination' column.

Segment assets and liabilities comprise operating assets and liabilities

Interest income is reported net of interest expense as management primarily relies on the net interest income as performance measure, not the gross income and expense. Interest is charged or credited to business segments based on a pool rate which approximates the cost of funds.

Non-interest income consists of 'Service charges, fees and commissions', 'Gain on sale of assets', 'Trading and securities gain (loss)', 'Foreign exchange gain - net', 'Dividends' and 'Miscellaneous income'.

Non-interest expense consists of 'Taxes and licenses', 'Compensation and fringe benefits', 'Broker's commission', 'Rent, light and water', 'Depreciation and amortization', 'Representation and entertainment', 'Provision for (recovery from) impairment and other probable losses' and 'Miscellaneous expense'.

Capital expenditure consists of additions to property and equipment, investment properties and software licenses.

For the years ended December 31, 2019, 2018 and 2017, the Group has a significant customer in its Financial Markets segment, which contributed ₱1.2 billion, ₱0.8 billion and ₱0.9 billion, respectively, to the consolidated revenue.

8. Loans and Receivables

This account consists of:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Loans and discounts:				
Corporate lending	₱518,408,709	₱488,113,063	₱525,408,709	₱488,113,063
Others	12,921,463	15,743,079	9,031,831	10,799,786
	531,330,172	503,856,142	534,440,540	498,912,849
Unquoted commercial papers	629,954,383	632,454,383	480,000,000	482,500,000
Accounts receivable	454,078,798	284,335,401	21,851,382	21,742,104
Accrued interest receivable	91,310,073	160,171,808	58,248,953	138,839,302
Dividends receivable	3,106,139	2,024,861	–	25,350,000
Other receivables	35,191,820	33,677,992	–	–
	1,744,971,385	1,616,520,587	1,094,540,875	1,167,344,255
Allowance for credit losses (Note 13)	(59,389,791)	(28,943,753)	(28,087,403)	(28,087,403)
	₱1,685,581,594	₱1,587,576,834	₱1,066,453,472	₱1,139,256,852

The following table shows the breakdown of loans and receivables from related parties as of December 31, 2019 and 2018:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Loans and discounts:				
Corporate lending	₱–	₱–	₱100,000,000	₱–
Others	12,921,463	15,743,079	9,031,831	10,799,786
Unquoted commercial papers	149,954,383	149,954,383	–	–
Accrued interest receivable	5,736,234	3,023,832	1,906,788	–
Accounts receivable	3,703,877	9,712,496	3,399,655	15,053,047
	₱172,315,957	₱178,433,790	₱114,338,274	₱25,852,833

As of December 31, 2019 and 2018, none of the total loans and discounts were subject to periodic interest repricing for the Group and the Parent Company. As of December 31, 2019 and 2018, total loans and discounts earned fixed annual interest rates ranging from 6.5% to 10.81% and from 8.0% to 10.81%, respectively, for the Group and the Parent Company.

Interest income on loans and receivables follow:

	Consolidated			Parent Company		
	2019	2018	2017	2019	2018	2017
Loans and discounts:						
Corporate lending	₱52,049,741	₱81,347,325	133,870,137	₱52,047,269	₱81,347,325	₱133,870,137
Others	1,136,603	1,134,650	1,382,431	904,930	832,049	1,138,098
Unquoted commercial paper	35,316,443	38,500,658	61,972,785	35,316,444	38,500,658	42,272,628
Sales contract receivable	–	–	760,987	–	–	760,987
Loans and receivables	₱88,502,787	₱120,982,633	₱197,986,340	₱88,268,643	₱120,680,032	₱178,041,850

Unquoted Commercial Papers

This account consists of various debt instruments issued by private corporations. As of December 31, 2019 and 2018, the nominal annual interest for these securities ranges from 7.0% to 7.4% for the Group, and 7.4% for the Parent Company.

In 2017, realized loss from sale of unquoted commercial papers amounted to ₱1.3 million for the Group and ₱1.7 million for the Parent Company. No sale of unquoted commercial papers occurred in 2019 and 2018.

Accounts Receivable

As of December 31, 2019 and 2018, accounts receivable is comprised mainly of receivables from customers arising from brokerage services rendered by FMSBC. The Parent Company's accounts receivable includes fees and commissions of the Parent Company for services rendered and various advances to its subsidiaries.

9. Property and Equipment

Acquisition of New Subsidiaries by FAMI

In 2018, two (2) new mutual funds were incorporated, First Metro Save and Learn F.O.C.C.U.S. Dynamic Dividend Fund, Inc. and First Metro Save and Learn Money Market Fund, Inc., wherein FAMI invested 40% and 64.5% interest, respectively. Total consideration for these acquisitions amounted to ₱103.0 million.

Redemption of FAMI's Subsidiaries

In December 2018, FAMI disposed of its holdings in One Wealthy Nation Fund (OWN) and Paradigm Global Growth Fund at a redemption price of ₱22.2 million and ₱20.9 million, respectively, resulting in loss on disposal of subsidiaries amounting to ₱7.6 million.

Acquisition of One Wealthy Nation Fund, Inc. by FAMI

In December 2017, FAMI acquired 57.9% interest in One Wealthy Nation Fund, Inc., a mutual fund company, for ₱34.0 million, which was disposed in December 2018 as discussed in the previous paragraph.

Investment in LCMC

As of December 31, 2019 and 2018, the Group's direct ownership in LCMC is 13.5%. FMIC has the ability to exercise significant influence through a 5-year agreement with another investor to jointly vote their 16.7% ownership. As of December 31, 2019 and 2018, LCMC-A shares are trading at ₱0.091 per share and ₱0.112 per share, respectively and LCMC-B shares are trading at ₱0.101 per share and ₱0.115 per share, respectively.

As of December 31, 2019, the fair value of the Group's and the Parent Company's investment in LCMC amounted to ₱0.8 billion. The Group performed an assessment of the recoverability of its investment in LCMC. The recoverable amount of the investment has been determined based on VIU calculations using cash flow projections of the management covering a five-year period, which include forecast on production volume and capital expenditures, among others. For the assumptions on gold and copper price, exchange rate and long-term growth rate, the Group used the available economic, industry and market data. Further, the Group used the associate's weighted average cost of capital (WACC) of 8.2% and 10.1% as of December 31, 2019 and 2018, respectively, as the discount rate for the VIU calculation. As of December 31, 2019, there has been a significant decline in the recoverable amount compared to the carrying amount due to the decline in forecasted production volume. The recoverable amount as of December 31, 2019 amounted to ₱1.5 billion. Based on management's assessment, the investment in LCMC is impaired by ₱439.2 million. This is reported under 'Strategic investments' in the segment information (Note 6).

The following tables present the financial information of significant associates with classified statements of financial position as of and for the years ended December 31, 2019, 2018, and 2017 (amounts in thousands):

Year	Name of Company	Statement of Financial Position				Statement of Comprehensive Income

Material ownership interest of shareholders outside the Group in mutual fund subsidiaries that issue equity instruments redeemable by the holders at the net asset value per unit of the mutual funds are classified as ‘Puttable instruments of mutual fund subsidiaries classified as liability’ (Note 17). Movement in the accumulated balances due to changes in the net asset value per unit of the mutual funds are recognized as trading and securities gain in the statements of income.

Investment in PALIC

PALIC applied the temporary exemption from PFRS 9 as permitted by the amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts* issued in September 2016. The temporary exemption permits entities whose activities are predominantly connected with insurance to continue applying PAS 39 rather than PFRS 9 for annual periods beginning before January 1, 2021.

The assessment for whether a reporting entity's activities are predominantly connected with insurance is based on the liabilities connected with insurance in proportion to the entity's total liabilities.

The predominance assessment is performed using the carrying amounts of liabilities reported on the statement of financial position at the annual reporting date after March 31, 2015 and before April 1, 2016. Applying the requirements, PALIC performed the predominance assessment using the statement of financial position as of December 31, 2015 and concluded that it qualified for the temporary exemption from PFRS 9. Since December 31, 2015, there has been no change in the activities of the Group that requires reassessment of the use of the temporary exemption.

Fair value disclosures

The table below presents an analysis of the fair value of classes of financial assets as of December 31, 2019 and 2018, as well as the corresponding changes in fair value for the years ended December 31, 2019 and 2018. In the table below, the amortized cost of cash and cash equivalents and short-term receivables has been used as a reasonable approximation to fair value.

The financial assets are divided into two categories:

- Assets for which their contractual cash flows represent solely payments of principal and interest (SPPI), excluding any financial assets that are held for trading or that are managed and whose performance is evaluated on a fair value basis; and
- All financial assets other than those specified in SPPI above (i.e. those for which contractual cash flows do not represent SPPI, assets that are held for trading and assets that are managed and whose performance is evaluated on a fair value basis)

Financial assets that passed the SPPI test have low credit risk as of December 31, 2019 and 2018.

Limitation on dividend declaration of subsidiaries and associates

PALIC

Section 195 of the Insurance Code provides that a domestic nonlife insurance company shall declare or distribute dividends on its outstanding stock only from profits remaining on hand after retaining unimpaired:

- the entire paid-up capital stock;
- the margin of solvency required;
- the legal reserve fund required; and
- a sum sufficient to pay all net losses reported or in the course of settlement and all liabilities for expenses and taxes

As of December 31, 2019 and 2018, the Parent Company has no share on commitments and contingencies of its associates and joint venture.

As of December 31, 2019 and 2018, there were no guarantees or other requirements entered into by the subsidiaries of the Parent Company that may restrict dividends and other capital distributions to be paid, or loans and advances to be made or repaid to or from other entities within the Group.

11. Investment Properties

The composition of and movements in this account for the Group and the Parent Company follow:

	Consolidated and Parent Company					
	2019			2018		
	Land	Building/land improvements/condominium for sale/lease	Total	Land	Building/land improvements/condominium for sale/lease	Total
Cost						
Balances at beginning of year	₱211,521,756	₱65,350,232	₱276,871,988	₱318,287,938	₱69,938,232	₱388,226,170
Disposals	(912,000)	(39,845,647)	(40,757,647)	(106,766,182)	(4,588,000)	(111,354,182)
Balances at end of year	210,609,756	25,504,585	236,114,341	211,521,756	65,350,232	276,871,988

Net book value at end of year	₱26,352,527	₱45,979,348	₱22,124,847	₱38,282,506

Creditable withholding taxes arise from income such as service charges, fees and commissions, interest income and rental income, in which customers are required to withhold taxes.

In July 2017, the Parent Company deposited ₱318.1 million in escrow, pertaining to unclaimed money balances of customers. As of December 31, 2019 and 2018, the balance in the escrow fund amounted to ₱235.1 million and ₱238.5 million.

Prepaid expenses consist of prepaid taxes (i.e., real estate tax, documentary stamp tax) and other prepaid expenses (i.e., licenses, insurance and membership fees).

Miscellaneous assets include unused office supplies and rental and other deposits.

13. Allowance for Impairment and Credit Losses

Changes in the allowance for impairment and credit losses follow:

	Consolidated		Parent Company	
	2019	2018	2019	2018

16. Bonds Payable

As of December 31, 2018, details of this account follow:

	Group	Parent Company
Bonds payable	₱2,920,000,000	₱3,000,000,000
Unamortized deferred finance charges	(3,042,250)	(2,866,136)
	₱2,916,957,750	₱2,997,133,864

Fixed Rate Corporate Bonds Due 2017 and 2019

On August 10, 2012, the Parent Company issued ₱7.0 billion fixed rate corporate bonds. The bonds have two tenors:

- ₱4.0 billion worth of bonds have a tenor of five years and three months at an interest rate of 5.50% which matured on November 10, 2017 (Five Year Bonds), and
- ₱3.0 billion worth of bonds have a tenor of seven years at an interest rate of 5.75% which matured on August 10, 2019 (Seven Year Bonds).

The Parent Company shall pay interest on the outstanding principal amount of the bonds on each quarterly interest payment date. All payments of interest shall be computed on the basis of 30/360 days.

The Bonds are scrippless in form and sold in principal amounts of ₱50,000 and in multiples of ₱5,000 in excess of ₱50,000 with an option to redeem in whole, but not in part, on any interest payment date after the fourth and fifth anniversary of the issue date of the Five Year Bonds and Seven Year Bonds, respectively, at 102.0% of its face value plus accrued interest.

The Bonds are exempt securities pursuant to certain provisions of the SRC and are covered by a deed of assignment on government securities to be held in trust by a collateral agent. The aggregate market value of such securities shall be 102.0% of the issued amount and in the event that it falls below the 100.0%, additional government securities shall be offered to increase and maintain the cover at 100.0%.

The ₱3.0 billion bonds matured on August 10, 2019.

As of December 31, 2018, the carrying amount of the government securities assigned as collateral for the ₱3.0 billion bonds amounted to ₱3.9 billion (Note 7).

As of December 31, 2018, the Parent Company had complied with the terms of the issue.

In 2019, 2018 and 2017, the amount of interest expense recognized on the Bonds amounted to ₱105.2 million, ₱172.8 million and ₱357.7 million, respectively, for the Group, and ₱107.8 million, ₱177.1 million and ₱414.8 million, respectively, for the Parent Company, which includes amortization of premium and deferred finance charges amounting to ₱3.0 million, ₱7.0 million and ₱14.9 million, respectively, for the Group and ₱2.9 million, ₱4.6 million and ₱11.4 million, respectively, for the Parent Company.

Fixed Rate Corporate Bonds Due 2017

On November 25, 2011, the Parent Company issued fixed rate corporate bonds (the Bonds) amounting to ₱5.0 billion with fixed interest rate of 5.7% per annum computed based on 30/360 days, payable every quarter starting February 25, 2012. These bonds have matured last February 25, 2017.

In 2017 the amount of interest expense recognized on the Bonds amounted to ₱42.1 million for the Group and ₱42.2 million for the Parent Company, net of amortization of premium and deferred finance charges amounting to ₱0.3 million for the Group and ₱0.4 million for the Parent Company.

The Parent Company's bonds payable are subject to reserve requirement of 6.0%.

As of December 31, 2018, the Parent Company's available reserves on the bonds payable amounted to ₱180.0 million booked under 'Due from BSP' account in the statements of financial position which is in compliance with the regulations on reserve requirements.

17. Puttable Instruments of Mutual Fund Subsidiaries Classified as Liability and Other Liabilities

Puttable Instruments of Mutual Fund Subsidiaries Classified as Liability

The Parent Company has mutual fund subsidiaries that issue shares of stock that are redeemable by the holders at the net asset value per unit of the mutual funds. 'Puttable instruments of mutual fund subsidiaries classified as liability' carried at fair value through profit or loss represents the ownership interest of other shareholders outside the Group in these mutual fund subsidiaries. As of December 31, 2019 and 2018, the balances amounted to ₱6,553.1 million and ₱6,779.1 million, respectively. The changes in the net asset value per unit of the puttable instruments recognized in 'Trading and securities gains (losses)' in the statement of income amounted to (₱229.8) million, ₱684.8 million and (₱1,260.7 million) in 2019, 2018 and 2017, respectively.

Other deferred credits	2,162,329	4,270,833	2,162,329	4,270,833
Miscellaneous	293,699,787	186,579,826	190,718,686	146,058,275
	311,850,671	218,977,849	204,306,639	173,150,748
	₱503,478,374	₱355,457,172	₱371,063,937	₱306,193,694

Derivative liability

In 2019, the Group entered into and used cross currency swap (i.e. dollar receive floating and peso pay fixed) to hedge its dollar floating borrowing with a bank from interest rate and foreign currency risks. The Group applied the requirements for cash flow hedge to account for these transactions. The hedges have been assessed as perfectly effective as the critical terms of the cross currency swap matched those of the hedged bank borrowing.

As of December 31, 2019, the Group's borrowing with a bank designated as hedged item amounted to US\$20.0 million (or ₱1,025.0 million), with floating interest rate based on three-month LIBOR plus 0.90% spread.

As of December 31, 2019, the negative fair value of the cross currency swap designated as hedging instrument amounted to ₱19.8 million, presented in "Other Liabilities". The notional amount of the peso pay fixed leg and the dollar receive floating leg of the swap amounted to ₱1,023.0 million and US\$20.0 million, respectively. In 2019, net interest expense on this derivative instrument amounted to ₱15.0 million.

Movement in the cash flow hedge reserve in 2019 is as follows:

Net unrealized loss on cash flow hedge	(₱19,788,416)
Net gain on cash flow hedge reclassified from profit or loss	10,286,441
	(₱9,501,975)

Miscellaneous liabilities

Miscellaneous liabilities consist of provisions for other probable losses and other government-related payables.

18. Maturity Analysis of Financial and Nonfinancial Assets and Liabilities

The following tables present the assets and liabilities of the Group and of the Parent Company by expected maturity and settlement dates as of December 31, 2019 and 2018:

	Per Share	Total Amount		
December 17, 2018	₱15.00	₱25,350,000	December 31, 2018	March 15, 2019

Capital Management

The primary objectives of the Group's capital management are to ensure that it complies with externally imposed capital requirements and it maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group manages its capital structure attuned to the changes in economic conditions and the risk characteristics of its activities. The Group may adjust the amount of dividend payments to shareholders or issue capital securities in order to maintain or adjust its capital structure.

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Parent Company's compliance with regulatory requirements and ratios is based on the amount of the Parent Company's "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of regulatory accounting policies which, in some respect, differ from that of the PFRS.

Effective January 1, 2014, the Group complied with BSP issued Circular No. 781, Basel III Implementing Guidelines on Minimum Capital Requirements, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50% and also introduced a capital conservation buffer of 2.50% comprised of CET1 capital. The existing requirement for Total Capital Adequacy Ratio (CAR) remains unchanged at 10.00% and these ratios shall be maintained at all times.

Basel III also requires that existing capital instruments as of December 31, 2010 which do not meet the eligibility criteria for capital instruments under the revised capital framework shall no longer be recognized as capital. In addition, capital instruments issued under BSP Circular Nos. 709 and 716 (the circulars amending the definition of qualifying capital particularly on Hybrid Tier 1 and Lower Tier 2 capitals) and before the effectivity of BSP Circular No. 781, are recognized as qualifying capital until December 31, 2015. In addition to changes in minimum capital requirements, this Circular also requires various regulatory adjustments in the calculation of qualifying capital.

The details of CAR, as reported to the BSP, as of December 31, 2019 and 2018, respectively, follow (amounts in millions):

	Consolidated		Parent Company	
	2019	2018	2019	2018
CET 1 capital	₱18,053.9	₱17,306.2	₱18,053.9	₱17,306.2
Less: Required deductions	14,793.7	13,067.7	15,160.8	13,499.1
Net Tier 1 capital	3,260.2	4,238.5	2,893.1	3,807.1
Tier 2 capital	43.1	41.6	32.5	32.9
Total qualifying capital	3,303.3	4,280.1	2,925.6	3,840.0
Credit risk-weighted assets	4,301.4	4,146.8	3,224.3	3,272.4
Market risk-weighted assets	872.4	418.3	894.1	438.6
Operational risk-weighted assets	2,070.3	2,476.2	1,554.0	2,020.2
Total risk-weighted assets	₱7,244.1	₱7,041.3	₱5,672.4	₱5,731.2
CET 1 ratio*	45.0%	60.2%	51.0%	66.4%
*Capital conservation buffer	39.0%	54.2%	45.0%	60.4%
Tier 1 capital ratio	45.0%	60.2%	51.0%	66.4%
Total capital ratio	45.6%	60.8%	51.6%	67.0%

CET 1, Tier 1 and Total Capital Ratio are computed by dividing the CET 1 Capital, Tier 1 Capital and Total Qualifying Capital, respectively, by the Total Risk Weighted Assets. Capital Conservation Buffer is computed by deducting the required 6.0% CET 1 ratio from the actual CET 1 ratio.

Qualifying capital and risk-weighted assets (RWA) are computed based on BSP regulations.

Under Basel III, the regulatory qualifying capital of the Parent Company consists of CET1 capital, which comprises paid-up common stock, retained earnings including current year profit, restricted retained earnings, net unrealized gains or losses on FVOCI securities, cumulative foreign currency translation) and other comprehensive income (equity share on decline in value of investment securities of investees and unrealized loss on remeasurement of retirement obligation) less required deductions such as unsecured credit accommodations to directors, officers, stockholders and related interests (DOSRI), subsidiaries and affiliates, deferred tax assets, other intangible assets, defined benefit pension fund assets and goodwill. The other component of regulatory capital is Tier 2 (supplementary) capital which includes general loan loss provision.

The RWA consist of total assets less cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the Monetary Board of the BSP.

As of December 31, 2019 and 2018, the Group has no exposures to securitization structures, contracts that provide credit protection through credit derivatives and investments in other types of structured products.

Standardized credit risk weights were used in the credit assessment of asset exposures. Credit risk rating assessments from Moodys, Fitch and PhilRatings are applied for cash on hand, while assessment from PhilRatings are applied for the investment exposures. The eligible credit risk mitigants are investments with guarantees from the Government.

Operational RWA are computed using the Basic Indicator Approach.

The Group and its individual regulated operations have complied with all externally imposed capital requirements throughout the period.

The issuance of BSP Circular No. 639 covering the Internal Capital Adequacy Assessment Process (ICAAP) in 2009 supplements the BSP's risk-based capital adequacy framework under Circular No. 538. In compliance with this new circular, the Metrobank Group has adopted and developed its ICAAP framework to ensure that the appropriate level and quality of capital is maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Group. The level and structure of capital are assessed and determined in light of the Group's business environment, plans, performance, risks and budget, as well as regulatory edicts. The Group follows the Metrobank Group's ICAAP framework and submits the result of its assessment to the Ultimate Parent Company. The BSP requires submission of ICAAP documents on a group-wide basis every January 31. The Group, through the Ultimate Parent Company, has complied with the requirement.

The Group has taken into consideration the impact of the foregoing requirements to ensure that the appropriate level and quality of capital are maintained on an ongoing basis.

Liquidity Coverage Ratio (LCR)

The issuance of BSP Circular No. 905 and 995 in 2016 and 2018, respectively, provides the implementing guidelines on LCR and disclosure standards that are consistent with the Basel III framework. The LCR is the ratio of high-quality liquid assets to total net cash outflows which should not be lower than 100.00%. During the observation period which started from January 1, 2018 to December 31, 2018, the Group shall comply with the minimum LCR requirement of 90.0%. Issuance of BSP Circular No. 1035 in 2019 moved the observation period until December 31, 2019 with the prescribed minimum ratio of 70.0%. Effective, January 1, 2020, the Group shall comply with the prescribed minimum ratio of 100%. As of

December 31, 2019 and 2018, the LCR in single currency as reported to the BSP, was at 153.8% and 132.8%, respectively for the Group, and 192.0% and 148.3%, respectively for the Parent Company.

Net Stable Funding Ratio (NSFR)

On June 6, 2018, the BSP issued BSP Circular No.1007 covering the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards – NSFR. The NSFR is aimed to promote long-term resilience against liquidity risk by requiring the Group to maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. It complements the LCR, which promotes short term resilience of the Group's liquidity profile. The Group shall maintain an NSFR of at least 100 percent (100%) at all times. The implementation of the minimum NSFR shall be phased in to help ensure that the Group can meet the standard through reasonable measures without disrupting credit extension and financial market activities. An observation period was set initially from July 1 to December 31, 2018 which was later on moved to December 31, 2019 based on BSP Circular No. 1034 series of 2019 with minimum NSFR requirement of 70.0%. Effective, January 1, 2020, the Group shall comply with the prescribed minimum ratio of 100%. As of December 31, 2019 and 2018, the NSFR as reported to the BSP, was at 122.5% and 118.6%, respectively for the Group, and 128.2% and 121.8%, respectively for the Parent Company.

The computation of retained earnings available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following the BSP guidelines.

In the consolidated financial statements, a portion of the Group's retained earnings corresponding to the net earnings of the subsidiaries and accumulated equity in net earnings of the associates amounting to ₱5.2 billion and ₱4.5 billion as of December 31, 2019 and 2018, respectively, is not available for dividend declaration. The accumulated equity in net earnings becomes available for dividends upon receipt of cash dividends from the investees. In addition, the amount of retained earnings equivalent to the cost of treasury shares being held by the Parent Company is also restricted from being declared and issued as dividends.

Minimum Capital Requirement

As required by the 'Omnibus Rules and Regulations for Investment Houses and Universal Banks Registered as Underwriters of Securities', investment houses shall have a minimum initial paid-in capital of ₱300.0 million or such amount as the BSP may prescribe at the time of incorporation. Further, BSP requires a ₱200.0 million minimum paid-in capital for investment houses to be established in Metro Manila.

The Parent Company's paid-in capital is ₱6.3 billion, which is above the required externally imposed minimum paid-in capital.

22. Retirement Plans

The Parent Company, FMSBC and FAMI have funded, noncontributory defined benefit retirement plans covering substantially all its officers and regular employees. Under these retirement plans, all covered officers and employees are entitled to cash benefits after satisfying certain age and service requirements.

The Parent Company's, FMSBC's and FAMI's annual contribution to the retirement plan consists of a payment covering the current service cost, amortization of the unfunded actuarial accrued liability and interest on such unfunded actuarial liability.

The costs of defined benefit retirement plans as well as the present value of the retirement liability are determined using actuarial valuations. The actuarial valuation involves making various assumptions.

The principal assumptions used in determining the retirement liability for the defined benefit retirement plans are shown below:

	Group		
	2019	2018	2017
Retirement age	55	55	55
Average remaining working life	7 years	7 years	7-9 years
Discount rate	4.6%-4.8%	7.2%-7.3%	5.6% - 5.8%
Expected rate of salary increase	6.3%	5.0%	5.0%
Employee turnover rate	10.1%-13.2%	10.4%-14.6%	9.1%-10.7%

	Parent Company		
	2019	2018	2017
Retirement age	55	55	55
Average remaining working life	7 years	7 years	7 years
Discount rate	4.6%	7.2%	5.6%
Expected rate of salary increase	6.3%	5.0%	5.0%
Employee turnover rate	10.1%	10.4%	10.7%

The amounts recognized in the Group's and the Parent Company's statements of financial position follows:

Consolidated													
Net benefit cost					Remeasurements in other comprehensive income								
January 1, 2019	Current service cost	Past service Cost	Net interest	Subtotal	Benefits paid	Return on plan assets (excluding amount included in net interest)	Actuarial changes arising from experience adjustments	Actuarial changes arising from changes in financial assumptions	Actuarial changes arising from changes in demographic assumptions	Subtotal	Contributions paid	December 31, 2019

The maximum economic benefit available is a combination of expected refunds from the plan and reductions in future contributions.

The fair values of plan assets by each class as at the end of the reporting periods are as follows:

	Consolidated	
	2019	2018
Cash and cash equivalents	₱2,158,834	₱13,350,484
Equity instruments		
Services	10,581,716	9,500,000
Industrial	-	148,425
Debt instruments		
Government securities	158,080,862	130,517,206
Below AAA and unrated private debt securities	29,531,922	32,212,549
Investment in mutual funds/UITF	108,188,753	89,398,239
Loans and receivables	-	2,385,600
Other assets	19,310	7,718,720
	308,561,397	285,231,223
Less: Other Payables	6,406,338	355,125
Fair value of plan assets	₱302,155,059	₱284,876,098

	Parent Company	
	2019	2018
Cash and cash equivalents	₱1,630,865	₱9,710,446
Equity instruments		
Services	10,581,716	9,500,000
Industrial	-	148,425
Debt instruments		
Government securities	147,152,104	123,131,312
Below AAA and unrated private debt securities	26,503,878	29,313,957
Investment in mutual funds/UITF	91,601,684	75,337,390
Loans and receivables	-	2,300,154
Other assets	17,800	986,241
	277,488,047	250,427,925
Less: Accrued trust fee payable	-	284,567
Other payables	11,592,439	1,525
Fair value of plan assets	₱265,895,608	₱250,141,833

As of December 31, 2019 and 2018, equity securities included in the plan assets include shares from the Ultimate Parent Company and other related parties amounting to ₱99.2 million and ₱80.9 million, respectively (Note 27).

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

	December 31, 2019			
	Consolidated		Parent Company	
	Possible fluctuations	Increase (decrease)	Possible fluctuations	Increase (decrease)
Discount rates	+1.0%	(22,043,881)	+1.0%	(17,236,708)
	-1.0%	24,730,626	-1.0%	19,235,532
Turnover rate	+2.0%	(10,416,679)	+2.0%	(7,342,148)
	-2.0%	11,852,525	-2.0%	8,253,619
Future salary increase rate	+1.0%	25,859,143	+1.0%	20,172,395
	-1.0%	(23,476,450)	-1.0%	(18,410,176)

The Group and the Parent Company expect to contribute ₱10.6 million and nil, respectively, to its defined benefit pension plan in 2020.

The average duration of the defined benefit retirement liability at the end of the reporting period ranges from 10.6 years to 14.9 years for the Group and 10.6 years for the Parent Company.

23. Service Charges, Fees and Commissions and Miscellaneous Income (Loss)

The table below presents the disaggregation of service charges, fees and commission by type of fee:

	Consolidated			Parent Company		
	2019	2018	2017	2019	2018	2017
Advisory fees	₱177,394,973	₱3,064,516	₱131,290,323	₱189,405,165	₱16,145,811	₱145,952,155
Issue management fees	113,384,768	239,834,919	3,000,000	113,384,768	239,834,919	3,000,000
Underwriting fees	110,938,944	65,652,975	152,256,307	110,938,944	65,652,975	152,256,307
Arranger's fees	65,255,347	60,174,731	19,824,382	65,255,347	60,174,731	19,824,382
Others	188,101,147	241,941,035	250,265,105	36,796,512	33,519,926	29,836,299
	₱655,075,179	₱610,668,176	₱556,636,117	₱515,780,736	₱415,328,362	₱350,869,143

'Others' pertains to selling fees, management fees, incentive fees, Stand-by letter of credit fees and brokering fees.

Breakdown of Miscellaneous income (loss) is as follows:

	Consolidated			Parent Company		
	2019	2018	2017	2019	2018	2017
Miscellaneous income						
Sales load and redemption fees	₱2,281,511	₱3,276,447	₱3,090,899	₱-	₱-	₱-
Rental income (Note 24)	2,217,990	2,149,543	4,638,480	2,217,990	2,149,543	4,638,480
Others	10,945,180	75,790,887	33,024,038	4,121,580	56,322,217	10,456,224
	15,444,681	81,216,877	40,753,417	6,339,570	58,471,760	15,094,704
Miscellaneous loss						
Loss from sale/redemption of unquoted commercial papers (Note 8)	-	-	(1,330,274)	-	-	(1,660,140)
	-	-	(1,330,274)	-	-	(1,660,140)
	₱15,444,681	₱81,216,877	₱39,423,143	₱6,339,570	₱58,471,760	₱13,434,564

In 2018, Others include break funding charges amounting to ₱53.7 million from the pretermination of certain loan with the Parent Company, and income from previous years' contributions to Clearing and Trade Guarantee Fund (CTGF) amounting to ₱11.73 million. On March 13, 2018, the SEC resolved to approve the Securities Clearing Corporation of the Philippines (SCCP)'s proposal to make the clearing members' contributions to CTGF refundable to clearing members upon cessation of their business and/or termination of their membership with SCCP, under certain conditions. Accordingly, FMSBC recognized as other assets and other income the CTGF contributions paid in prior years.

In 2017, Others include training contract penalty and reversal of long-outstanding account payables totaling ₱6.4 million.

24. Leases

Company as a lessee

The Company has lease contracts for its office premises for a period of 3 years renewable by mutual agreement of the parties at the end of term of the lease.

The following are the amounts recognized in the statements of income in 2019:

	Consolidated	Parent Company
Depreciation expense of right-of-use assets included		
in property and equipment	₱41,475,576	₱24,951,358
Interest expense on lease liabilities	6,327,128	4,119,128
Expenses relating to short-term leases	3,753,606	–
Total amount recognized in the statements of income	₱51,556,310	₱29,070,486

The rollforward analysis of lease liabilities follows:

	Consolidated	Parent Company
Balance at beginning of year	₱–	₱–
Effect of adoption of PFRS 16 (Note 2)	100,526,611	63,042,735
Additions	1,197,936	–
Interest expense	6,327,128	4,119,128
Payments	(43,954,585)	(26,938,707)
Lease modification	(4,056,064)	(4,056,064)
Balance at end of year	₱60,041,026	₱36,167,091

Shown below is the maturity analysis of the undiscounted lease payments as of December 31, 2019:

	Consolidated	Parent
1 year	₱41,502,949	₱29,501,303
more than 1 year to 2 years	25,024,973	15,110,405
more than 2 years to 3 years	5,540,725	–
more than 3 years to 4 years	1,316,119	–
more than 5 years	468,107	–

Prior to January 1, 2019, the rental expense recognized under ‘Rent, light and water’ in the statements of income for the years ended December 31, 2018 and 2017 amounted to ₱53.1 million and ₱59.7 million, respectively, for the Group, and ₱31.6 million and ₱39.4 million, respectively, for the Parent Company.

Future minimum rentals payable under non-cancellable operating leases of the Group as of December 31, 2018 and 2017 follow:

	2018	2017
Within one year	₱42,548,835	₱16,684,670
After one year but not more than five years	91,436,383	–
	₱133,985,218	₱16,684,670

25. Miscellaneous Expenses

This account consists of:

	Consolidated			Parent Company		
	2019	2018	2017	2019	2018	2017
Insurance	₱23,495,288	₱21,905,890	₱18,210,656	₱14,910,578	₱13,801,541	₱11,896,156

Provision for (benefit from) deferred tax recognized in other comprehensive income (loss) follow:

	Consolidated			Parent Company		
	2019	2018	2017	2019	2018	2017
Unrealized loss on FVOCI debt investments	₱–	(₱2,049,559)	₱–	₱–	₱–	₱–
Unrealized gain on AFS debt investments	–	–	3,353,231	–	–	₱11,249
Remeasurements of retirement liability	19,667,863	3,383,643	(18,975,548)	12,752,034	5,064,433	(17,479,231)
	₱19,667,863	₱1,334,084	(₱15,622,317)	₱12,752,034	₱5,064,433	(₱17,467,982)

Under Philippine tax laws, the Parent Company and its domestic subsidiaries are subject to percentage and other taxes (presented as ‘Taxes and licenses’ in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax (GRT) and documentary stamp taxes (DST).

Income taxes include regular corporate income tax (RCIT), as discussed below, as well as final withholding taxes paid at the rates of 20% of gross interest income from peso-denominated debt instruments and other deposit substitutes, 15% of gross interest income from foreign currency deposits in a depository bank under the expanded foreign currency deposit system and a 15% final tax imposed on net capital gains realized during the taxable year from the disposition of shares of stock in a domestic corporation not traded in the stock exchange.

The RCIT rate shall be 30.0%. Interest allowed as a deductible expense is reduced by an amount equivalent to 33.0% of interest income subjected to final tax.

Current tax regulations also provide for the ceiling on the amount of entertainment, amusement and recreation (EAR) expense that can be claimed as a deduction against taxable income. Under the regulation, EAR expense allowed as a deductible expense for a service company like the Parent Company and its subsidiaries is limited to the actual EAR paid or incurred but not to exceed 1.0% of net revenue. The regulations also provide for an MCIT of 2.0% on modified gross income and allow a NOLCO. The MCIT and NOLCO may be applied against the Group's and Parent Company's income tax liability and taxable income, respectively, over a three-year period from the year of inception.

The components of the net deferred tax assets follow:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Deferred tax assets on:				
Unamortized past service cost	₱14,172,168	₱17,772,444	₱11,591,859	₱14,378,824

Retirement liability	8,511,468	3,706,639	1,975,750	–
Allowance for impairment losses	8,010,427	8,057,227	8,010,427	8,057,227
Accrued expenses	9,985,620	5,935,052	–	–
MCIT	704,691	–	–	–
Unrealized loss on FVTPL investments	–	163,226	–	163,226
Others	15,687,301	15,687,301	–	–
	69,798,594	51,321,889	21,578,036	22,599,277
Deferred tax liabilities on:				
Unrealized gain on FVTPL investments	884,642	–	41,013	–
Retirement asset	–	16,186,654	–	11,985,740
Unrealized gain on FVOCI investments	–	335,429	–	–
	884,642	16,522,083	41,013	11,985,740
	₱68,913,952	₱34,799,806	₱21,537,023	₱10,613,537

The components of the net deferred tax liabilities follow:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Deferred tax liabilities on:				
Unrealized foreign exchange gain	₱4,007,210	₱5,178,369	₱–	₱–

The Parent Company and certain subsidiaries did not set up deferred tax assets on the following:

	Consolidated		Parent Company	
	2019	2018	2019	2018
Temporary differences on:				
NOLCO	₱793,426,622	₱805,360,965	₱73,048,864	₱24,236,309
Carryforward benefits of MCIT	14,240,811	8,403,808	14,236,719	8,397,014
Allowance for impairment losses	–	463,677	–	–
	₱807,667,433	₱814,228,450	₱87,285,583	₱32,633,323

The Group believes that it is not probable that these temporary differences will be realized before the three-year expiration.

As of December 31, 2019 and 2018, deferred tax liabilities have not been recognized on the undistributed earnings of certain subsidiaries and associates (Note 10), and the related equity in translation adjustment since such amounts are not taxable (Note 10).

Details of NOLCO for the Group as of December 31, 2019 are as follows:

Consolidated					
Inception Year	Amount	Used	Expired	Balance	Expiry Year
2016	₱257,259,137	₱-	₱257,259,137	₱-	2019

Effective income tax rate	38.2%	38.3%	24.5%	30.7%	30.9%	18.9%

27. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions or if they are subjected to common control or common significant influence. Related parties may be individuals or corporate entities.

The Group and the Parent Company have transactions with its subsidiaries, associated companies, affiliates, and with certain related interests collectively referred to as directors, officers, stockholders and other related interests (DOSRI). These transactions consist primarily of loan transactions, management contracts, outright purchases and sales of trading and investment securities, business and development support and other regular banking transactions.

Existing BSP regulations limit the amount of individual loans to DOSRI, of which 70.0% must be secured, to the total amount of their respective deposits and book value of their respective investments in the Parent Company. In the aggregate, loans to DOSRI generally should not exceed 100.0% of the Parent Company's combined capital accounts, net of deferred income tax, unbooked valuation reserves and other capital adjustments as may be required by the BSP.

The following table shows information on loans to DOSRI as of December 31, 2019 and 2018:

	2019	2018
Total outstanding DOSRI loans	₱8,282,245	₱9,907,937
Percent of DOSRI loans to total loans	1.6%	2.0%
Percent of unsecured DOSRI loans to total DOSRI	-%	-%
Percent of past due DOSRI loans to total DOSRI	-%	-%
Percent of non-performing DOSRI loans to total DOSRI	-%	-%

Under BSP Circular No. 423, loans and other credit accommodations and guarantees secured by assets are considered as non-risk by the Parent Company and therefore excluded from DOSRI individual and aggregate ceilings.

Total interest income on DOSRI loans amounted to ₱0.8 million, ₱0.8 million and ₱1.1 million in 2019, 2018 and 2017, respectively.

The Group and the Parent Company settles their related party transactions in cash.

The following table provides the total amounts of transactions that have been entered into with related parties for the relevant financial year:

Investment in debt securities of the Parent Company

The subsidiaries had investments in debt securities of the Parent Company amounting to ₱80.2 million as of December 31, 2018 which are eliminated and classified as treasury bonds in the consolidated financial statements of the Group.

Management fees

The Parent Company and its subsidiaries executed a management contract for a monthly fee. Management fee represents payments for services rendered by seconded employees from the Parent Company such as accounting, taxation, financial control, legal and related services, administrative services and government reportorial requirements.

Management fee charged by the Parent Company to the subsidiaries amounted to ₱11.8 million and ₱6.8 million in 2019 and 2018, respectively.

28. Commitments and Contingent Accounts

Commitments

The following is a summary of commitments/facilities at their peso-equivalent contractual amounts arising from off-balance sheet items of the Group and Parent Company as of December 31, 2019 and 2018:

Stand-by letter of credit	₱410,000,000
Others	750,000
	<u>₱410,750,000</u>

Contingencies

In the normal course of business, the Group is involved in various contingencies which, in the opinion of the management, will not have a material effect on the Group's consolidated financial statements.

29. Earnings Per Share

EPS are computed as follows:

	Consolidated		
	2019	2018	2017
a. Net income attributable to equity holders of the Parent Company	₱402,447,348	₱503,033,265	₱1,174,945,273
b. Weighted average number of common shares	372,467,216	372,530,336	372,535,016
c. Basic/Diluted EPS (a/b)	₱1.1	₱1.4	₱3.2

In 2019, 2018 and 2017, there are no potential shares that have a dilutive effect on the basic EPS of the Parent Company.

30. Offsetting of Financial Assets and Liabilities

PFRS 7 requires the Group to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreements or similar arrangements.

The effects to the Group and the Parent Company of these arrangements are disclosed in the succeeding tables.

Financial assets

Breakdown of total loans as to security and status

As to security

The following table shows the breakdown of loans and discounts, gross of unearned discounts, of the Group and of the Parent Company as to secured and unsecured, and the breakdown of secured loans as to type of security as of December 31, 2019 and 2018 (amounts in thousands).

	Consolidated				Parent Company			
	2019		2018		2019		2018	
	Amount	%	Amount	%	Amount	%	Amount	%
Secured loans:								
Chattel	₱356,378	67.1	₱417,815	82.9	₱354,487	66.3	₱414,863	83.2
Real estate	74,681	14.0	78,272	15.6	74,681	14.0	78,272	15.6
	431,059	81.1	496,087	98.5	429,168	80.3	493,135	98.8
Unsecured loans	100,271	18.9	7,769	1.5	105,273	19.7	5,778	1.2
	₱531,330	100.0	₱503,856	100.0	₱534,441	100.0	₱498,913	100.0

As to status

As of December 31, 2019 and 2018, the Group and the Parent Company have no secured and unsecured non-performing loans (NPL).

Under BSP Circular 941, an account or exposure is considered non-performing, even without any missed contractual payments, when it is deemed impaired under existing applicable accounting standards, classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal and interest is unlikely without foreclosure of collateral, in the case of secured accounts. All other accounts, even if not considered impaired, shall be considered non-performing if any contractual principal and/or interest are past due for more than ninety (90) days, or accrued interests for more than 90 days have been capitalized, refinanced, or delayed by agreement.

Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after it has become past due. Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

Non-performing loans, investment, receivables, or any financial asset (and/or any replacement loan) shall remain classified as such until (a) there is a sufficient evidence to support that full collection of principal and interests is probable and payments of interest and/or principal are received for at least six (6) months; or (b) written-off.

Related party loans

As of December 31, 2019 and 2018, the Group's and the Parent Company's related party loans solely consist of DOSRI loans, as shown below:

	<u>Group and Parent Company</u>	
	2019	2018
Total DOSRI loans	₱8,282,245	₱9,907,937
Unsecured DOSRI loans		
% of DOSRI loans to total loan portfolio	1.6%	2.0%
% of unsecured DOSRI loans		
to total DOSRI loans	0%	0%
% of past due DOSRI loans		
to total DOSRI loans	0%	0%
% of non-accruing DOSRI accounts to total DOSRI loans	0%	0%

Secured liability and assets pledged as security

The Parent Company has no bills payable under repurchase agreements as of December 31, 2019 and 2018.

Commitments and Contingencies

Following is a summary of the Parent Company's commitments and contingent accounts:

	2019	2018
Stand-by letter of credit	₱410,000,000	₱410,000,000
Others	750,000	750,000

34. Supplementary Information Under Revenue Regulations (RR) 15-2010

On November 25, 2010, the BIR issued RR 15-2010 to amend certain provisions of RR 21-2002. RR 15-2010 provides that starting 2010 the notes to financial statements shall include information on taxes and licenses paid or accrued during the taxable year.

The Parent Company reported and/or paid the following types of taxes for the year:

GRT and DST

Under the Philippine tax laws, financial institutions are subject to percentage and other taxes as well as income taxes. Percentage and other taxes paid by the Parent Company consist principally of GRT and DST.

Taxes and Licenses

This includes all other taxes, DST, local tax, fringe benefit tax including licenses and permit fees:

DST	₱121,094,815
GRT	123,905,006
Local taxes	2,179,059
Real estate tax	476,515
Fringe benefit tax	188,032
Licenses, fees and others	1,102,489
	<hr/>
	₱248,945,916

Withholding Taxes

Details of total remittances and balances as of December 31, 2019 are as follows:

	Total Remittances	Balance as of December 31
Final withholding taxes on deposit substitute borrowings	₱180,792,047	₱4,308,469
Withholding taxes on compensation and benefits	₱91,576,379	4,981,220

STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS

The management of First Metro Investment Corporation (the Company) is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, for the years ended December 31, 2019 and 2018, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders.

SyCip Gorres Velayo and Co., the independent auditor appointed by the stockholders, has audited the financial statements of the company in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

Financial assets at FVTPL and FVOCI investments are measured in the statement of financial position at fair value.

Loans and receivables are measured in the statement of financial position at amortized cost using the effective interest rate and method, less allowance for credit losses. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are an integral part of the effective interest rate (EIR).

Amortized Cost investments are measured in the statement of financial position at amortized cost using the effective interest rate and method, less impairment losses, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR.
